RISK FACTORS

The purchase of Securities may involve substantial risks and is suitable only for investors with the knowledge and experience in financial and business matters necessary to evaluate the risks and the merits of an investment in the Securities. Before making an investment decision, prospective purchasers of Securities should consider carefully, in the light of their own financial circumstances and investment objectives, all the information set forth in this Base Prospectus.

The assessment of risks associated with a particular Series of Securities may be different depending on various factors. In particular, the assessment of risk on a case-by-case basis may be different for investors.

Prospective purchasers of the Securities should recognise that the Securities may decline in value and should be prepared to sustain a total loss of their investment in the Securities.

Potential investors should consider two main categories of risks, I. "Risks relating to the Securities" which include 1. "General Risks relating to the Securities"; 2. "General Risks relating to Changes in Market Conditions"; and 3. "Risks relating to specific Product Categories", and II. "Risks relating to the Issuer":

A.I. Risks relating to the Securities

1. General Risks relating to the Securities

General

An investment in the Securities entails certain risks, which vary depending on the specification and type or structure of the Securities. An investment in the Securities is only suitable for potential investors who (i) have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in the Securities and the information contained in or incorporated by reference into this Base Prospectus or any applicable supplement thereto; (ii) have the requisite knowledge to evaluate such merits and risks in the context of the potential investor's particular financial situation and to evaluate the impact the Securities will have on their overall investment portfolio; (iii) understand thoroughly the terms and conditions of the relevant Securities and are familiar with the behaviour of the financial markets; (iv) are capable of bearing the economic risk of an investment in the Securities until the maturity of the Securities; and (v) recognise that it may not be possible to dispose of the Securities for a substantial period of time, if at all before maturity.

Interest Rate Risk

The interest rate risk is one of the central risks of interest-bearing Securities. The interest rate level on the money and capital markets may fluctuate on a daily basis and cause the value of the Securities to change on a daily basis. The interest rate risk is a result of the uncertainty with respect to future changes of the level of the current interest rate on the capital market (the "**Market Interest Rate**"). In particular, holders of Fixed Rate Securities are exposed to an interest rate risk that could result in a diminution in value if the level of the Market Interest Rate increases. In general, the effects of this risk increase as the Market Interest Rates increase.

Currency Risk

A holder of a Security denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield and/or the redemption amount of such Securities. A change in the value of any foreign currency in which the Security is denominated against the Euro, for example, will result in a corresponding change in the Euro value of a Security denominated in a currency other than Euro. If the exchange rate falls and the value of the Euro correspondingly rises, the price of the Security and the value of interest and principal payments made thereunder expressed in Euro falls.

Credit Risk

Any person who purchases the Securities is relying upon the creditworthiness of the Issuer and has no rights against any other person. Holders of Securities (each a "**Holder**" and, together, the "**Holders**") are subject to the risk of a partial or total failure of the Issuer to make interest and/or redemption payments that the Issuer is obliged to make under the Securities. The worse the creditworthiness of the Issuer, the higher the risk of loss.

Spread Risk

Spread risk is defined as risk that quotations of financial instruments deviate more or less from the general market. Hence, spreads combine components that reflect creditworthiness as well as liquidity aspects. The spread is the margin, which the Issuer pays the investor for taking a risk ("**Spread**"). Spreads are added as margins to the current interest rate (without risk).

Factors influencing the Spread include, among other things, the creditworthiness and rating of the Issuer, the value of assets in the cover pool, probability of default, recovery rate and the remaining term to maturity of the Security. The liquidity situation, the general level of interest rates, overall economic developments, and the currency, in which the relevant obligation is denominated may also have a negative effect.

Holders are exposed to the risk that the Spread widens which results in a decrease in the price of the Securities.

Rating of the Securities

A rating of Securities, if any, may not adequately reflect all risks of the investment in such Securities. Equally, ratings may be suspended, downgraded or withdrawn. Such suspension, downgrading or withdrawal may have an adverse effect on the market value and trading price of the Securities. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by a rating agency at any time.

Reinvestment Risk

Holders may be exposed to risks connected to the reinvestment of interest income or redemption proceeds received from a Security. The return the Holder will receive from a Security depends not only on the price and the interest rate of the Security but also on whether or not the interest received during the term of the Security can be reinvested at least at the same interest rate than the interest rate provided for in the Security. The risk that the general Market Interest Rate falls below the interest rate of the Security during its term is generally called reinvestment risk. The extent of the reinvestment risk depends on the individual features of the relevant Security.

Inflation Risk

The inflation risk is the risk of future money depreciation. The real yield from an investment is reduced by inflation. The higher the rate of inflation, the lower the real yield on a Security. If the inflation rate is equal to or higher than the nominal yield, the real yield is zero or even negative.

Purchase on Credit – Debt Financing

If a loan is used to finance the acquisition of the Securities by a Holder and the Securities subsequently go into default, or if the trading price diminishes significantly, the Holder may not only have to face a potential loss on its investment, but it will also have to repay the loan and pay interest thereon. A loan may significantly increase the risk of a loss. Potential investors should not assume that they will at all times be able to repay the loan or pay interest thereon. Instead, potential investors should assess their financial situation prior to an investment, as to whether they are able to pay interest on the loan, repay the loan on demand, and contemplate that they may suffer losses.

Transaction Costs/Charges

When Securities are purchased or sold, several types of ancillary costs (including transaction fees and commissions) are incurred in addition to the purchase or sale price of the Security. These ancillary costs may significantly reduce or eliminate any profit from holding the Securities. Credit institutions as a rule charge commissions which are either fixed minimum commissions or pro-rata commissions, depending on the order value. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Holders may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

Change of Law

The Terms and Conditions of the Securities will be governed by German law. No assurance can be given as to the impact of any possible judicial decision or change to German law (or law applicable in Germany), or administrative practice after the date of this Base Prospectus.

Taxation

Potential investors should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Securities are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial instruments. Potential investors are advised not to rely upon the tax section contained in this Base Prospectus but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, sale and redemption of the Securities. Only these advisors are in a position to duly consider the specific situation of the potential investor. The afore-mentioned individual tax treatment of the Securities with regard to any potential investor may have an adverse impact on the return which any such potential investor may receive under the Securities.

No Gross-Up of the Pfandbriefe

All payments made by the Issuer in respect of the Pfandbriefe shall be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted. Holders will not be entitled to receive grossed-up amounts to compensate for any such tax, duty, withholding or other payment. Hence, any such deduction will decrease the return on the Pfandbriefe.

FATCA (*Foreign Account Tax Compliance Act*)

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended, ("FATCA") impose a reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to any non-U.S. financial institution (a "**foreign financial institution**", or "FFI" (as defined by FATCA)) that does not enter into an agreement with the U.S. Internal Revenue Service ("IRS") to provide the IRS with certain information in respect of its account holders and investors (such FFI by entering into an agreement becoming a "**Participating FFI**") or is not otherwise exempt from or in deemed compliance with FATCA. The Issuer will be classified as an FFI.

The withholding regime has been phased in beginning on 1 July 2014 for payments from sources within the United States of America and will apply to "foreign passthru payments" (a term not yet defined) no earlier than on and after 1 January 2019. This withholding would potentially apply to payments in respect of any Securities that are issued after the "**Grandfathering Date**", which is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, or which are materially modified for U.S. federal income tax purposes after the Grandfathering Date.

The United States of America (the "**U.S.**") have entered into intergovernmental agreements or reached intergovernmental agreements in principal with many other jurisdictions, including the Federal Republic of Germany ("**Germany**"), which modify the application of the rules to FFIs in such jurisdictions. Under the Agreement between the United States of America and the Federal Republic of Germany to Improve International Tax Compliance and with respect to the United States Information and Reporting Provisions Commonly Known as the Foreign Account tax Compliance Act (the

"**German IGA**"), an entity classified as an FFI that is treated as resident in Germany is expected to provide the German tax authorities with certain information on U.S. holders of its securities. Information on U.S. holders will be automatically exchanged with the IRS. The Issuer is an FFI and provided it complies with the requirements of the German IGA and the German legislation implementing the German IGA, it should not be subject to FATCA withholding on any payments it receives and it should not be required to withhold tax on any "foreign passthru payments" that it makes.

Although the Issuer will attempt to satisfy any obligations imposed on it to avoid the imposition of the FATCA withholding tax, no assurance can be given that the Issuer will be able to satisfy these obligations. Accordingly, the Issuer and financial institutions through which payments on the Securities are made may be required to withhold FATCA Withholding if any FFI through or to which payment on such Securities is made is not a Participating FFI, or otherwise exempt from or in deemed compliance with FATCA.

The application of FATCA to interest, principal or other amounts paid with respect to the Securities is not clear. If FATCA were to require that an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, principal or other payments on (or with respect to) the Securities, then neither the Issuer, any paying agent nor any other person would, pursuant to the Terms and Conditions of the Securities, be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may, if FATCA is implemented as currently proposed by the IRS, receive less interest or principal than expected.

Independent Review and Advice

Each potential investor must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Securities is fully consistent with its (or if it is acquiring the Securities in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Securities as principal or in a fiduciary capacity) and is a fit, proper and suitable investment for it (or if it is acquiring the Securities in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Securities. The Issuer disclaims any responsibility to advise potential investors of any matters arising under the law of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments or deliveries on the Securities. If a potential investor does not inform itself in an appropriate manner with regard to an investment in the Securities, the investor's risks disadvantages in the context of its investment.

Settlement via the Clearing System

Securities issued under the Programme may be represented by one or more Global Note(s). Such Global Note(s) will be deposited with Clearstream Banking AG, Frankfurt am Main ("**CBF**") or with a common depositary for Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking S.A., Luxembourg ("**CBL**", and together with CBF and Euroclear, the "**Clearing System**"). Holders will not be entitled to receive definitive Securities. While the Securities are represented by one or more Global Note(s) Holders will be able to trade their beneficial interests only through the relevant Clearing System.

While the Securities are represented by one or more Global Note(s), the Issuer will discharge its payment obligations under the Securities by making payments to the relevant Clearing System for distribution to its account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of the relevant Clearing System to receive payments under the relevant Securities. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Note(s).

Expansion of the Spread between Bid and Offer Prices

In special market situations, where the Issuer is completely unable to conclude hedging transactions, or where such transactions are very difficult to conclude, the spread between the bid and offer prices

which may be quoted by the Issuer may be temporarily expanded, in order to limit the economic risks to the Issuer. Thus, Holders selling their Securities on a stock exchange or on the over-the-counter market may be doing so at a price that is substantially lower than the actual value of the Securities at the time of sale.

Early Redemption of the Pfandbriefe

The Terms and Conditions of the Pfandbriefe do not provide for any right of early redemption. Hence, Holders have no right to demand early redemption of the Pfandbriefe during the term of the Pfandbriefe. The realisation of any economic value in the Pfandbriefe (or portion thereof) is only possible by way of their sale (see also below under "Market Value of Securities").

Early Redemption of the Notes

The Issuer may have the right to call the Notes prior to maturity for reasons of taxation. In the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of Germany, or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Notes in accordance with the Terms and Conditions. If the Issuer redeems any Note prior to maturity, an investor may not be able to reinvest the redemption proceeds resulting from the early redemption amount in a comparable instrument at an effective interest rate as high as that of the relevant Notes, if interest is paid on the Notes, and a holder of such Note is exposed to the risk that due to early redemption his investment may have a lower than expected yield.

Risks relating to the applicability of the German Bond Act (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*) (Not applicable with regard to Pfandbriefe)

The Final Terms of a Tranche of Notes may provide for the applicability of the German Bond Act. In the case that, pursuant to the Final Terms, §§ 5 – 22 of the Bond Act are applicable, the Terms and Conditions may be amended and/or a Holder's joint representative may be appointed even against the will of a Holder. In such a case, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. Since such a majority resolution is binding on all Holders, certain rights of such Holder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled against the will of such Holder. If the Final Terms of a Tranche of Notes provide for the appointment of a Holders' joint representative, either in the Terms and Conditions or by a majority resolution of the Holders, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holders' joint representative who is then exclusively responsible to claim and enforce the rights of all Holders.

Risks relating to regulatory Bail-in Tool and other Resolution Measures (Not directly applicable with regard to Pfandbriefe)

On 15 May 2014, Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms was adopted (the "Bank Recovery and Resolution Directive" or the "**BRD**") which was implemented into German law by the Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz*, or the "**SAG**").

For banks established in the eurozone, such as the Issuer (as being part of the significant supervised group relating to ING Group N.V.), which are supervised within the framework of the Single Supervisory Mechanism (the "**SSM**"), Regulation (EU) No 806/2014 of the European Parliament and of the Council (the "**SRM Regulation**") provides for a coherent application of the resolution rules across the SSM under responsibility of the European Single Resolution Board (referred to as the "**Single Resolution Mechanism**" or "**SRM**"). Under the SRM, the Single Resolution Board is responsible for adopting resolution decisions in close cooperation with the European Central Bank, the European Commission, and national resolution authorities (such as the German Federal Financial Market Stabilisation Authority (*Bundesanstalt für Finanzmarktstabilisierung* – "**FMSA**")) in the event

that a significant supervised entity directly supervised by the European Central Bank, such as the Issuer, is failing or likely to fail and certain other conditions are met. National resolution authorities in the European Union member states concerned would implement such resolution decisions adopted by the Single Resolution Board in accordance with the powers conferred on them under national law transposing the BRRD.

If the Issuer is determined by the competent authority to be failing or likely to fail and certain other conditions are met (as set forth in the SRM Regulation, the SAG and other applicable rules and regulations), the competent resolution authority has the power to write down, including to write down to zero, claims for payment of the principal, interest or any other amount in respect of the Notes, to convert the Notes into ordinary shares or other instruments constituting common equity tier 1 capital (the write-down and conversion powers are hereinafter referred to as the "**Bail-in Tool**"), or to apply any other resolution measure including, but not limited to, any transfer of the obligations under the Notes to another entity, the amendment of the terms and conditions of the Notes (including, but not limited to, the variation of maturity of the Notes) or the cancellation of the Notes. The Bail-in tool and each of these other resolution measures are hereinafter referred to as a "**Resolution Measure**". The competent resolution authority may apply Resolution Measures individually or in any combination. The competent resolution authority will have to exercise the Bail-in Tool in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments, tier 2 capital instruments and other subordinated liabilities) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities (potentially including some liabilities under and in connection with Notes that do not constitute subordinated liabilities) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with the hierarchy of claims in normal insolvency proceedings. In this context, it should be noted that the European Commission published an extensive package of reforms to prudential standards proposing amendments to the framework applicable to financial institutions on 23 November 2016 (the "**Banking Reform Package**"), proposing to amend – amongst others – the BRRD. These proposals were subject to discussion in the course of 2017 and it can be expected that political compromise on the proposals will be reached in 2018. The revision of the BRRD will, *inter alia*, result in a revision of the existing minimum requirement for own funds and eligible liabilities ("**MREL**") regime and might therefore impact on the classification of liabilities as eligible liabilities for the purposes of MREL.

With regard to certain aspects of the Banking Reform Package, such as the ranking of unsecured debt instruments in insolvency hierarchy, the European legislator opted in favour of a fast-track procedure. Accordingly, political agreement could already be found, the respective amendment to the BRRD was published in the Official Journal of the European Union on 27 December 2017 and needs to be implemented into national law by 29 December 2018 at the latest. This will result in further changes to Section 46f of the German Banking Act (*Kreditwesengesetz*, the "**KWG**"), currently expected to enter into force in July 2018.

Pursuant to the current version of Section 46f (5)-(7) KWG, certain unsecured and unsubordinated debt instruments of the Issuer (hereinafter referred to as "**Non-Preferred Senior Obligations**") rank below the Issuer's other senior liabilities (hereinafter referred to as "**Preferred Senior Obligations**") in insolvency or in the event of the imposition of resolution measures, such as the Bail-in Tool, affecting the Issuer. Non-Preferred Senior Obligations continue to rank above the Issuer's contractually subordinated liabilities. This order of priority applies in a German insolvency proceeding or in the event of the imposition of resolution measures with the respect to the Issuer with effect for any senior unsecured debt instruments outstanding at this time. Among the Preferred Senior Obligations are, as defined in Section 46f (7) KWG, senior unsecured debt instruments whose terms provide that (i) the amount of repayment depends on the occurrence or non-occurrence of an event which is uncertain at the point in time when the senior unsecured debt instruments are issued, or settlement is effected in a way other than by monetary payment, or (ii) the amount of the interest payments depends on the occurrence or non-occurrence of an event which is uncertain at the point in

time when the senior unsecured debt instruments are issued unless the amount of the interest payments solely depends on a fixed or floating reference interest rate, and settlement is effected by monetary payment. Unsecured and unsubordinated Notes issued under the Prospectus that do not meet the terms described in (i) or (ii) above, are, therefore, expected to constitute Non-Preferred Senior Obligations that would bear losses in a German insolvency proceeding or in the event of the imposition of resolution measures before Preferred Senior Obligations. In a German insolvency proceeding or in the event of the imposition of a Resolution Measure with respect to the Issuer, the competent resolution authority or court would determine whether unsecured and unsubordinated Notes issued under the Prospectus qualify as Preferred Senior Obligations or as Non-Preferred Senior Obligations. FMSA, BaFin and the German Central Bank published a joint interpretative guide on the classification of certain liabilities under Section 46f (5)-(7) KWG. Therefore, the subordination by virtue of the German Banking Act could lead to increased losses for creditors of Notes that are considered to be Non-Preferred Senior Obligations. Holders are bound by any Resolution Measure. They would have no claim or any other right against the Issuer arising out of any Resolution Measure or increased losses incurred on the basis of the new order of priority introduced by the Resolution Mechanism Act. Depending on the Resolution Measure, there would be no obligation of the Issuer to make payments under the Notes.

A draft of the revised Section 46f KWG published in February 2018 provides for certain requirements that obligations have to fulfil to be classified as Non-Preferred Senior Obligations in the future, namely (i) a contractual minimum term of one year and (ii) the explicit reference in the terms and conditions that such obligations have a lower ranking in insolvency. In case the respective terms and conditions do not contain such reference, the obligations qualify as Senior Preferred Obligations. Non-Preferred Senior Obligations issued before entering into force of the new provisions maintain their (non-preferred) ranking.

The extent to which payment obligations under the Notes may be subject to Resolution Measures will depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, Resolution Measures will occur. The exercise of any Resolution Measure would in particular not constitute any right of a Holder to terminate the Notes. Potential investors should consider the risk that they may lose all or part of their investment, including the principal amount plus any accrued interest, if Resolution Measures are initiated, and should be aware that extraordinary public financial support for troubled banks, if any, would only potentially be used as a last resort after having assessed and exploited, to the maximum extent practicable, the Resolution Measures, including the Bail-in Tool.

2. General Risks relating to Changes in Market Conditions

Market Illiquidity

There can be no assurance as to how the Securities will trade in the secondary market or whether such market will be liquid or illiquid or that there will be a market at all. If the Securities are not traded on any securities exchange, pricing information for the Securities may be more difficult to obtain and the liquidity and market prices of the Securities may be adversely affected. The liquidity of the Securities may also be affected by restrictions on offers and sales of the securities in some jurisdictions. The more limited the secondary market is, the more difficult it may be for the Holders to realise the market value of the Securities prior to the exercise, expiration or maturity date.

Sale of the Securities is contingent on the availability of market participants willing to purchase the Securities at a commensurate price. If no such willing purchasers are available, the value of the Securities cannot be realised. The issue of the Securities entails no obligation on the part of the Issuer *vis-à-vis* the Holders to ensure market equilibrium or to repurchase the Securities.

Market Value of Securities

The market value of Securities may be negatively affected by a number of factors including, but not limited to, market interest and yield rates, market liquidity, the quality of the cover pool and the remaining term of the Securities.

The market value of Securities also depends on a number of interrelated factors, including economic, financial and political events in Germany or elsewhere, including factors affecting capital markets generally.

Market Price Risk – Historic Performance

The historic price of a Security should not be taken as an indicator of future performance of such Security. It is not foreseeable whether the market price of a Security will rise or fall. The Issuer gives no guarantee that the spread between purchase and selling prices is within a certain range or remains constant.

3. Risks relating to specific Product Categories

Fixed Rate Securities

A holder of a Fixed Rate Security is exposed to the risk that the price of such Security falls as a result of changes in the Market Interest Rate. While the nominal interest rate of a Fixed Rate Security is fixed during the life of such Security, the Market Interest Rate typically changes on a daily basis. As the Market Interest Rate changes, the price of a Fixed Rate Security also changes, but in the opposite direction. If the Market Interest Rate increases, the price of a Fixed Rate Security typically falls, until the yield of such Security is approximately equal to the Market Interest Rate. If the Market Interest Rate falls, the price of a Fixed Rate Security typically increases, until the yield of such Security is approximately equal to the Market Interest Rate. Changes in the Market Interest Rate are in particular relevant for Holders who wish to sell the Securities prior to the maturity date of the Securities.

Floating Rate Securities

A holder of a Floating Rate Security is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the yield of Floating Rate Securities in advance and holders of Floating Rate Securities cannot compare their return on investment with that of investments with fixed interest rates. If the Terms and Conditions of the Securities provide for frequent interest payment dates, investors are exposed to reinvestment risk if Market Interest Rates decline. That is, investors may only be able to reinvest the interest income paid to them at a relevant lower interest rate than prevailing (see also above under "**Reinvestment Risk**").

Benchmarks such as the London Interbank Offered Rate ("**LIBOR**") and the Euro Interbank Offered Rate ("**EURIBOR**") and other indices which are deemed "benchmarks" (each a "**Benchmark**" and together, the "**Benchmarks**"), to which the interest of notes bearing or paying a floating or other variable rate of interest may be linked to, have become the subject of regulatory scrutiny and recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause the relevant benchmarks to perform differently than in the past, or have other consequences which may have a material adverse effect on the value of and the amount payable under Securities bearing or paying a floating or other variable rate of interest.

International proposals for reform of Benchmarks include the Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmark Regulation**") which has entered into force on 1 January 2018. In addition, there are numerous other proposals, initiatives and investigations which may impact Benchmarks.

Any changes to a Benchmark as a result of the Benchmark Regulation or other initiatives, could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in

certain Benchmarks or lead to the disappearance of certain Benchmarks. Although it is uncertain whether or to what extent any of the abovementioned changes and/or any further changes in the administration or method of determining a Benchmark could affect the level of the published rate, including to cause it to be lower and/or more volatile than it would otherwise be, and/or could have an effect on the value of any Notes whose interest or principal return is linked to the relevant Benchmark, investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under the Securities whose rate of interest or principal return is linked to a Benchmark (including, but not limited to, Floating Rate Securities).

Benchmarks could also be discontinued entirely. For example, on 27 July 2017, the United Kingdom Financial Conduct Authority (FCA) announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021. If a Benchmark were to be discontinued or otherwise unavailable, the rate of interest for Floating Rate Securities which are linked to such Benchmark will be determined for the relevant period by the fall-back provisions applicable to such Securities, which in the end could result in the same rate being applied until maturity of the Floating Rate Securities, effectively turning the floating rate of interest into a fixed rate of interest. Any of the foregoing could have a material adverse effect on the value or liquidity of, and the amounts payable on Floating Rate Securities whose rate of interest is linked to a discontinued Benchmark.

Zero Coupon Securities

Zero Coupon Securities do not pay current interest but are typically issued at a discount from their nominal value. Instead of periodical interest payments, the difference between the redemption price and the issue price constitutes interest income until maturity and reflects the Market Interest Rate. A holder of a Zero Coupon Security is exposed to the risk that the price of such Security falls as a result of changes in the Market Interest Rate. Prices of Zero Coupon Securities are more volatile than prices of Fixed Rate Securities and are likely to respond to a greater degree to Market Interest Rate changes than interest bearing Securities with a similar maturity.

A.II. Risks relating to the Issuer

The business strategy of ING-DiBa AG (the "**Issuer**" and, together with its consolidated subsidiaries, "**ING-DiBa Group**") generally entails risk factors that may affect the ability to fulfil its obligations, such as the obligations arising under the Securities. The Issuer distinguishes four broad risk types:

- (i) market price risk;
- (ii) liquidity risk;
- (iii) counterparty default risk; and
- (iv) operational risk.

In addition due to its activities, the Issuer is exposed to risk concentrations and combinations of the above mentioned risks.

Market Price Risk

Market price risk is the risk of potential loss due to adverse changes of market prices, e.g. of bonds, or of underlying market parameters affecting market prices, such as interest rates, spreads, exchange rates and volatilities which may negatively affect the Issuer's earnings, economic value, or the market value of the Issuer's portfolio of marketable assets.

Interest rate risk in the banking book (*Bankbuch*), basis risk, spread risk and currency risk (also foreign exchange rate risk) are the major sources of market price risk for the Issuer.

The risk of changing interest rates consists of the potential loss resulting from a change in the risk-free interest rate and may adversely affect the net interest income, the economic value and the market value of the marketable assets of the Issuer (interest rate risk). Potential losses may also result from changes in the relevant basis swaps (basis risk).

The economic value of the Issuer and the market value of the marketable assets may also be affected by changes in the market value of financial instruments, e.g. bonds and registered notes that cannot be explained by changes in the general market, e.g. due to changes in the relevant swap rates or due to events (spread risk). Therefore, the Issuer considers this risk to be a residual risk.

Changes in foreign currency exchange rates, particularly the EUR/USD rate, may adversely impact the value of a position (currency risk).

Investors should be aware of the fact that market parameters and prices may change at any time and are not predictable.

The Issuer is not materially exposed to risks resulting from holding shares and equity positions or to commodities risk.

Change of market parameters may negatively influence the periodicals results as well as the net present value of the Issuer's portfolio.

Volatility risks currently arise from implicit options: the risk of changes in customer behavior (e.g. unscheduled repayments on mortgage loans and installment loans or withdrawal behavior with extra accounts) due to market fluctuations.

Liquidity Risk

Liquidity risk is defined as the risk of failing to meet present or future payment obligations on the specified date (liquidity risk in the narrow sense). The Issuer's principal financing source is customer deposits which may be withdrawn on short call. Due to its business model, the Issuer's assets as a rule are less liquid than its liabilities. Hence, the outflow of deposits is a major source of liquidity risk for the Issuer. Other potential sources include a lack of mortgage prepayments, a higher utilization of facilities, higher collateral requirements, and defaults.

Liquidity risk also comprises the risk of failing to sell marketable assets at fair market value due to a lack of liquidity in the market (market liquidity risk) and the potential losses as a result of the increase in the cost of refinancing funds.

Furthermore, liquidity risk comprises the intraday liquidity risk as well as the liquidity risk in foreign currency. Intraday liquidity risk is defined as the risk of failing to meet payment obligations at the specified time on a given date (including in foreign currencies). The liquidity risk in foreign currency is defined as the risk failing to obtain the necessary currencies on the market.

Counterparty Default Risk

The Issuer defines counterparty default risk as the risk of potential loss which can arise due to changes in credit rating, impending illiquidity, or even insolvency of a business partner. Counterparty default risk is substantiated as follows:

Default and migration risks constitute the risk of a loss due to the non-repayment of capital loaned to the borrower. Additionally changes in credit rating can lead to a loss. This is the traditional credit risk in the retail and wholesale banking businesses (formerly commercial banking businesses). In the institutional business, it can be further differentiated as issuer or counterparty credit risk and settlement risk.

Issuer and counterparty credit risk includes potential losses in value resulting from the default of a contractual partner or the deterioration of their credit rating. In association with this, there are risks for unrealized gains on executory contracts. This risk is also called the replacement risk. It relates to the additional expense of entering into a new contract to replace the lost business.

Settlement risk constitutes the risk that a contractual partner does not fulfil its end of a contract after the Issuer has already met its obligations or the compensatory payment is not made in cases where both parties' deliveries are to be offset.

Collateral and residual value risk is defined as the risk that the assumed value of collaterals, cannot be realized in case of liquidation.

Country risks are understood as potential losses that arise despite the debtor's solvency and willingness to pay due to overriding government impediments (transfer risk).

Operational Risk

Operational risk is defined as the risk of financial loss through external influence (criminal acts, natural disasters, etc.) or through internal factors (e.g., failure of IT systems, fraud, human error, faulty processes, structural weaknesses, insufficient monitoring). This definition also includes legal risks resulting from contractual agreements or the legal environment.

Risk Concentration

In accordance with the business strategy the Issuer has deliberately decided to take certain concentrations on product level in the retail business. Based on its business model the Issuer has certain concentrations with regards to liquidity risk management by focusing on retail savings deposits as their main refinancing instrument.

In the institutional business and in wholesale banking, concentrations on selected clients, industries, and asset classes are accepted intentionally. They are accepted against the background of the sizes specified and target customers defined under the strategic business orientation and are monitored regularly.

With respect to the institutional business, which includes the Issuer's fixed income investments, mainly government or government-related bonds, covered bonds and Pfandbriefe, as well as its short-term liquidity management operations (e.g. securities financing transactions), investments in selected countries of the European Union play the most important role, with a focus on the Netherlands and Germany. In addition, the Issuer invests to a limited extent in corporate bonds and securitisations such as Asset Backed Securities ("ABS") and Mortgage Backed Securities ("MBS").

The wholesale banking activities are divided on the one hand into Corporate Lending and Financial Institutions Lending (C&FI Lending) with focus on large investment grade rated corporates and on the other hand into specialised financing forms for international customers, including loans covered by governmental export credit agencies (ECA-covered loans) as well as the financing of national and international infrastructural projects.

All references in this Base Prospectus to "CHF" and "Swiss Francs" are to the lawful currency of Switzerland, references to "dollars", "USD", "U.S. dollars", "U.S.\$" "United States dollars" or "\$" are to the currency from time to time of the United States of America, references to "Sterling" and "£" refer to the currency of the United Kingdom.

Amounts payable under the Securities may be calculated by reference to EURIBOR, which is currently provided by European Money Markets Institute (EMMI) or LIBOR, which is currently provided by ICE Benchmark Administration (IBA) (each a "**Benchmark**"). The Final Terms will set out the name of the specific Benchmark and the relevant administrator. They will further specify if the relevant administrator appears or does not appear on the register.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS

If the Final Terms in respect of any Securities include a legend entitled "Prohibition of Sale to EEA Retail Investors", the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("MiFID II") or; (ii) a customer within the meaning of Directive 2002/92/EC ("IMD"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently, no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPS Regulation.

MIFID II product governance / target market

The Final Terms in respect of any Securities may include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Securities and which

channels for distribution of the Securities are appropriate. Any person subsequently offering, selling or recommending the Securities (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

In addition, the Issuer will identify the source(s) of the information.

Ratings of the Securities

A rating of the Securities, if any, will be set out in the relevant Final Terms (PART II.).

B. Description of the Securities

General

The following description is an abstract presentation of the following possible structures of the Securities to be issued under the terms of this Base Prospectus and does not refer to a specific issue of Securities which will be issued under the terms of this Base Prospectus.

Potential investors should note that information relating to a specific issue of Securities that is not yet known at the date of this Base Prospectus, including, but not limited to, the issue price, the date of the issue, the level of the interest rate (if the Securities bear interest), the type of interest payable (if the Securities bear interest), the maturity date and other details significantly affecting the economic assessment of the Securities is not contained in this section of this Base Prospectus but in the relevant Final Terms. Consequently, the following description does not contain all information relating to the Securities. Any investment decision by an investor should therefore be made only on the basis of full information on the Issuer and on the Securities to be offered which is set out in this Base Prospectus and the relevant Final Terms for such Securities when read together with this Base Prospectus and any supplement thereto.

Issue price of the Securities

The Securities will be offered on the basis of an issue price as determined by the Issuer and as set out in the relevant Final Terms. The relevant issue price will be determined on the basis of various factors, including but not limited to, the rating of the Securities and the Issuer, if any, the term of the Securities, the interest rate applicable to the Securities and current market conditions, such as current market interest rates.

Issue date of the Securities

The issue date of each Tranche of Securities will be determined by the Issuer and the relevant Dealer(s) and specified in the relevant Final Terms.

Yield of Fixed Rate Securities

The yield with regard to Fixed Rate Securities will be set out in the relevant Final Terms (PART II.).

Interest on the Securities

The Programme provides for the issue of Securities with a fixed rate of interest (*Fixed Rate Securities*), Securities with a floating rate of interest (*Floating Rate Securities*) and Securities with no periodic payment of interest (*Zero Coupon Securities*).

Securities with a fixed rate of interest (Fixed Rate Securities)

In the case of Securities with a fixed rate of interest (the "**Fixed Rate Securities**"), the rate of interest on the basis of which periodic interest payments are calculated will be specified before the issue date of the Securities.

Securities with a floating rate of interest (Floating Rate Securities)

In the case of Securities with a floating rate of interest (the "**Floating Rate Securities**"), the interest rate on the basis of which the amount of interest payable to the Holders is calculated is not specified at the issue date of the Securities. Instead, the rate at which interest accrues changes over time and only the relevant variable on which the rate of interest on the Securities is based (the reference rate) is specified. The reference rate may be either the EURIBOR® or the LIBOR®. Euro Interbank Offered Rate (EURIBOR®) is a daily interest rate at which Eurozone banks offer to lend unsecured funds to other banks for a term of 1 and 2 weeks and on a monthly basis for a term of 1 month, 2, 3, 6, 9 and 12 months. London Interbank Offered Rate (LIBOR®) is an interest rate at

which banks of the London market offer to lend unsecured funds to other banks in the London market to be determined on a daily basis for a term of 1 week and on a monthly basis for a term of 1 month, 2, 3, 6 and 12 months. Each reference rate reflects the normal terms currently applying on the capital market for raising funds in the form of debt capital for the relevant period of weeks or months.

Floating Rate Securities are linked to a reference rate and may be structured in accordance with the following variants: (i) the relevant reference rate represents the rate of interest applicable to the Securities on a one to one basis or (ii) a fixed rate of interest (margin) is added (premium) to the relevant reference rate depending on the credit rating of the Issuer, the maturity of the Securities and the interest rates currently applying on the capital market for raising debt capital, i.e. the relevant reference rate and the premium together produce the rate of interest applicable to the Securities or (iii) a fixed rate of interest (margin) is deducted (discount) from the relevant reference rate depending on the maturity of the Securities and the interest rates currently applying on the capital market for raising debt capital, i.e. the relevant reference rate after deducting the discount produces the rate of interest applicable to the Securities or (iv) the rate of interest based on the relevant reference rate is limited to a lower minimum interest rate determined in advance (minimum interest), i.e. even if the relevant reference rate were to be lower than the minimum interest rate, the minimum interest rate would be applicable to the Securities for the relevant interest period.

Securities with no periodic payment of interest (Zero Coupon Securities)

In the case of Securities with no periodic payment of interest (the "**Zero Coupon Securities**"), the interest accrued takes the exclusive form of the redemption of the Zero Coupon Securities at maturity at a higher amount than the issue price. The Holder of Zero Coupon Securities therefore receives "interest" as a one-time payment at maturity in the form of a redemption amount that is higher than the issue price. No periodic interest payments are made during the term of the Zero Coupon Securities.

Due dates for interest payments and calculation of the amount of interest (except for Zero Coupon Securities)

Interest payments may be made monthly, quarterly, semi-annually or annually. The amount of interest payable in respect of the Securities is calculated by applying the relevant interest rate for the interest period concerned and the day count fraction to the par value of the Securities.

Redemption of the Securities at maturity

Securities issued under the terms of this Base Prospectus have a maturity which is determined at the issue date. Prior to the issue date of the Securities, the Issuer determines the maturity date on which it is obliged to redeem the Securities and the amount at which it is obliged to redeem them.

Early redemption of the Securities

The Pfandbriefe do not provide for any call and/or put rights.

The Notes may be redeemed early at the option of a Holder upon the occurrence of an event of default.

Notes can further be redeemed early at the option of the Issuer upon the occurrence of a tax event.

Repurchase

Notwithstanding the provisions governing the redemption of the Securities, the Issuer is entitled to purchase all or some of the Securities at any time and at any price in the market or otherwise and to hold, cancel or resell them at its discretion.

Minimum denomination of the Securities

Securities issued under this Prospectus will be issued with a minimum specified denomination of Euro 100,000 or its equivalent in other currencies.

Currency of the Securities

Securities will be issued in such currency as may be determined by the Issuer and the relevant Dealer(s) and as specified in the applicable Final Terms, subject to applicable currency restrictions.

Status and ranking of the Securities

The obligations under the Notes constitute unsecured and unsubordinated obligations of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer unless such other obligations take priority by mandatory provisions of law.

The obligations under the Pfandbriefe constitute unsubordinated obligations of the Issuer ranking *pari passu* among themselves. The Pfandbriefe are covered in accordance with the German Pfandbrief Act (*Pfandbriefgesetz*) and rank at least *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer under mortgage covered Pfandbriefe (*Hypothenfandbriefe*).

Form of notes of the Securities

The Securities are represented by the issue of one or more global note(s) in bearer form. Definitive notes will not be issued by the Issuer.

Issue of further Securities

The Issuer reserves the right to issue further Securities with the same terms without the consent of the Holders in such a way that they will be consolidated with the Securities issued previously, form a uniform series with them and increase their total par value.

Substitution of the Issuer under the Notes

A subsidiary of the Issuer may replace ING-DiBa AG in its capacity as Issuer at any time and without the consent of the Holders with respect to all rights and obligations arising under or in connection with the Notes provided that the Issuer is not in default with any payment of principal and/or interest in respect of the Notes and the Issuer irrevocably and unconditionally guarantees in favour of each Holder the payment of all sums payable by the substitute debtor in respect of the Notes.

Application of German Bond Act (*Schuldverschreibungsgesetz*)

The Issuer may determine that §§ 5 – 22 of the German Bond Act (*Schuldverschreibungsgesetz*) are applicable to the Notes. On such basis, the Issuer may determine a Holder's representative or Holders may initiate the appointment of such representative.

Governing law, place of performance, jurisdiction and limitation period

The Securities, as to form and content, and all rights and obligations of the Holders and the Issuer, shall be governed by German law. Place of performance shall be Frankfurt am Main.

The relevant prescription limitation period for the limitation of claims arising from the Securities is ten years.

Die Berechnungsstelle legt zudem fest, welche Bildschirmseite oder andere Quelle in Verbindung mit einem solchen Nachfolge-Referenzsatz verwendet werden soll (die "**Nachfolge-Bildschirmseite**"). (I) The Reference Rate shall be replaced with the reference rate, which is announced by the administrator of the Reference Rate, the competent central bank or a regulatory or supervisory authority as the successor rate for the Reference Rate for the term of the Reference Rate and which can be used in accordance with applicable law; or (if such a successor rate cannot be determined)

(II) the Reference Rate shall be replaced with an alternative reference rate, which is or will be commonly used (in accordance with applicable law) as a reference rate for a comparable term for floating rate Pfandbriefe in the respective currency; or (if such an alternative reference rate cannot be determined)

(III) the Reference Rate shall be replaced with a rate, which is determined by the Calculation Agent in its reasonable discretion (*billiges Ermessen*) with regard to the term of the Reference Rate and the relevant currency in a commercially reasonable manner based on the general market interest levels in the Federal Republic of Germany.

The Calculation Agent shall also determine which screen page or other source shall be used in connection with such Successor Reference Rate (the "**Successor Screen Page**"). From the date of the determination of the Successor Reference Rate (the "**Relevant Date**") any reference to the Reference Rate shall be read as a reference to the Successor Reference Rate and any reference to the Screen Page herein shall from the Relevant Date on be read as a reference to the Successor Screen Page and the provisions of this paragraph shall apply *mutatis mutandis*. The Calculation Agent will notify the Issuer about such determinations. The Issuer shall thereafter inform the Holders of the Pfandbriefe in accordance with § 10. The Successor Reference Rate starts to apply from the first day of the first Interest Period following the Discontinuation Event unless the Issuer elects to redeem the Pfandbriefe in accordance with the provisions of this paragraph below.

Zusätzlich zu einer Ersetzung des Referenzsatzes durch einen Nachfolge-Referenzsatz kann [die Emittentin] [die Berechnungsstelle] einen Zinsanpassungsfaktor oder Bruch oder Spanne (zu addieren oder zu subtrahieren) festlegen, der oder die bei der Ermittlung des Zinssatzes und bei der Berechnung des Zinsbetrags angewendet werden soll, mit dem Ziel ein Ergebnis zu erzielen, das mit dem wirtschaftlichen Gehalt der Pfandbriefe vor Eintritt des Einstellungsergebnisses vereinbar ist und die Interessen der Emittentin und der Gläubiger berücksichtigt und wirtschaftlich gleichwertig für die Emittentin und die Gläubiger ist.

Wenn ein Einstellungsergebnis eintritt und ein Nachfolge-Referenzsatz nicht gemäß der oben genannten Punkte (I) oder (II) bestimmt werden kann, kann die Emittentin die Pfandbriefe vollständig, aber nicht teilweise kündigen und zurückzahlen. Die Kündigung wird den Gläubigern der Pfandbriefe von der Emittentin gemäß § 10 mitgeteilt. In dieser Mitteilung muss enthalten sein:

- (i) die Serie der Pfandbriefe, die von der Kündigung betroffen sind; und

Further and in addition to any replacement of the Reference Rate with a Successor Reference Rate [the Issuer][the Calculation Agent] may specify an interest adjustment factor or fraction or spread (to be added or subtracted) which shall be applied in determining the Rate of Interest and calculating the Interest Amount, for the purpose of achieving a result which is consistent with the economic substance of the Pfandbriefe before the Discontinuation Event occurred, and which shall take into account the interests of the Issuer and the Holders and shall be an economic equivalent for the Issuer and the Holders.

If a Discontinuation Event occurs and a Successor Reference Rate cannot be determined pursuant to (I) or (II) above, the Issuer may redeem the Pfandbriefe in whole but not in part. Notice of such redemption shall be given by the Issuer to the Holders of the Pfandbriefe in accordance with § 10. Such notice shall specify:

Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den auf die Pfandbriefe zahlbaren Zinsbetrag in Bezug auf jede Festgelegte Stückelung (der "**Zinsbetrag**") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf jede Festgelegte Stückelung angewendet werden, wobei der resultierende Betrag auf den nächsten Euro 0,01 auf- oder abgerundet wird, wobei Euro 0,005 aufgerundet werden.

[(4)][(5)] **Mitteilungen von Zinssatz und Zinsbetrag**. Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der relevante Zinszahlungstag der Emittentin, der Emissionsstelle und den Gläubigern gemäß § 10 baldmöglichst, aber keinesfalls später als am vierten auf die Berechnung jeweils folgenden

Im Falle einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Pfandbriefe zu diesem Zeitpunkt notiert sind, sowie den Gläubigern gemäß § 10 mitgeteilt.

[(5)][(6)] **Verbindlichkeit der Festsetzungen**. Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses § 3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle, die Zahlstellen und die Gläubiger bindend.

[(3)][(4)] **Interest Amount**. The Calculation Agent will, on or as soon as practicable after each date at which the Rate of Interest is to be determined, calculate the amount of interest (the "**Interest Amount**") payable on the Pfandbriefe in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate of Interest and the Day Count Fraction (as defined below) to each Specified Denomination and rounding the resulting figure to the nearest Euro 0.01, Euro 0.005 being rounded upwards.

[(4)][(5)] **Notification of Rate of Interest and Interest Amount**. The Calculation Agent will cause the Rate of Interest, each Interest Amount for each Interest Period, each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Fiscal Agent and to the Holders in accordance with § 10 as soon as possible after their determination, but in no event later than the fourth

Any such amendment will be promptly notified to any stock exchange on which the Pfandbriefe are then listed and to the Holders in accordance with § 10.

[(5)][(6)] **Determinations Binding**. All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this § 3 by the Calculation Agent shall (in the absence of manifest error) be binding on the Issuer, the Fiscal Agent, the Paying Agents and the Holders.

[(6)][(7)] *Zinslauf*. Der Zinslauf der Pfandbriefe endet an dem Tag, der dem Tag vorangeht, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Pfandbriefe bei Fälligkeit nicht einlöst, endet die Verzinsung der ausstehenden Pfandbriefe nicht am Tag der Fälligkeit, sondern erst an dem Tag, der dem Tag der tatsächlichen Rückzahlung der Pfandbriefe vorangeht. Der maßgebliche Zinssatz ist der gesetzlich festgelegte Satz für Verzugszinsen.²

Für diese Zwecke bezeichnet "**Zahltag**" einen Tag (außer einem Samstag oder Sonntag), an dem (i) das Clearing System und (ii) **[Falls die festgelegte Währung Euro ist einfügen:** das Trans-European Automated Real-Time Gross Settlement Express Transfer System 2 oder ein Nachfolgesystem (TARGET)]**[Falls die festgelegte Währung nicht Euro ist einfügen:** Geschäftsbanken und Devisenmärkte in **[sämtliche relevanten Finanzzentren]**] Zahlungen abwickeln.

Zusätzlich zu einer Ersetzung des Referenzsatzes durch einen Nachfolge-Referenzsatz kann [die Emittentin] [die Berechnungsstelle] einen Zinsanpassungsfaktor oder Bruch oder Spanne (zu addieren oder zu subtrahieren) festlegen, der oder die bei der Ermittlung des Zinssatzes und bei der Berechnung des Zinsbetrags angewendet werden soll, mit dem Ziel ein Ergebnis zu erzielen, das mit dem wirtschaftlichen Gehalt der Schuldverschreibung vor Eintritt des Einstellungsereignisses vereinbar ist und die Interessen der Emittentin und der Gläubiger berücksichtigt und wirtschaftlich gleichwertig für die Emittentin und die Gläubiger ist.

Wenn ein Einstellungsereignis eintritt und ein Nachfolge-Referenzsatz nicht gemäß der oben genannten Punkte (I) oder (II) bestimmt werden kann, kann die Emittentin die Schuldverschreibungen vollständig, aber nicht teilweise kündigen und zurückzahlen. Die Kündigung wird den Gläubigern der Schuldverschreibungen von der Emittentin gemäß § 10 mitgeteilt. In dieser Mitteilung muss enthalten sein:

Further and in addition to any replacement of the Reference Rate with a Successor Reference Rate [the Issuer][the Calculation Agent] may specify an interest adjustment factor or fraction or spread (to be added or subtracted) which shall be applied in determining the Rate of Interest and calculating the Interest Amount, for the purpose of achieving a result which is consistent with the economic substance of the Notes before the Discontinuation Event occurred, and which shall take into account the interests of the Issuer and the Holders and shall be an economic equivalent for the Issuer and the Holders.

If a Discontinuation Event occurs and a Successor Reference Rate cannot be determined pursuant to (I) or (II) above, the Issuer may redeem the Notes in whole but not in part. Notice of such redemption shall be given by the Issuer to the Holders of the Notes in accordance with § 10. Such notice shall specify:

Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf jede Festgelegte Stückelung angewendet werden, wobei der resultierende Betrag auf den nächsten Euro 0,01 auf- oder abgerundet wird, wobei Euro 0,005 aufgerundet werden.

(3) *Minimum Rate of Interest.*

If the Rate of Interest in respect of any Interest Period determined in accordance with the above provisions is less than [Minimum Rate of Interest], the Rate of Interest for such Interest Period shall be [Minimum Rate of Interest].]

[(3)][(4)] *Interest Amount.* The Calculation Agent will, on or as soon as practicable after each date at which the Rate of Interest is to be determined, calculate the amount of interest (the "Interest Amount") payable on the Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate of Interest and the Day Count Fraction (as defined below) to each Specified Denomination and rounding the resulting figure to the nearest Euro 0.01, Euro 0.005 being rounded upwards.

[(4)][(5)] *Notification of Rate of Interest and Interest Amount.* The Calculation Agent will cause the Rate of Interest, each Interest Amount for each Interest Period, each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Fiscal Agent and to the Holders in accordance with § 12 as soon as possible after their determination, but in no event later than the fourth

Im Falle einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Schuldverschreibungen zu diesem Zeitpunkt notiert sind, sowie den Gläubigern gemäß § 12 mitgeteilt.

[(5)][(6)] Verbindlichkeit der Festsetzungen. Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses § 3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle, die Zahlstellen und die Gläubiger bindend.

[(6)][(7)] Zinslauf. Der Zinslauf der Schuldverschreibungen endet an dem Tag, der dem Tag vorangeht, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlöst, endet die Verzinsung der ausstehenden Schuldverschreibungen nicht am Tag der Fälligkeit, sondern erst an dem Tag, der dem Tag der tatsächlichen Rückzahlung der Schuldverschreibungen vorangeht. Der maßgebliche Zinssatz ist der gesetzlich festgelegte Satz für Verzugszinsen.⁵

[(8)][(9)] Zinstagequotient. "Zinstagequotient" bezeichnet im Hinblick auf die Berechnung des Zinsbetrages auf eine Schuldverschreibung für einen beliebigen Zeitraum (der "Zinsberechnungszeitraum"):

Any such amendment will be promptly notified to any stock exchange on which the Notes are then listed and to the Holders in accordance with § 12.

[(5)][(6)] Determinations Binding. All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this § 3 by the Calculation Agent shall (in the absence of manifest error) be binding on the Issuer, the Fiscal Agent, the Paying Agents and the Holders.

[(6)][(7)] Accrual of Interest. The Notes shall cease to bear interest from the date preceding their due date for redemption. If the Issuer shall fail to redeem the Notes when due, interest shall continue to accrue on the outstanding Notes beyond the due date until the date preceding the date of actual redemption of the Notes. The applicable Rate of Interest will be the default rate of interest established by law⁵.

[(8)][(9)] Day Count Fraction. "Day Count Fraction" means, in respect of the calculation of an amount of interest on any Note for any period of time (the "Calculation Period"):

§ 7 STEUERN

Sämtliche auf die Schuldverschreibungen zu zahlenden Beträge sind an der Quelle ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftigen Steuern oder sonstigen Abgaben gleich welcher Art zu leisten, die von oder in der Bundesrepublik Deutschland oder von oder in den Vereinigten Staaten von Amerika oder für deren Rechnung oder von oder für Rechnung einer politischen Untergliederung oder Steuerbehörde derselben auferlegt oder erhoben werden, es sei denn, ein solcher Einbehalt oder Abzug ist gesetzlich oder auf der Grundlage eines Vertrages zwischen der Emittentin oder eines Staates und den Vereinigten Staaten von Amerika oder einer Behörde der Vereinigten Staaten von Amerika vorgeschrieben. In diesem Fall wird die Emittentin diejenigen zusätzlichen Beträge (die "zusätzlichen Beträge") zahlen, die erforderlich sind, damit die den Gläubigern zufließenden Nettobeträge nach einem solchen Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Gläubigern empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlichen Beträge besteht jedoch nicht für solche Steuern und Abgaben.;

(2) Variation or Termination of Appointment. The Issuer reserves the right at any time to vary or terminate the appointment of the Fiscal Agent or any Paying Agent and to appoint another Fiscal Agent or additional or other Paying Agents or another Calculation Agent. In such event, the Issuer shall pay such additional amounts (the "Additional Amounts") as shall be necessary in order that the net amounts received by the Holders after such withholding or deduction shall equal the respective amounts which would otherwise have been receivable in the absence of such withholding or deduction except that no such Additional Amounts shall be payable on account of any taxes or duties:

- (f) if with respect to the Notes, such taxes or duties are levied other than by deduction or withholding of principal and/or interest; or

- (g) in Bezug auf Zahlungen durch die Emittentin, die Zahlstelle(n) oder eine andere Person im Hinblick auf die Schuldverschreibungen, die gemäß den Abschnitten 1471 bis 1474 des United States Internal Revenue Code of 1986, in der jeweils gültigen Fassung ("FATCA"), aufgrund eines Vertrages, eines Gesetzes, einer Verordnung oder einer anderen offiziellen Richtlinie oder Verwaltungspraxis, die FATCA durch die Bundesrepublik Deutschland oder eine andere Jurisdiktion umsetzt, oder einem Vertrag zwischen der Emittentin und den Vereinigten Staaten oder einer Behörde, die FATCA umsetzt, abgezogen oder einbehalten werden müssen.

"**Zinstagequotient**" bezeichnet im Hinblick auf die Berechnung des vorzeitigen Rückzahlungsbetrags für einen beliebigen Zeitraum

"**Day Count Fraction**" means, in respect of the calculation of the Early Redemption Amount for any period of time

"**Feststellungsperiode**" ist die Periode ab einem Feststellungstermin (einschließlich desselben) bis zum nächsten Feststellungstermin (ausschließlich desselben).

(b) Falls die Emittentin den vorzeitigen Rückzahlungsbetrag bei Fälligkeit nicht zahlt, wird der vorzeitige Rückzahlungsbetrag einer Schuldverschreibung wie vorstehend beschrieben berechnet, jedoch mit der Maßgabe, dass die Bezugnahmen in Unterabsatz (a) (ii) auf den für die Rückzahlung vorgesehenen Rückzahlungstag oder den Tag, an dem diese Schuldverschreibungen fällig und rückzahlbar werden, durch den früheren der nachstehenden Zeitpunkte ersetzt werden: (i) der Tag, an dem die Zahlung gegen ordnungsgemäße Vorlage und Einreichung der betreffenden Schuldverschreibungen (sofern erforderlich) erfolgt, und (ii) der vierzehnte Tag, nachdem die Emissionsstelle gemäß § 12 mitgeteilt hat, dass ihr die für die Rückzahlung erforderlichen Mittel zur Verfügung gestellt wurden.

(2) *Erfüllungsort.* Erfüllungsort ist Frankfurt am Main.

(3) *Gerichtsstand.* Nicht ausschließlich zuständig für sämtliche im Zusammenhang mit den Pfandbriefen entstehenden Klagen oder sonstige Verfahren ("Rechtsstreitigkeiten") ist das Landgericht Frankfurt am Main. Die Zuständigkeit des vorgenannten Gerichts ist ausschließlich, soweit es sich um Rechtsstreitigkeiten handelt, die von Kaufleuten, juristischen Personen des öffentlichen Rechts, öffentlich-rechtlichen Sondervermögen und Personen ohne allgemeinen Gerichtsstand in der Bundesrepublik Deutschland angestrengt werden. Die deutschen Gerichte sind ausschließlich zuständig für die Kraftloserklärung abhanden gekommener oder vernichteter Pfandbriefe.

(4) *Gerichtliche Geltendmachung.* Jeder Gläubiger von Pfandbriefen ist berechtigt, in jedem Rechtsstreit gegen die Emittentin oder in jedem Rechtsstreit, in dem der Gläubiger und die Emittentin Partei sind, seine Rechte aus diesen Pfandbriefen im eigenen Namen auf der folgenden Grundlage geltend zu machen: (i) er bringt eine Bescheinigung der Depotbank bei, bei der er für die Pfandbriefe ein Wertpapierdepot unterhält, welche (a) den vollständigen Namen und die vollständige Adresse des Gläubigers enthält, (b) den Gesamtnennbetrag der Pfandbriefe bezeichnet, die unter dem Datum der Bestätigung auf dem Wertpapierdepot verbucht sind und (c) bestätigt, dass die Depotbank gegenüber dem Clearing System eine schriftliche Erklärung abgegeben hat, die die vorstehend unter (a) und (b) bezeichneten Informationen enthält; oder (ii) er legt eine Kopie der die betreffenden Pfandbriefe verbrieften Globalurkunde vor, deren Übereinstimmung mit dem Original eine vertretungsberechtigte Person des Clearing Systems oder des Verwahrers des Clearing Systems bestätigt hat, ohne dass eine Vorlage der Originalbelege oder der die Pfandbriefe verbrieften Globalurkunde in einem solchen Verfahren erforderlich wäre. Für die Zwecke des Vorstehenden bezeichnet "Depotbank" jede Bank oder ein sonstiges anerkanntes Finanzinstitut, das berechtigt ist, das Wertpapierverwaltungsgeschäft zu betreiben und bei der/dem der Gläubiger ein Wertpapierdepot für die Pfandbriefe unterhält, einschließlich des Clearing Systems. Unbeschadet des Vorstehenden

§ 11

APPLICABLE LAW, PLACE OF PERFORMANCE, PLACE OF JURISDICTION AND ENFORCEMENT

(1) *Applicable Law.* The Pfandbriefe, as to form and content, and all rights and obligations of the Holders and the Issuer, shall be governed by German law.

(2) *Place of Performance.* Place of performance shall be Frankfurt am Main.

(3) *Submission to Jurisdiction.* The District Court (*Landgericht*) in Frankfurt am Main shall have non-exclusive jurisdiction for any action or other legal proceedings ("Proceedings") arising out of or in connection with the Pfandbriefe. The afore-mentioned court shall have exclusive jurisdiction in case of Proceedings which are established by business people (*Kaufleute*), corporate bodies of public law (*juristische Personen des öffentlichen Rechts*), separate assets of public law (*öffentlicht-rechtliche Sondervermögen*) and persons for which the place of jurisdiction is not the Federal Republic of Germany. The German courts shall have exclusive jurisdiction over lost or destroyed Pfandbriefe.

(4) *Enforcement.* Any Holder of Pfandbriefe may in any proceedings against the Issuer, or to which such Holder and the Issuer are parties, in his own name enforce his rights arising under such Pfandbriefe on the basis of (i) a statement issued by the Custodian with whom such Holder maintains a securities account in respect of Pfandbriefe (a) stating the full name and address of the Holder, (b) specifying the aggregate principal amount of Pfandbriefe credited to such securities account on the date of such statement and (c) confirming that the Custodian has given written notice to the Clearing System containing the information pursuant to (a) and (b) or (ii) a copy of the Pfandbrief in global form certified as being a true copy by a duly authorised officer of the Clearing System or a depositary of the Clearing System, without the need for production in such proceedings of the actual records or the Global Note representing the Pfandbriefe. For purposes of the foregoing, "Custodian" means any bank or other financial institution of recognised standing authorised to engage in securities custody business with which the Holder maintains a securities account in respect of the Pfandbriefe and includes the Clearing System. Each Holder may, without prejudice of the forgoing, protect and enforce his rights under the Pfandbriefe also in any other way which is permitted in the country in which the proceedings are initiated.

kann jeder Gläubiger seine Rechte aus den Pfandbriefen auch auf jede andere Weise schützen oder geltend machen, die im Land, in dem der Rechtsstreit eingeleitet wird, prozessual zulässig ist.

Part D.III.
Form of Final Terms

Terms not otherwise defined in the Final Terms (as defined below) shall have the meanings specified in the Terms and Conditions of the Securities, as set out in the Base Prospectus (the "**Terms and Conditions of the Securities**"). All references in these Final Terms to numbered sections are to sections of the Terms and Conditions of the Securities.

The Terms and Conditions of the Securities shall be completed and specified by the information contained in Part I of these Final Terms. The completed and specified provisions of the relevant Option I, II, III, IV, V, VI or VII of the Terms and Conditions of the Securities (if Type A applies) represent the terms and conditions applicable to the relevant Series of Securities or the relevant Option I, II, III, IV, V or VI of the Terms and Conditions of the Securities, completed and specified by, and to be read together with, Part I of these Final Terms (if Type B applies) represent the terms and conditions applicable to the relevant Series of Securities (in each case the "**Terms and Conditions**").

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS]

The Securities are not intended to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("MiFID II"); or (ii) a customer within the meaning of Directive 2002/92/EC ("IMD"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (the "PRIIPs Regulation") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPS Regulation.]

[MiFID II PRODUCT GOVERNANCE / QUALIFIED INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET] – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Securities has led to the conclusion that: (i) the target market for the Securities is eligible counterparties[,] [and] professional clients [[each] having at least extended knowledge and experience], each as defined in Directive 2014/65/EU (as amended, "MiFID II"); and (ii) all channels for distribution of the Securities are appropriate [including investment advice, portfolio management, non-advised sales and pure execution services]. [Consider any negative target market] Any person subsequently offering, selling or recommending the Securities (a "distributor") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels[, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable].][Insert further details on target market, client categories etc.]

Part E
Information relating to Pfandbriefe

INFORMATION RELATING TO PFANDBRIEFE

The following is a description condensed to some of the more fundamental principles governing the law regarding Pfandbriefe and Pfandbrief Banks in summary form and without addressing all the laws' complexities and details. Accordingly, it is qualified in its entirety by reference to the applicable laws.

Introduction

The Pfandbrief operations of the Issuer are subject to the German Pfandbrief Act (*Pfandbriefgesetz*) of 22 May 2005, which has come into force on 19 July 2005 and was lastly amended on 2 November 2015 (with some of the respective amendments having entered into force on 6 November 2015) (the "Pfandbrief Act").

All German credit institutions are permitted, subject to authorisation and further requirements of the Pfandbrief Act, to engage in the Pfandbrief business and to issue Mortgage Pfandbriefe, Public Pfandbriefe, Ship Pfandbriefe as well as Aircraft Pfandbriefe.

German credit institutions wishing to take up the Pfandbrief business must obtain special authorisation under the German Banking Act (*Kreditwesengesetz* - the "Banking Act") from the Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*) and, for that purpose, must meet some additional requirements as specified in the Pfandbrief Act. In the case of the Issuer, the authorisation to act as a Pfandbrief Bank was granted on 3 December 2010.

For the purpose of this summary, banks authorised to issue Pfandbriefe will generally be referred to as "**Pfandbrief Banks**" which is the term applied by the Pfandbrief Act.

Rules applicable to all types of Pfandbriefe

Pfandbriefe are standardised debt instruments issued by a Pfandbrief Bank. The quality and standards of Pfandbriefe are strictly governed by provisions of the Pfandbrief Act and subject to the supervision of the BaFin. Pfandbriefe generally are medium- to long-term bonds, typically with an original maturity of two to ten years, which are secured or "covered" at all times by a pool of specified qualifying assets (*Deckung*), as described below. Pfandbriefe are recourse obligations of the issuing bank, and no separate vehicle is created for their issuance generally or for the issuance of any specific series of Pfandbriefe. Traditionally, Pfandbriefe have borne interest at a fixed rate, but Pfandbrief Banks are also issuing zero-coupon and floating rate Pfandbriefe, in some cases with additional features such as step-up coupons, caps or floors. Most issues of Pfandbriefe are denominated in Euro. A Pfandbrief Bank may, however, also issue Pfandbriefe in other currencies, subject to certain limitations. Pfandbriefe may not be redeemed at the option of the Holders prior to maturity.

Pfandbriefe may either be Mortgage Pfandbriefe, Public Pfandbriefe, Ship Pfandbriefe or Aircraft Pfandbriefe. The outstanding Pfandbriefe of any one of these types must be covered by a separate pool of specified qualifying assets: a pool for Mortgage Pfandbriefe only, a pool for Public Pfandbriefe only, a pool covering all outstanding Ship Pfandbriefe only, and a pool covering all outstanding Aircraft Pfandbriefe (each a "**Cover Pool**"). An independent trustee appointed by the BaFin has wide responsibilities in monitoring compliance by the Pfandbrief Bank with the provisions of the Pfandbrief Act. In particular, the trustee monitors the sufficiency of the cover assets recorded in a register listing the assets provided as cover from time to time in respect of the Pfandbriefe of any given type; such register is maintained by the Pfandbrief Bank.

The aggregate principal amount of assets in each Cover Pool must at all times at least be equal to the aggregate principal amount of the outstanding Pfandbriefe covered by such Cover Pool. Moreover, the aggregate interest yield on any such Pool must at all times be at least equal to the aggregate interest payable on all Pfandbriefe covered by such Cover Pool. In addition, the coverage of all outstanding Pfandbriefe with respect to principal and interest must also at all times be ensured on the basis of the present value (*Barwert*). Finally, the present value of the assets contained in the Cover Pool must exceed the total amount of liabilities from the corresponding Pfandbriefe and derivatives by at least 2 per cent. (*sichernde Überdeckung*).

Such 2 per cent. excess cover must consist of highly liquid assets. Qualifying assets for the excess cover are (i) debt securities of the Federal Republic of Germany, a special fund of the Federal Republic of Germany, a German state, the European Communities, the member states of the European Union, the states comprising the European Economic Area, the European Investment Bank, the IBRD-World Bank, the Council of Europe Development Bank, or the European Bank for Reconstruction and Development, as well as under certain circumstances debt securities of Switzerland, the United States of America, Canada or Japan, if such countries have been assigned a risk weight equal to a credit quality of level 1 obtained by an international rating agency and as set out in regulation (EU) no. 575/2013; (ii) debt securities guaranteed by any of the foregoing entities; and (iii) credit balances maintained with the European Central Bank, the central banks of the member states of the European Union or appropriate credit institutions which have their corporate seat in a country listed under (i) above if such credit institutions have been assigned a risk weight equal to a credit quality of level 1 obtained by an international rating agency and as set out in regulation (EU) no. 575/2013. In addition, to safeguard liquidity, a certain liquidity cushion must be established.

The Pfandbrief Bank must record in the register of cover assets for any Cover Pool of a given Pfandbrief type each asset and the liabilities arising from derivatives. Derivatives may be entered in such register only with the consent of the trustee and the counterparty.

The Pfandbrief Bank must have an appropriate risk management system meeting the requirements specified in detail in the Pfandbrief Act and must comply with comprehensive disclosure requirements on a quarterly and annual basis set out in detail in the Pfandbrief Act.

Cover Pool for Mortgage Pfandbriefe

The principal assets qualifying for the Cover Pool for Mortgage Pfandbriefe are loans secured by mortgages which may serve as cover up to the initial 60 per cent. of the value of the property, as assessed by experts of the Pfandbrief Bank not taking part in the credit decision in accordance with comprehensive evaluation rules designed to arrive at the fair market value of the property. Moreover, the mortgaged property must be adequately insured against relevant risks.

The underlying property must be situated in a state of the European Economic Area, Switzerland, the United States of America, Canada or Japan. Furthermore, the registered cover pool assets include all claims of the Pfandbrief Bank directed to the economic substance of the property.

Other assets qualifying for inclusion in the Cover Pool for Mortgage Pfandbriefe include, among others:

- (i) equalisation claims converted into bonds,
- (ii) subject to certain qualifications, those assets which may also be included in the 2 per cent. excess cover described above, up to a total sum of 10 per cent. of the aggregate principal amount of outstanding Mortgage Pfandbriefe; (iii) the assets which may also be included in the Cover Pool for Public Pfandbriefe referred to below, up to a total of 20 per cent. of the aggregate principal amount of outstanding Mortgage Pfandbriefe, whereby the assets pursuant to (i) above will be deducted and (iv) claims arising under interest rate and currency swaps as well as under other qualifying derivatives contracted under standardised master agreements with certain qualifying counterparties, provided that

it is assured that the claims arising under such derivatives will not be prejudiced in the event of the insolvency of the Pfandbrief Bank or any other Cover Pool maintained by it. The amount of the claims of the Pfandbrief Bank arising under derivatives which are included in the Cover Pool measured against the total amount of all assets forming part of the Cover Pool as well as the amount of the liabilities of the Pfandbrief Bank arising from such derivatives measured against the aggregate principal amount of the outstanding Mortgage Pfandbriefe plus the liabilities arising from derivatives may in either case not exceed 12 per cent., calculated in each case on the basis of the net present values.

Status and protection of the Pfandbrief Holders

The Holders of outstanding Pfandbriefe rank *pari passu* among themselves, and have preferential claims with respect to the assets registered in the relevant cover register. With respect to other assets of a Pfandbrief Bank, holders of Pfandbriefe rank *pari passu* with unsecured creditors of the Pfandbrief Bank.

Insolvency proceedings

In the event of the institution of insolvency proceedings over the assets of the Pfandbrief Bank, any Cover Pool maintained by it would not be part of the insolvency estate, and, therefore, such insolvency would not automatically result in an insolvency of any Cover Pool. Only if at the same time or thereafter the relevant Cover Pool were to become insolvent, separate insolvency proceedings would be initiated over the assets of such Cover Pool by the BaFin. In this case, Holders of Pfandbriefe would have the first claim on the respective Cover Pool. Their preferential right would also extend to interest on the Pfandbriefe accrued after the commencement of insolvency proceedings. Furthermore, but only to the extent that Holders of Pfandbriefe suffer a loss, Holders would also have recourse to any assets of the Pfandbrief Bank not included in the Cover Pools. As regards those assets, Holders of the Pfandbriefe would rank equal with other unsecured and unsubordinated creditors of the Pfandbrief Bank.

One to three administrators (*Sachwalter*, each an "**Administrator**") will be appointed in the case of the insolvency of the Pfandbrief Bank to administer each Cover Pool for the sole benefit of the Holders of related Pfandbriefe. The Administrator will be appointed by the court having jurisdiction pursuant to the German Insolvency Code (*Insolvenzordnung*) at the request of the BaFin before or after the institution of insolvency proceedings. The Administrator will be subject to the supervision of the court and also of the BaFin with respect to the duties of the Pfandbrief Bank arising in connection with the administration of the assets included in the relevant Cover Pool. The Administrator will be entitled to dispose of the Cover Pool's assets and receive all payments on the relevant assets to ensure full satisfaction of the claims of the Holders of Pfandbriefe. To the extent, however, that those assets are obviously not necessary to satisfy such claims, the insolvency receiver of the Pfandbrief Bank is entitled to demand the transfer of such assets to the Pfandbrief Bank's insolvency estate.

Subject to the consent of the BaFin, the Administrator may transfer all or part of the cover assets and the liabilities arising from the Pfandbriefe issued against such assets to another Pfandbrief Bank.

Jumbo-Pfandbriefe

Jumbo-Pfandbriefe are governed by the same laws as Pfandbriefe and therefore cannot be classified as a type of securities apart from Pfandbriefe. However, in order to improve the liquidity of the Pfandbrief market certain Pfandbrief Banks have agreed upon certain minimum requirements for Jumbo-Pfandbriefe (*Mindeststandards von Jumbo-Pfandbriefen*) (the "**Minimum Requirements**") applicable to such Pfandbriefe which are issued as Jumbo-Pfandbriefe. These Minimum Requirements are not statutory provisions. Instead, they should be regarded as voluntary self-restrictions which limit the options issuers have when structuring Pfandbriefe. An incomplete overview of the Minimum Requirements is set out below:

- (a) The minimum issue size of a Jumbo-Pfandbrief is Euro 1,000,000,000. If the minimum size is not reached with the initial issue, a Pfandbrief may be increased by way of a tap issue in order to give it Jumbo-Pfandbrief status, provided all the requirements stated under (b) to (g) are fulfilled.
- (b) Only Pfandbriefe of straight bond format (i.e. fixed coupon payable annually in arrear, bullet redemption) may be offered as Jumbo-Pfandbriefe.
- (c) Jumbo-Pfandbriefe must be listed on an organised market in a Member State of the European Union or in another contracting state of the agreement on the European Economic Area immediately after issue, although not later than 30 calendar days after the settlement date.
- (d) Jumbo-Pfandbriefe must be placed by a syndicate consisting of at least five banks (syndicate banks).
- (e) The syndicate banks act as market makers; in addition to their own system, they pledge to quote prices upon application and bid/ask (two-way) prices at the request of investors on an electronic trading platform and in telephone trading.
- (f) The syndicate banks pledge to report daily for each Jumbo-Pfandbrief outstanding (life to maturity from 24 months upwards) the spread versus asset swap. The average spreads, which are calculated for each Jumbo-Pfandbrief by following a defined procedure, are published on the website of the Verband Deutscher Pfandbriefbanken (www.pfandbrief.de).
- (g) A subsequent transfer to the name of an investor is not permitted (restriction on transferability). It is permitted to buy back securities for redemption purposes or in the context of monitoring the cover pool if the outstanding volume of the issue does not fall below Euro 1,000,000,000 at any time. The issuer must publicly announce any buyback, the planned volume thereof and the issue envisaged for repurchase at least 3 banking days in advance, and make sure that extensive transparency is given in the market. Once a buyback transaction has been carried out, it is not permitted to increase the issue in question for a period of one year.
- (h) If one of the requirements stated in the above provisions is not met, the issue will lose its Jumbo-Pfandbrief status. Jumbo-Pfandbriefe which were issued before 28 April 2004 and have a volume of less than Euro 1,000,000,000 retain status of a Jumbo-Pfandbrief notwithstanding (a) above, provided that the other requirements in the above provisions are fulfilled.

The Minimum Requirements are supplemented by additional recommendations (*Empfehlungen - "Recommendations"*) and a code of conduct applicable to issuers of Jumbo-Pfandbriefe (*Wohlverhaltensregeln für Emittenten - "Code of Conduct"*). Neither the Recommendations nor the Code of Conduct are statutory provisions.

TAXATION

Taxation in Germany

The following is a general discussion of certain German tax consequences of the acquisition, the ownership and the sale, assignment or redemption of Securities and the receipt of interest thereon. This discussion does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Securities. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws of the Federal Republic of Germany currently in force and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

PROSPECTIVE PURCHASERS OF SECURITIES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE ACQUISITION, OWNERSHIP AND SALE, ASSIGNMENT OR REDEMPTION OF SECURITIES AND THE RECEIPT OF INTEREST THEREON, INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES, UNDER THE TAX LAWS APPLICABLE IN THE FEDERAL REPUBLIC OF GERMANY.

Tax Residents

Private Investors

Interest and Capital Gains

Interest payable on the Securities to persons holding the Securities as private assets ("**Private Investors**") who are tax residents of Germany (i.e. persons whose residence or habitual abode is located in Germany) qualifies as investment income (*Einkünfte aus Kapitalvermögen*) according to § 20 (1) of the German Income Tax Act (*Einkommensteuergesetz*) and is, in general, taxed at a separate flat tax rate of 25% according to § 32d (1) German Income Tax Act (*Abgeltungsteuer*, in the following also referred to as "**Flat Tax**"), plus 5.5% solidarity surcharge ("**Solidarity Surcharge**", *Solidaritätszuschlag*) thereon and, if applicable, church tax. Capital gains from the sale, assignment or redemption of the Securities, including the original issue discount of the Securities, if any, and interest having accrued up to the disposition of the Securities and credited separately ("**Accrued Interest**", *Stickzinsen*), if any, also qualify – irrespective of any holding period – as investment income pursuant to § 20 (2) German Income Tax Act and are also generally taxed at the Flat Tax rate plus 5.5% Solidarity Surcharge thereon and, if applicable, church tax. If the Securities are assigned, redeemed, repaid or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage in eine Kapitalgesellschaft*) rather than sold, as a rule, such transaction is treated like a sale. The separation of coupons or interest claims from the Securities is treated as a disposition of the Securities.

Capital gains are determined by taking the difference between the sale, assignment or redemption price (after the deduction of expenses directly and factually related to the sale, assignment or redemption) and the issue or acquisition price of the Securities. Where the Securities are issued in a currency other than Euro the sale, assignment or redemption price and the acquisition costs have to be converted into Euro on the basis of the foreign exchange rates prevailing on the issue or acquisition date and the sale, assignment or redemption date respectively.

Expenses (other than such expenses directly and factually related to the sale, assignment or redemption) related to interest payments or capital gains under the Securities are – except for a standard lump sum (*Sparer-Pauschbetrag*) of 801 Euro (1,602 Euro for jointly assessed holders) – not deductible.

According to the Flat Tax regime losses from the sale, assignment or redemption of the Securities can only be set-off against other investment income including capital gains. If the set-off is not possible in the assessment period in which the losses have been realised, such losses can be carried forward into future assessment periods only and can be set-off against investment income including capital gains generated in these future assessment periods.

Further, the German Federal Ministry of Finance in its decree dated 18 January 2016 (IV C 1 – S 2252/08/10004 :17) (as amended) has taken the position that a bad debt loss (*Forderungsausfall*) and a waiver of a receivable (*Forderungsverzicht*) shall, in general, not be treated as a sale, so that losses suffered upon such bad debt loss or waiver shall not be deductible for tax purposes. Moreover, the German Federal Ministry of Finance holds the view that a disposal (*Veräußerung*) (and, as a consequence, a tax loss resulting from such disposal) shall not be recognised if (i) the sales price does not exceed the actual transaction cost or (ii) the level of transaction costs is restricted because of a mutual agreement that the transaction costs are calculated by subtracting a certain amount from the sales price. This view has however been challenged by a final judgement of a German lower fiscal court. Furthermore, the German Federal Court of Finance recently decided that a final bad debt loss with respect to a capital claim shall be deductible for tax purposes (court decision dated 24 October 2017, VIII R 13/15); the question whether this also applies to a waiver of a receivable has been left open by the court.

Withholding

If the Securities are held in custody with or administrated by a German credit institution, financial services institution (including a German permanent establishment of such foreign institution), securities trading company or securities trading bank ("**Disbursing Agent**"), the Flat Tax at a rate of 25% (plus 5.5% Solidarity Surcharge thereon and, if applicable, church tax) will be withheld by the Disbursing Agent on interest payments and the excess of the proceeds from the sale, assignment or redemption (after the deduction of expenses directly and factually related to the sale, assignment or redemption) over the issue or acquisitions costs for the Securities (if applicable converted into Euro terms on the basis of the foreign exchange rates as of the acquisition date and the sale, assignment or redemption date respectively). Church tax is collected by way of withholding as a standard procedure unless the Private Investor has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office.

The Disbursing Agent will provide for the set-off of losses with investment income including capital gains from other securities. If, in the absence of sufficient current investment income derived through the same Disbursing Agent, a set-off is not possible, the holder of the Securities may – instead of having a loss carried forward into the following year – file an application with the Disbursing Agent until 15 December of the current fiscal year for a certification of losses in order to set-off such losses with investment income derived through other institutions in the holder's personal income tax return. If custody has changed since the acquisition and the acquisition data is not proved as required by § 43a (2) German Income Tax Act or not relevant, the Flat Tax rate of 25% (plus 5.5% Solidarity Surcharge thereon and, if applicable, church tax) will be imposed on an amount equal to 30% of the proceeds from the sale, assignment or redemption of the Securities.

In the course of the tax withholding provided for by the Disbursing Agent foreign taxes may be credited in accordance with the German Income Tax Act.

In general, no Flat Tax will be levied if the holder of a Security filed a withholding exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent (in the maximum amount of the standard lump sum of 801 Euro (1,602 Euro for jointly assessed holders)) to the extent the income does not exceed the maximum exemption amount shown on the withholding exemption certificate. Similarly, no Flat Tax will be deducted if the holder of the Security has submitted to the Disbursing Agent a valid certificate of non-assessment (*Nichtveranlagungsbescheinigung*) issued by the competent local tax office.

For Private Investors the withheld Flat Tax is, in general, definitive. Exceptions apply, if and to the extent the actual investment income exceeds the amount which was determined as the basis for the withholding of the Flat Tax by the Disbursing Agent. In such case, the exceeding amount of investment income must be included in the Private Investor's income tax return and will be subject to the Flat Tax in the course of the assessment procedure. According to the decree of the German Federal Ministry of Finance dated 18 January 2016 (IV C 1 – S 2252/08/10004 :017) (as amended), however, any exceeding amount of not more than 500 Euro per assessment period will not be claimed on grounds of equity, provided that no other reasons for an assessment according to § 32d (3) German Income Tax Act exist. Further, Private Investors may request their total investment income, together with their other income, to be subject to taxation at their personal, progressive income tax rate rather than the Flat Tax rate, if this results in a lower tax liability. According to § 32d (2) no. 1 German Income Tax Act the Flat Tax rate will also not be available in situations where an abuse of the Flat Tax rate is assumed (e.g. "back-to-back" financing). In order to prove investment income and the withheld Flat Tax thereon, the investor may request a respective certificate in officially required form from the Disbursing Agent.

Investment income not subject to the withholding of the Flat Tax (e.g. since there is no Disbursing Agent) must be included into the personal income tax return and will be subject to the Flat Tax rate of 25% (plus 5.5% Solidarity Surcharge thereon and, if applicable, church tax), unless the investor requests the investment income to be subject to taxation at the lower personal, progressive income tax rate or the investment income is not subject to the Flat Tax rate according to § 32d (2) no. 1 German Income Tax Act. Foreign taxes on investment income may be credited in accordance with the German Income Tax Act.

Business Investors

Interest payable on the Securities to persons holding the Securities as business assets ("Business Investors") who are tax residents of Germany (i.e. Business Investors whose residence, habitual abode, statutory seat or place of effective management and control is located in Germany) and capital gains from the sale, assignment or redemption of the Securities, including any issue discount of the Securities and Accrued Interest, if any, are subject to income tax at the Business Investor's personal, progressive income tax rate (plus 5.5% Solidarity Surcharge thereon and, if applicable, church tax) or, in case of corporate entities, to corporation tax at a uniform 15% tax rate (plus 5.5 % Solidarity Surcharge thereon). Such interest payments and capital gains may also be subject to trade tax if the Securities form part of the property of a German trade or business. Losses from the sale, assignment or redemption of the Securities are in general recognised for tax purposes.

Withholding tax, if any, including Solidarity Surcharge thereon is credited as a prepayment against the Business Investor's personal, progressive or corporate income tax liability and the Solidarity Surcharge in the course of the tax assessment procedure, i.e. the withholding tax is not definitive. Any potential surplus will be refunded. However, in general and subject to further requirements no withholding deduction will apply to the gains from the sale, assignment or redemption of the Securities if (i) the Securities are held by a corporation, association or estate in terms of § 43 (2) sentence 3 no. 1 German Income Tax Act or (ii) the proceeds from the Securities qualify as income of a domestic business and the investor notifies this to the Disbursing Agent by use of the required official form according to § 43 (2) sentence 3 no. 2 German Income Tax Act (*Erklärung zur Freistellung vom Kapitalertragsteuerabzug*).

Foreign taxes may be credited in accordance with the German Income Tax Act. Alternatively, foreign taxes may also be deducted from the tax base for German income tax purposes.

Non-residents

Interest payable on the Securities and capital gains, including any issue discount and Accrued Interest, if any, are not subject to German taxation, unless (i) the Securities form part of the business property of a permanent establishment, including a permanent representative, or a fixed base maintained in

Germany by the holder of the Securities or (ii) the interest income otherwise constitutes German-source income. In the cases (i) and (ii) a tax regime similar to that explained above under "Tax Residents" applies.

Non-residents of Germany are, subject to certain exceptions, exempt from German withholding tax and the Solidarity Surcharge thereon, even if the Securities are held in custody with a Disbursing Agent. However, where the investment income is subject to German taxation as set forth in the preceding paragraph and the Securities are held in a custodial account with a Disbursing Agent withholding tax is levied as explained above under "Tax Residents".

The withholding tax may be refunded based upon German national tax law or an applicable tax treaty.

Particularities of Securities with a negative yield

Holders will only realize a taxable capital gain if they receive, upon a disposal of the Securities, an amount in excess of the issue price (or the purchase price they paid for the Securities).

Contrary thereto, holders who subscribe the Securities at the issue price and hold the Securities until their final maturity will realize a loss. The tax treatment of such losses is not entirely clear:

If the Securities are held by tax residents as private assets, recently published statements of the German tax authorities regarding "negative interest" incurred on bank deposits made by private investors arguably imply that such losses cannot be fully deducted; such losses are rather treated as expenses in connection with investment income and, are, consequently not tax-deductible except for the standard lump sum deduction (*Sparer-Pauschbetrag*) of €801 (€1,602 for married couples filing jointly).

If the Securities are held by tax residents as business assets, arguably such losses are generally tax deductible.

Inheritance and Gift Tax

No inheritance or gift taxes with respect to the Securities will arise under the laws of Germany, if, in the case of inheritance tax, neither the decedent nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Securities are not attributable to a trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German expatriates.

Other Taxes

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Securities. Currently, net assets tax is not levied in Germany.

Germany and other Member States of the European Union intend to introduce a financial transaction tax. However, it is unclear if and in what form such tax will be actually introduced. In case such tax is introduced, the acquisition and disposal of Securities (in the secondary market) would be subject to a tax of at least 0.1% of the acquisition or disposal price.

Repeal of the EU Savings Tax Directive and Introduction of the Extended Automatic Exchange of Information Regime

The Council of the European Union has adopted a Directive repealing the Council Directive 2003/48/EC on the taxation of savings income from 1 January 2016 (1 January 2017 in the case of Austria). The Council of the European Union has also adopted Directive 2014/107/EU ("**Amending Cooperation Directive**"), amending Directive 2011/16/EU on administrative cooperation in the field of taxation so as to introduce an extended automatic exchange of information regime in accordance

with the Global Standard released by the OECD Council in July 2014. Germany has implemented the Amending Cooperation Directive by means of a Financial Account Information Act (*Finanzkonten-Informationsaustauschgesetz, FKAustG*) according to which it will provide information on financial accounts to EU Member States and certain other states as of 1 January 2016.

Taxation in Luxembourg

The following information is of a general nature and is included herein solely for preliminary information purposes. It is a description of *certain material Luxembourg tax consequences of purchasing, owning and disposing of the Securities*. It does not purport to be a comprehensive description of all of the tax considerations that may be relevant to any prospective investor and may not include tax considerations that arise from rules of general application or that are generally assumed to be known by Holders. This information is based on the laws in force in Luxembourg on the date of this Prospectus and is subject to any change in law that may take effect after such date. It is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Securities should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Please be aware that the residence concept used below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy impost or other charge or withholding of a similar nature refers to Luxembourg tax law and/or concepts only. Also, please note that a reference to Luxembourg income tax encompasses corporate income tax (*impôt sur le revenue des collectivités*), municipal business tax (*impôt commercial communal*), a solidarity surcharge (*contribution au fonds pour l'emploi*), as well as personal income tax (*impôt sur le revenu*) generally. Corporate Holders may further be subject to net wealth tax (*impôt sur la fortune*) as well as other duties, levies or taxes. Corporate income tax, municipal business tax as well as the solidarity surcharge invariably apply to most corporate taxpayers resident of Luxembourg for tax purposes. Individual tax payers are generally subject to personal income tax and a solidarity surcharge. Under certain circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

Luxembourg tax residency of the Holders

A Holder will not become resident, nor be deemed to be resident, in Luxembourg by reason only of the holding of the Securities, or the execution, performance, delivery and/or enforcement of the Securities.

Withholding Tax

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Securities can be made free of withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein in accordance with applicable law, subject however to the application of the Luxembourg law of December 23, 2005 as amended introducing a final tax on certain payments of interest made to certain Luxembourg resident individuals (the "Law").

Resident Holders

Payment of interest or similar income (within the meaning of the Law) on debt instruments made or deemed made by a paying agent (within the meaning of the Law) established in Luxembourg to or for the benefit of an individual Luxembourg resident for tax purposes who is the beneficial owner of such payment may be subject to a final tax at a rate of 20 per cent. Such final tax will be in full discharge of income tax if the individual beneficial owner acts in the course of the management of his/her private wealth. Responsibility for the withholding and payment of the tax lies with the Luxembourg paying agent.

An individual beneficial owner of interest or similar income (within the meaning of the Law) who is a resident of Luxembourg and acts in the course of the management of his private wealth may opt for a final tax of 20 per cent. when he receives or is deemed to receive such interest or similar income (including the discount at which the Zero Coupon Securities would be issued) from a paying agent established in another EU Member State, in a Member State of the EEA which is not an EU Member State, or in a State which has concluded a treaty directly in connection with the EU Savings Directive. Responsibility for the declaration and the payment of the 20 per cent. final tax is assumed by the individual resident beneficial owner of interest.

Taxation of the Holders

Taxation of Luxembourg non – residents

Holders who are non-residents of Luxembourg and who have neither a permanent establishment, a fixed place of business nor a permanent representative in Luxembourg to which the Securities are attributable are not liable to any Luxembourg income tax, whether they receive payments of principal or interest (including accrued but unpaid interest) or realize capital gains upon redemption, repurchase, sale or exchange of any Securities.

Holders who are non-residents of Luxembourg and who have a permanent establishment, a fixed place of business or a permanent representative in Luxembourg to which the Securities are attributable have to include any interest received or accrued, redemption premiums or issue discounts, as well as any capital gain realised on the sale or disposal of the Securities in their taxable income for Luxembourg income tax assessment purposes.

Taxation of Luxembourg residents

Luxembourg resident individuals

A Luxembourg resident individual Holder, acting in the course of the management of his/her private wealth, is subject to Luxembourg income tax in respect of interest received, redemption premiums or issue discounts under the Securities, except if a withholding tax has been levied by the Luxembourg paying agent on such payments or, in the case of a non-resident paying agent, if such individual has opted for the 20 per cent. levy, in accordance with the Law.

Under Luxembourg domestic tax law, gains realised upon the sale, disposal or redemption of the Securities by a Luxembourg resident individual Holder, who acts in the course of the management of his/her private wealth, on the sale or disposal, in any form whatsoever, are not subject to Luxembourg income tax, provided (i) this sale or disposal took place at least six months after the acquisition of the Securities and (ii) the Securities do not constitute Zero Coupon Securities. A Luxembourg resident individual Holder, who acts in the course of the management of his/her private wealth, has further to include the portion of the gain corresponding to accrued but unpaid income in respect of the Securities in his/her taxable income, insofar as the accrued but unpaid interest is indicated separately in the agreement. A gain realised by a Luxembourg resident individual Holder acting in the course of the management of his/her private wealth upon the sale of Zero Coupon Securities before maturity must be included in is/her taxable income for Luxembourg income tax assessment purposes.

A Luxembourg resident individual Holder acting in the course of the management of a professional or business undertaking to which the Securities are attributable, has to include interest and gains realised on the sale or disposal of the Securities in his/her taxable income for Luxembourg income tax assessment purposes. Taxable gains are determined as being the difference between the sale, repurchase or redemption price (including accrued but unpaid interest) and the lower of the cost or book value of the Securities sold or redeemed.

Luxembourg resident companies

A Luxembourg resident company Holder (*société de capitaux*) must include interest and gains realised on the sale or disposal of the Securities in its taxable income for Luxembourg income tax assessment purposes. Taxable gains are determined as being the difference between the sale, repurchase or redemption price (including accrued but unpaid interest) and the lower of the cost or book value of the Securities sold or redeemed.

Luxembourg residents benefiting from a special tax regime

Net Wealth Tax

A Luxembourg resident Holders or a non-resident Holders who has a permanent establishment or a permanent representative in Luxembourg to which the Securities are attributable, is subject to Luxembourg wealth tax on such Securities, except if the Holder is (i) a resident or nonresident individual taxpayer, (ii) an undertaking for collective investment subject to the law of December 17, 2010 (amending the law of December 20, 2002), (iii) a securitisation company governed by the law of March 22, 2004 on securitization (as amended), (iv) a company governed by the law of June 15, 2004 on venture capital vehicles (as amended), (v) a specialized investment fund subject to the law of February 13, 2007 (as amended), or (vi) a family wealth management company (*Société de gestion de patrimoine familial*) subject to the law of May 11, 2007 (as amended) or (vii) a reserved alternative investment fund governed by the Law of 23 July 2016 on Reserved Alternative Investment Funds. However, if the Holder is a vehicle listed above under (iii) or (iv) a Reserved Alternative Investment Funds having elected for the regime of an investment company in risk capital as referred to in the Law of 15 June 2004 on Venture Capital Vehicles (as amended), as from 1 January 2016, it might still be subject (a) to a minimum net wealth tax of EUR 4,815 if it holds assets such as fixed financial assets, receivables owed to affiliated companies, transferable securities, postal checking accounts, checks and cash, in a proportion that exceeds 90 % of its total balance sheet value and if the total of such assets exceeds EUR 350,000 or (b) to a minimum net wealth tax between EUR 535 and EUR 32,100 based on the total amount of its assets.

Other Taxes

Registration taxes and stamp duties

There is no Luxembourg registration tax, stamp duty or any other similar tax or duty payable in Luxembourg by the Holders as a consequence of the issuance of the Securities, nor will any of these taxes be payable as a consequence of a subsequent transfer, redemption or repurchase of the Securities, provided that the relevant issuance, transfer, redemption or repurchase is not registered in Luxembourg, which is not mandatory.

Value added tax

There is no Luxembourg value added tax payable in respect of payments in consideration for the issuance of the Securities or in respect of the payment of interest or principal under the Securities or the transfer of the Securities.

Inheritance tax and gift tax

No estate or inheritance taxes are levied on the transfer of the Securities upon death of a Holder in cases where the deceased was not a resident of Luxembourg for inheritance tax purposes. Where a Holder is a resident of Luxembourg for tax purposes at the time of his/her death, the Securities are included in his/her taxable estate for inheritance tax assessment purposes. Gift tax may be due on a gift or donation of Securities if the gift is recorded in a deed passed in front of a Luxembourg notary or otherwise registered in Luxembourg.

The Programme Agreement also provides for Securities to be issued in Series of Securities which are severally and not jointly underwritten by two or more Dealers.

Each Dealer agrees that, at or prior to confirmation of sale of Securities, it will have sent to each distributor (as defined in Rule 902 of Regulation S), dealer or person receiving a selling concession, fee or other remuneration that purchases Securities from it during the distribution compliance period a confirmation or notice to substantially the following effect:

"The Securities covered hereby have not been registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**") and may not be offered and sold within the United States or to, or for the account or benefit of, U.S. persons (i) as part of their distribution at any time or (ii) otherwise until 40 days after completion of the distribution of this tranche of Securities as determined, and notified to [relevant Dealer], by the [Fiscal Agent/Lead Manager]. Terms used above have the meanings given to them by Regulation S under the Securities Act."¹⁵

Each Dealer has represented and agreed that it has not entered and will not enter into any contractual arrangement with respect to the distribution or delivery of Securities within the United States of America, except with its affiliates or with the prior written consent of the Issuer.

- (ii) it has and throughout the restricted period will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Securities in bearer form are aware that such Securities may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the D Rules;
- (iii) if such Dealer is a United States person, it has represented that it is acquiring the Securities in bearer form for purposes of resale in connection with their original issuance and if such Dealer retains Securities in bearer form for its own account, it will do so only in accordance with the requirements of U.S. Treasury Regulation Section 1.163-5 (c) (2) (i) (D) (6); and
- (iv) with respect to each affiliate that acquires Securities in bearer form from such Dealer for the purpose of offering or selling such Securities during the restricted period, such Dealer either (a) has repeated and confirmed the representations and agreements contained in sub-clauses (i), (ii) and (iii) on such affiliate's behalf or (b) has agreed that it will obtain from such affiliate for the benefit of the Issuer the representations and agreements contained in sub-clauses (i), (ii) and (iii).

Terms used in the above paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder, including the D Rules.

Where this occurs, and if a prospectus compliant with the Prospectus Directive has not been published, purchasers of Notes who are acting outside of the course of their business or profession may in certain circumstances be entitled to declare such purchase void and, in addition, to claim damages from any authorised person at whose premises the Notes were purchased, unless an exemption provided for under the Italian Financial Services Act applies.

One company is a special purpose entity created to securitize ING-DiBa's mortgage loans (note 31).

ING-DiBa's share capital was completely held by ING Deutschland GmbH, Frankfurt am Main, at the end of the reporting period. The consolidated financial statements for the largest group of entities in which the Company is included are prepared by ING Groep N.V., Amsterdam, the Netherlands, and published at its website (www.ing.com). The consolidated financial statements for the smallest group of entities in which the Company is included are prepared by ING Bank N.V., Amsterdam, the Netherlands, and published in German in the electronic Federal Gazette (www.bundesanzeiger.de).

The share capital of ING-DiBa is not listed on the stock exchange.

It also belongs to the Entschädigungseinrichtung deutscher Banken GmbH (Compensation Scheme of German Banks), Berlin.

Since 2011, ING-DiBa AG has been issuing mortgage bonds (*Hypothekenpfandbriefe*, note 15), which are placed on the organized market, and has thus acquired the status of a capital-market-oriented company under German commercial law.

The Management Board approved these consolidated financial statements and sent them to the Supervisory Board.

These consolidated financial statements for the fiscal year ended December 31, 2017, were prepared on the basis of Article 4 of Regulation (EC) No. 1606/2002 dated July 19, 2002, in accordance with the International Financial Reporting Standards (IFRSs), as adopted in the European Union. In addition, the commercial law provisions in accordance with section 315 e (1) HGB were also applied.

The consolidated financial statements comprise the consolidated statement of financial position, consolidated income statement, consolidated statement of comprehensive income, consolidated statement of cash flows, and consolidated statement of changes in equity. They also include the notes to the consolidated financial statements.

In addition, this report also contains a report on operating segments and the Group management report required under German commercial law.

The components of the risk report in accordance with IFRS 7.31-41 have essentially been incorporated into the following sections of the Group management report: "Principles of risk management", "Monitoring and management of market price risks", "Monitoring and management of liquidity risks", "Monitoring and management of counterparty default risks", "Monitoring and management of operational risks", as well as the section entitled "Additional disclosures under IFRS 7". The disclosures under IFRS 7.39 are contained in note 24 and the collateral as defined in IFRS 7.38 is presented in the explanations of the respective items. Disclosures under IFRS 7.42 are centralized under note 26.

Where the terms "consolidated financial statements" and "Group management report" are used in the following, these refer to those prepared by ING-DiBa AG. This applies accordingly to all parts of the Group's consolidated financial statements and the consolidated Group. The consolidated financial statements of other consolidated groups and other consolidated groups themselves will be identified as such.

The consolidated financial statements are presented in euros. Unless otherwise indicated, all figures are shown in millions of euros (€ m).

Where information is presented in tabular format, negative signs are only used if the caption name does not clearly indicate an amount to be deducted.

The comparative period is the 2016 fiscal year; the comparative reporting date is December 31, 2016.

Significant accounting policies

a) Consolidation

Consolidation methods

In accordance with IFRS 10.19, the consolidated financial statements of ING-DiBa have been prepared in accordance with uniform Group accounting policies. The scope of the subsidiaries to be consolidated is reviewed every six months. December 31, 2017, is the reporting date for the financial statements of all entities included in consolidation.

Irrespective of the type of shareholding, the Bank consolidates in the consolidated financial statements all entities that it controls directly or indirectly. Control exists if the investor is exposed to variable returns from the investee and can use its power to affect those returns. Power exists if existing rights give the company the ability to direct the relevant activities of the investee. Power can arise with or without corporate voting rights.

Unless a particular agreement specifies otherwise, control is deemed to exist as soon as ING-DiBa directly or indirectly has more than half of the voting rights.

If it does not hold the majority of the voting rights, control may also arise from the ability to unilaterally direct the relevant activities of the entity. This may, for example, be the case in structured entities, which are always conceived such that voting or similar rights are not the dominant factor when it comes to determining who controls the entity.

Consolidation begins on the date when control is obtained over the entity and ends when control is lost.

Acquisition accounting uses the acquisition method in accordance with IFRS 10.21 in conjunction with IFRS 10.B86 (b) and IFRS 3.4 et seq. The principles of the acquisition method entail the recognition and measurement of the identifiable assets, the liabilities assumed, and all non-controlling interests in the acquiree. If the deduction of the fair value of the share of the equity determined at the acquisition date for the entity to be consolidated from the fair value of the consideration transferred for the acquisition (cost) results in a positive difference, this amount is recognized as goodwill and reported under other assets. Goodwill, if any, is tested for impairment at least annually. If the difference is negative, the resulting amount is recognized in profit or loss at the acquisition date.

If control over subsidiaries is lost, the assets and liabilities as well as the carrying amounts of the non-controlling interests in the former subsidiary are derecognized and any consideration received is recognized at fair value.

Intra-Group balances, transactions, and profits and losses between entities included in consolidation are eliminated as part of consolidation accounting.

Associates are included in the consolidated financial statements using the equity method pursuant to IAS 28.10 et seq. An associate is an entity over which the investor has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control of those policies. Significant influence is assumed at an interest of 20 to 50 percent.

Under the equity method, the interest in the company in question is initially recognized at cost. Subsequently, the carrying amount of the interest is increased or decreased in accordance with the Group's share of the profit or loss of the investee. The investor's share of the investee's profit or loss is recognized in the investor's income statement. Distributions received from the investee reduce the carrying amount of the interest.

If significant influence over the associate is lost, measurement of the shares in accordance with the equity method ends.

Basis of consolidation

For the subsidiaries in whose capital ING-DiBa holds shares, the consolidation requirement in fiscal year 2017 arises directly from the fact that, without exception, the direct equity investments are wholly owned and convey corresponding unrestricted voting rights. There is no need for judgments due to the clear control relationship.

Consolidation without corporate voting rights arises with regard to one structured entity. The Bank derives variable returns from this entity, which can be affected due to its power: The de facto control of the entity by ING-DiBa arises from the fact that the existing voting rights have no material effects on its returns. Rather, the entity was established solely for purposes of securitizing loans from ING-DiBa AG; its structure is based solely on the

Bank's goals. The ongoing business decisions to be made by the management of the structured entity are limited to administrative matters because the rigid contractual structure, which is sharply focused on the special purpose for the Bank, does not grant management any influence beyond administration. Due to the absence of a majority of voting rights, judgment was exercised in this respect to assess the issue of consolidation.

The Bank holds a direct share in one associate amounting to 19.94 percent of the voting rights, the exercise of which is not subject to any restrictions; the Bank's interest in this associate is thus technically below the materiality threshold set out in IAS 28. Nevertheless, in the Bank's estimate and at its discretion, the Bank exercises a material influence over the company's financial and business decisions as defined in IAS 28.

Note 31 contains detailed disclosures on entities included in consolidation.

b) Basis of presentation

The consolidated financial statements of ING-DiBa have been prepared on a going concern basis. Income and expenses are ratably recognized in the income statement in the period to which they relate (matching principle).

Recognition, measurement, and reporting policies are applied consistently. For information on material estimates and uses of judgment impacting on the consolidated financial statements, see subsection h) Material estimates and uses of judgment.

c) Financial instruments

Financial assets and financial liabilities

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

In these financial statements, financial instruments are recognized in particular in the following accounts:

- › Cash reserve
- › Loans and advances to banks
- › Loans and advances to customers
- › Financial investments
- › Derivatives with positive fair value
- › Subordinated liabilities
- › Securitized liabilities
- › Deposits from banks
- › Due to customers
- › Derivatives with negative fair value.

Date of recognition

Financial instruments in the "available-for-sale" and "held-to-maturity" category and derivatives are recognized in the statement of financial position on the trade date. Financial instruments in the "loans and receivables" measurement category and non-derivative financial liabilities are recognized as of the settlement date.

Derecognition

In principle, a financial asset is derecognized when the right to receive cash flows from the financial asset has expired or substantially all risks and rewards arising from the financial asset have been transferred.

It is also derecognized if the Group no longer has control over the financial asset.

If the Group retains control even after transfer, the financial instrument is recognized to the extent the Group has retained control (recognition in the amount of the continuing involvement).

A financial liability is only derecognized if the contractual obligations have been met, revoked, or have expired.

Offsetting

Financial assets and liabilities are offset if a current right to do so exists and if the Bank has the intention to settle on a net basis or to simultaneously realize the relevant asset and settle the associated liability. A condition is that the right must be legally enforceable, both in the normal course of business and in the event of the default or insolvency of the company and all counterparties. In addition, the right of set-off may not be contingent on a future event.

If derivatives, repo, or reverse repo transactions are traded through central clearing houses (central counterparty), legal enforceability of the right of set-off in the respective jurisdiction is also a key criterion.

The Group applies offsetting of financial instruments mainly to those derivative instruments which are settled via a central counterparty and with respect to which the Group has both a right to offset those instruments as well as the intention to settle on a net basis or to simultaneously realize the relevant asset and settle the associated liability.

ING-DiBa reports on offsetting, master netting agreements, and similar agreements in note 27.

Initial recognition

Financial instruments are initially recognized at their fair values. Fair value is defined as the price at which an orderly transaction to sell the asset or to transfer the liability takes place between market participants at the measurement date. It usually corresponds to the fair value of the consideration upon initial recognition, referred to as the transaction price. In the case of financial instruments that do not belong to the "at fair value through profit or loss" category, transaction costs as defined in IAS 39.AG13 are also included.

Classification and subsequent measurement of financial assets

The subsequent measurement of financial assets depends on the category to which they have been assigned. IAS 39.9 specifies these as

- › Financial assets at fair value through profit or loss (FVTPL)
- › Held-to-maturity (HtM) investments
- › Loans and receivables (LaR)
- › Available-for-sale (AfS) financial assets.

Financial assets at fair value through profit or loss

Financial instruments in the "at fair value through profit or loss" category are subsequently measured at their fair values. Any changes in fair value are immediately recognized through profit or loss.

This category has the "held for trading" and "fair value option" subcategories.

At ING-DiBa, the "held for trading" subcategory only contains derivatives not accounted for under the special hedge accounting rules of IAS 39.71 et seq. ING-DiBa does not hold any financial instruments for trading as defined in IAS 39.9, Definition of four categories of financial instruments, letter a items (i) and (ii).

The fair value option possible under IAS 39 was not exercised during the periods under review.

This means that the group of financial instruments measured at fair value through profit or loss is made up exclusively of derivatives not designated as hedging instruments. The resulting measurement gains or losses are included in the "net gains/losses on measurement of derivatives and hedged items" caption (note 36), as is the associated interest income and expense. For foreign currency derivatives, the measurement effects from changes in exchange rates are reported under "other income and expenses" (note 38).

The respective derivatives are reported under "derivatives with positive fair value" (note 6) or "derivatives with negative fair value" (note 18).

Held-to-maturity investments

Held-to-maturity investments consist entirely of securities with fixed or determinable payments and a fixed term, which the Bank intends and is able to hold to maturity.

They are subsequently measured at amortized cost, calculated using the effective interest method, less any necessary impairment allowances.

These financial assets are presented in the "financial investments" account (note 5).

The interest income is allocated to the period in which it accrues; it is recognized in the Bank's net interest income (note 34).

Loans and receivables

ING-DiBa generally assigns non-derivative financial assets that have fixed or determinable claims for payment but are not traded in an active market to the "loans and receivables" category.

They are subsequently measured at amortized cost, calculated using the effective interest method, less any necessary impairment allowances.

The interest income is allocated to the period in which it accrues; it is recognized under net interest income (note 34). The "loans and receivables" category includes in particular balances with central banks under the "cash reserve" (note 1), "loans and advances to banks" (note 2), and "loans and advances to customers" (note 3).

Where the instruments have been allocated to the "available-for-sale" category, which is also possible, this is shown in the notes to the individual accounts.

Available-for-sale financial assets

The "available-for-sale" category primarily contains debt instruments not assigned to any of the above categories as well as financial instruments reclassified from the "held-to-maturity" category in fiscal year 2012. Since fiscal year 2017, ING-DiBa has held foreign currency bonds, which are categorized as AfS financial instruments.

They are presented in the "financial investments" account (note 5).

AfS financial instruments are in all cases initially recognized at fair value and subsequent changes in fair value are taken directly to equity. The measurement gains or losses are recognized in changes in accumulated other comprehensive income until the asset is derecognized or an impairment allowance has to be recognized. Changes in accumulated other comprehensive income are part of equity (note 13).

As soon as AfS financial instruments are derecognized or written down for impairment, the changes in fair value accumulated up to then in changes in accumulated other comprehensive income are assigned to "other gains/losses on financial investments and investment property" (note 37) in the consolidated income statement.

The interest income is allocated to the period in which it accrues; it is recognized in the Bank's net interest income (note 34).

ING-DiBa holds a limited number of equity investments, which are of minor relevance to the net assets, financial position, and results of operations. These equity instruments are treated as financial investments and are allocated to the "available-for-sale" category. The shares are not held for trading. To the extent these equity investments are not listed and it is not possible to reliably measure their fair value, they are recognized and measured at cost (note 5).

Dividends from AfS equity investments are recognized under "other gains/losses on financial investments and investment property" (note 37).

Reclassifications

No reclassifications were made in the fiscal year under review. Financial instruments reclassified in prior years are subsequently measured in accordance with the provisions of IAS 39.45 et seq. Changes in fair value recognized in equity prior to reclassification are amortized as part of changes in accumulated other comprehensive income over the remaining term using the effective interest method.

Financial liabilities

After initial recognition at their fair values, ING-DiBa carries all financial liabilities at amortized cost. The fair value option is not exercised.

Liabilities are only measured at their fair values through profit or loss where derivatives are accounted for without using hedge accounting.

In ING-DiBa's consolidated financial statements, the financial liabilities subsequently measured at amortized cost are reported under "subordinated liabilities" (note 14) "securitized liabilities" (note 15), "deposits from banks" (note 16), "due to customers" (note 17), and "other liabilities" (note 22).

Valuation techniques

Fair value measurement

IFRS 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the primary or most advantageous market at the measurement date.

For the measurement of fair value, prices and relevant observable market inputs are used as much as possible, and unobservable inputs as little as possible.

If a publicly quoted market price is available from an active market for identical assets or liabilities, this is the best objective indication of fair value at the measurement date. If no price can be observed for the identical asset or for the identical liability, fair value is determined either by using quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, or by using other measurement inputs. In the latter case, fair value is determined on the basis of these observable measurement inputs using discounted cash flow techniques based on the income approach. If neither quoted prices nor observable measurement inputs are available, Company-internal assumptions are used to determine fair value.

Please refer to note 33 for commentary on the methods used.

The Bank measures financial instruments in relation to individual transactions and does not measure fair value at portfolio level.

Amortized cost and effective interest method

Amortized cost is the amount at which a financial asset or financial liability is initially recognized, minus principal repayments and any impairment losses and the cumulative amortization, calculated using the effective interest method of any difference between the initial amount and the maturity amount. The effective interest method is used to allocate interest income and interest expense over the relevant period.

The effective interest rate is the rate that discounts all expected future cash flows to the current net carrying amount of the financial instrument through the expected life of this instrument, taking into account all relevant transaction costs, fees, premiums and discounts.

Currency translation

ING-DiBa's foreign currency transactions relate primarily to monetary items and to short-term money market transactions in foreign currencies and foreign currency derivatives.

Foreign currency transactions are initially recognized in the functional currency, the euro, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. The Bank uses the uniform exchange rates of the ING Group for this.

The date of a transaction is the date on which the transaction first qualifies for recognition in accordance with IFRSs (trade or settlement date).

In subsequent periods, foreign currency monetary items are translated using the closing rate. Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are generally recognized in profit or loss in the period in which they arise. The spot exchange rates applicable to the underlying transactions are used to translate foreign currency revenues and expenses.

Currency translation gains and losses are a component of "other income and expenses" (note 38).

Risk provision and impairment

An impairment is recognized for a financial asset or group of assets if there are objective indications that the contractual cash flows can no longer be generated in the manner agreed. It must be possible to estimate the future impact sufficiently reliably. By contrast, events expected to occur only in the future are no basis for impairment.

Objective evidence of a need to recognize an allowance in relation to individual financial assets or a group of assets may include the following:

- › There is an increased probability that the counterparty will become insolvent or start financial recovery proceedings.
- › There is already delay or default on interest or principal payments.
- › The counterparty is in considerable financial difficulties, which may negatively impact future cash flows.
- › Based on experience and current data, there are clear indications that part of a group of financial assets is substantively impaired, although it is too soon for the internal risk management system to capture these impairment triggers with respect to individual assets.
- › Under the IFRSs as applied in the EU, forbearance is generally considered an indication of impairment. In such cases, the net present value of the moratorium amount and/or the reduction in debt and/or the reduction in interest payments is taken into account when determining an appropriate risk provision.

Macroeconomic indicators, such as changes in the unemployment rate, economic growth, or developments in the real estate market, are directly and indirectly reflected in credit risk models within ING-DiBa.

In the lending business, impairment allowances are recognized if events lead to indications of a threat to the future cash flows from the respective financial instruments.

The amount of the impairment allowance is calculated in a two-step process in which any indications of impairment are first identified and then the amount of the risk provision is determined.

In a first step, individually significant loans are tested for objective indications of impairment.

Impairment tests are carried out at the portfolio level for loans which are individually significant but for which no objective evidence of impairment was found and for loans which are not individually significant. To this end, only loans featuring similar risk characteristics are combined in portfolios by product group or business segment. This process takes account of the contractual cash flows and past default rates for loans with similar credit risk characteristics. In this process, the emerging risk profile provides information on the current counterparty default risk, and thus on the probability with which the contractually agreed cash flows will be able to be generated. The portfolio analysis includes a period analysis of the default probabilities, which takes into account the intervening period that has to be considered between the occurrence of the impairment trigger and its detection by the risk management system (loss identification period, LIP). This method ensures that impairment triggers that have already occurred but not yet been identified are adequately reflected in the risk provision. We refer in this context to the information on risk provisions provided in the risk report in the Group management report.

Since the period between the occurrence and the detection of an impairment event is uncertain, ING-DiBa considers for sub-portfolios (large corporations, small and medium-sized enterprises, and retail portfolios) factors such as the frequency with which customers of the sub-portfolio publish credit-risk-sensitive information and how often customers are subjected to a review by the ING-DiBa customer advisor. In principle, the frequency of the reviews increases with the size of the customer exposure. The periods between the occurrence and the detection of an impairment event are taken into account within the models using the LIP factor on the basis of past experience; they are validated through backtesting whenever necessary.

The amount of the risk provision for LaR receivables and HtM financial investments is calculated as the difference between the carrying amount and the present value of expected future cash flows. The basis for determining the amount of the impairment allowance to be recognized is firstly the contractually agreed cash flows and secondly the defaults normally expected, based on experience, for similarly structured products. The amounts determined on the basis of experience are reviewed with the help of observable current data.

Allowances for losses on loans and advances to customers are deducted from assets. In the case of uncollectible loans and advances, allowances are generally derecognized against the carrying amount of impaired financial assets. Loans and advances are usually deemed uncollectible if no payment has been received in the past twelve months, there is no expectation that there will be a change in solvency, the assets held as collateral have been liquidated and enforcement measures have been taken, the borrower has submitted an affidavit, and a valuation allowance has been recognized in respect of the full loan and/or advance. Consumer loans are generally written off prior to the expiry of twelve months if the borrower is deceased and it was not possible to identify a successor or the successors have relinquished their inheritance.

Debit card receivables are written down directly following a detailed investigation into a loss event. The amount written down is the residual of the loss, less the customer's liability and any potential insurance settlement.

Financial assets are derecognized and the associated allowances reversed in accordance with the general rules of IAS 39 for the derecognition of financial instruments.

Recoveries on loans and advances previously written off are recognized in the income statement under "risk provision" (note 39).

The allowances for losses on loans and advances to customers are discussed in notes 3 and 39.

No material allowances on loans and advances to banks had to be recognized in the periods under review.

Where AfS equity instruments are measured at fair value, an impairment loss is recognized if there is a significant or permanent reduction in fair value. The accumulated losses recognized directly in equity are derecognized from changes in accumulated other comprehensive income and released to profit and loss.

If AfS equity instruments that are not listed on a stock exchange are recognized at cost because it is not possible to reliably measure their fair value, the amount of a necessary impairment is calculated as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows, which are discounted using the current market rate of return on a comparable financial asset. No such impairments were recognized in fiscal years 2017 and 2016.

The risk provision also includes changes in other provisions for obligations in the lending business recognized off the statement of financial position.

There are no plans in Retail Banking for renegotiating the terms of financial assets that would otherwise have been overdue or impaired; in Wholesale Banking the terms are only renegotiated in exceptional circumstances.

Derivative financial instruments

Derivative financial instruments are used exclusively for risk management and duration control.

The respective derivatives are reported under "derivatives with positive fair value" (note 6) or "derivatives with negative fair value" (note 18). Accrued interest is included in "other assets" (note 12) or "other liabilities" (note 22).

ING-DiBa enters into OTC interest rate swaps, foreign currency swaps, such as FX swaps and FX forwards, as well as cross-currency swaps.

The changes in fair value of foreign currency derivatives are reported under "net gains/losses on measurement of derivatives and hedged items" (note 36). The effects of currency translation are reported under "other income and expenses" (note 38).

Derivative financial instruments are initially recognized at fair value at the trade date. They are subsequently measured at fair value through profit or loss.

All derivative financial instruments are carried at their fair values and reported as derivatives with positive or negative fair values. Changes in fair value, with the exception of those in relation to the effective portion of cash flow hedges, are immediately recognized in profit or loss.

As OTC transactions, the derivatives are subject to the market-based mark-to-model measurement of Level 2 of the fair value hierarchy described below (note 33).

The resulting measurement gains or losses are included in the "net gains/losses on measurement of derivatives and hedged items" caption (note 36). The net interest income from derivatives used in effective hedges is reported under "other interest income" (note 34), which also includes changes in fair value arising from the pull-to-par effect of derivatives in effective fair value hedges.

The interest income and expense in relation to derivatives not designated as hedges (hereinafter "other derivatives") are reported under "Net gains/losses on measurement of derivatives and hedged items" (note 36).

Embedded derivatives

An embedded derivative is a component of a structured financial instrument that, in addition to the derivative, also includes a non-derivative host contract. There were no structured financial instruments that had to be recognized separately in the periods under review.

Hedge accounting

To effectively hedge against interest rate risk, ING-DiBa makes specific use of simply structured interest rate swaps, which hedge changes in the fair value of hedged items and fluctuations in their future cash flows. Cross-currency swaps are used to reduce currency risks.

The Bank accounts for hedges using hedge accounting for both fair value and cash flow hedges.

The hedging strategy is subject to strict documentation requirements. When designating a hedging relationship, the related hedged items and hedging instruments, the risk to be hedged, and the risk management strategy are documented.

An important part of hedge accounting permitted for use in the financial statements is to successfully measure effectiveness, which is done both ex ante and ex post. The hedges must be highly effective in accordance with the specified hedging strategy. To be permitted for inclusion in the financial statements, hedge effectiveness must be in a range of between 80 and 125 percent.

The hedged items continue to be reported under the respective captions in the statement of financial position, because the nature and function of the hedged item are not affected by the hedging relationship. Note 25 shows the derivatives broken down by type of hedge. Since the hedging derivatives serve to hedge against interest rate risks, the interest expense on the hedging derivatives is reported together with interest income on the hedged items within "interest income" (note 34) to the extent the hedge meets the requirements for effectiveness. In the event the hedge is ineffective, both the fair value change in the derivatives and the related interest are reported in "net gains/losses on measurement of derivatives and hedged items" (note 36).

A hedge has been designated under fair value hedge accounting for the *Pfandbrief* issued in 2016.

Changes in fair value of derivatives (hedges) which relate to the interest rate risk (hedged risk) are reported in the income statement under "net gains/losses on measurement of derivatives and hedged items" (note 36) together with the changes in the market value of the hedged items.

Fair value hedge accounting

Through fair value hedging, the Bank hedges (portions of) recognized assets and liabilities against changes in their fair values if they are due to interest rate risk. Hedged items may be individual items (micro fair value hedging) or consist of entire portfolios (portfolio fair value hedging).

ING-DiBa hedges transactions from the following measurement categories (hedged items):

- › Financial instruments in the LaR category
- › Financial instruments in the AfS category
- › Financial instruments in the financial liabilities category.

The hedge in the "financial liabilities" category relates to the *Pfandbrief* issued in fiscal year 2016. The *Pfandbrief* is reported under "securitized liabilities."

Hedging instruments are measured at fair value and any changes in fair value are recognized through profit or loss. The carrying amounts of the hedged items are also adjusted for fair value changes through profit or loss if they are attributable to the hedged risk (hedge adjustments).

For hedges which are 100% effective, the net effect of this process is to offset changes in value attributable to the hedged risk. Effectiveness is measured using both prospective and retrospective regression analyses. The critical term method was applied prospectively for the hedged *Pfandbrief* issued by the Bank.

If only a portion of the risk exposure of the hedged item is hedged, the unhedged portion is accounted for according to the policies that apply to this hedged item. If the hedged item is an AfS financial instrument, the difference between the total change in fair value and the change in fair value attributable to the hedged risk is recognized directly in changes in accumulated other comprehensive income under equity. The AfS financial instrument is reported at full fair value.

Fair value hedging of interest rate risks is performed for both individual items (micro fair value hedging) and for portfolios (portfolio fair value hedging). In the case of the latter, individual items of the portfolio are not designated as items to be hedged. The effectiveness tests are conducted on the basis of assigned maturity bands. The amount to be hedged and the hedging instruments are designated in each case for the duration of a hedging period. Under micro hedging, changes in the fair value of the hedged items which are attributable to the hedged risks are allocated to the individual assets as a fair value adjustment. Under portfolio fair value hedging, fair value adjustments are recognized separately in the statement of financial position under "adjustment to portfolio fair value hedges" (note 4).

If a fair value hedge is terminated before the hedging instrument matures, the adjustments attributable to the hedged risk included in the carrying amount of the hedged financial instrument are amortized through net interest income over the remaining maturity of the hedged item. If hedged items are sold, the fair value adjustments are taken into account immediately when determining the net income from the sale. Individual transactions on which allowances have been recognized are no longer included in hedge accounting.

Cash flow hedge accounting

A cash flow hedge hedges recognized assets and liabilities against future variability in cash flows that affects profit or loss. ING-DiBa uses interest rate swaps for cash flow hedging to convert variable-rate items into fixed-rate items, thus hedging against interest-driven variability in cash flows. In addition, ING-DiBa uses cross-currency swaps to reduce foreign-currency-driven cash flow variability.

As part of this process, the hedged items continue to be measured according to their classification under IAS 39.9.

The hedging instruments are recognized at their fair values. The portion of the fair value changes of the hedged items that is effective in relation to the hedged risk is recognized directly in changes in accumulated other comprehensive income for cash flow hedges under equity (notes 13 and 25). Hedge ineffectiveness is the quantification of the difference between the accumulated changes in the fair value of the hedge derivative used and the changes in the fair value of a hypothetically perfect hedge. If the cash flow hedge is not 100% effective, but falls within the effectiveness range required by IAS 39, the amount recognized in the equity account is the lower of the accumulated changes in the fair value of the hedging instruments and the hedged cash flows.

If a hedged transaction is no longer expected to occur, the amounts are released to the income statement immediately.

If instruments to hedge cash flow variability are terminated early, the amounts recognized in equity are amortized as interest income over the remaining maturity of the original hedge.

For more information on hedge accounting, see notes 25 and 36.

Repo and reverse repo transactions

Because of the risks and rewards of ownership, securities that are part of repo transactions remain in ING-DiBa's statement of financial position. The corresponding liabilities are reported either as deposits from banks (note 16) or as amounts due to customers (note 17), depending on the counterparty.

Because of the risk distribution, securities purchased under reverse repo transactions are not recognized in the statement of financial position. The receivables from reverse repo transactions are reported under loans and advances to banks (note 2) or under loans and advances to customers (note 3), likewise depending on the counterparty.

For detailed information on repo and reverse repo transactions, refer to note 26.

Financial guarantees

In accordance with IAS 39.9, a financial guarantee is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument. Financial guarantees are initially recognized by the guarantor at fair value. If the financial guarantee was issued to an unrelated party in an arm's length transaction, its fair value at inception is generally equal to the premium received. The subsequent measurement of guarantees by the guarantor must be based on the higher of the amount determined in accordance with IAS 37 and the amount initially recognized less, when appropriate, cumulative amortization recognized in accordance with IAS 18. If the premium is not paid at inception but rather over the term of the guarantee, ING-DiBa presents it on a net basis, with the present value of the premium offset against the present value of the obligation arising from the financial guarantee.

If the probability of a payment under a financial guarantee issued is greater than 50 percent, a provision is recognized, with the expense included in profit or loss from "risk provision" (note 39).

Financial guarantees are both issued and received in the course of corporate customer financing activities. There are usually contingent assets in this event which, in accordance with IAS 37.31, may not be recognized.

Classes of financial instruments under IFRS 7 and IFRS 13

IFRS 7 and IFRS 13 require certain disclosures to be presented by class of financial instrument. They are related to the nature of the information disclosed, which means that different classes may be formed for the respective disclosures. Financial instruments in the same class have significant characteristics in common.

Financial instruments are classified by caption in the statement of financial position. Where necessary, captions are further subdivided by measurement categories. Wherever appropriate, individual items are aggregated or further broken down under line items in the statement of financial position. The cash reserve, financial guarantees, irrevocable loan commitments, and derivatives used as hedges are presented as classes of their own.

Classification pursuant to IFRS 13 corresponds to classification pursuant to IFRS 7.

d) Other items

Investment property

"Investment property" (note 7) refers to land and buildings leased to third parties. It also includes a bail-out purchase. No property or equipment was reassigned from or to Group-occupied property and equipment in the fiscal years under review.

Investment property is measured at cost plus transaction costs on initial recognition. Subsequent expenditure, incurred at a later date, that increases the potential future economic benefits of the property beyond the original extent is also recognized as part of cost. Refurbishment work, on the other hand, is classified as maintenance expense.

Investment property is subsequently measured at fair value through profit or loss and tested for impairment as of the end of each reporting period. Whenever there are objective indications of a change in value, and at least every three years, fair value is determined by independent external experts.

Given the lack of comparability in the market, the external experts generally use the income approach, under which the value is determined on the basis of discounted cash flows. In this process, the rental income is estimated and in addition normal expected market rents and costs are taken into account. Moreover, it takes into account possible vacancies and other losses of rental income as well as the annual return on land value. The amounts calculated in this way are discounted using a market interest rate that takes into account the special attributes of the property, such as its type and location. It is assumed that the current use represents the highest and best use.

Group-occupied property and property and equipment

"Property and equipment and Group-occupied properties" (note 8) comprises Group-occupied land and buildings as well as operating and office equipment, which includes in particular IT and telecommunication systems and office equipment.

Property and equipment is initially recognized at cost at the date that marks the transfer of beneficial ownership.

Group-occupied land and buildings are measured using the revaluation method in accordance with IAS 16. At regular intervals of up to three years, and when there are objective indications of a change in value, reports are prepared by independent external experts who determine fair value using the income approach. This method is the same as that explained

under "Investment property" above and is therefore also subject to the same type of estimates and management judgment. It is assumed that the current use represents the highest and best use. Group-occupied land and buildings are subsequently measured at fair value through other comprehensive income.

Operating and office equipment is subsequently measured at depreciated cost using the cost method under IAS 16.30. Depreciation is recognized on a straight-line basis over the expected useful life. The expense is included in "other administrative expenses" in the consolidated income statement (note 41).

Intangible assets

"Intangible assets" (note 9) relate almost exclusively to software and software licenses.

They are eligible for recognition in the statement of financial position if they meet all of the following criteria: they are identifiable, they can be measured reliably, they are expected to lead to future economic benefits, and the entity has control over this resource.

ING-DiBa recognizes both purchased and internally generated intangible assets. They are initially recognized at cost and subsequently measured at amortized cost. Useful lives of three years are normally assumed for software. Intangible assets are amortized pro rata temporis on a straight-line basis. The expense is included in "other administrative expenses" in the notes to the consolidated income statement (note 41).

Impairment of property and equipment and intangible assets

Once each asset has been depreciated or amortized, including a review of the method and useful life applied, it must be tested for impairment as of the end of the respective reporting period. Indications of impairment are, for example, if

- › the market value of an asset has declined significantly more than would be expected as a result of normal use;
- › significant changes with an adverse effect on the entity have taken place or will take place in the technological, market, economic, or legal environment;
- › market interest rates that affect the discount rate used in calculating an asset's value in use have increased and thus decrease the asset's recoverable amount materially as defined in the IFRSs;
- › there is substantial evidence of obsolescence or physical damage of an asset; or
- › as a result of internal restructuring the asset is no longer suitable for generating benefits for the entity in the same way as before or evidence is available that the economic performance of the asset is worse than expected.

If there are indications of impairment, the recoverable amount is determined and compared with the carrying amount. If the carrying amount exceeds the recoverable amount, an impairment loss must be recognized. The recoverable amount is the higher of the asset's fair value less costs to sell and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset, including disposal proceeds. The future cash flows are discounted using a risk-adequate pre-tax market rate of interest. If the recoverable amount cannot be determined for the individual asset, an impairment test is performed at the level of the next higher cash generating unit.

The disclosures are made in note 7 (Investment property), note 8 (Property and equipment and Group-occupied properties), and note 9 (Intangible assets).

Tax items

A profit and loss transfer agreement in accordance with section 291 (1) of the German Stock Corporation Act (*Aktiengesetz*, "AktG") is in place between ING-DiBa and ING Deutschland GmbH. This agreement forms the basis for a tax group for corporate income tax and trade tax purposes. Under this arrangement, ING-DiBa is a tax group subsidiary and ING Deutschland GmbH is the tax group parent. An allocation agreement has been in place for this tax group since 2017.

In accordance with the principle of substance over form, both the current and deferred income taxes are disclosed in the IFRS consolidated financial statements by the entity responsible, ING-DiBa. In this area, for which IFRSs do not provide any guidance, ING-DiBa thus follows the interpretation of ASC 740 (US GAAP).

Under the push-down method, corresponding deferred tax assets and liabilities are presented for the deferred income taxes.

The current income taxes not covered by the allocation agreement, which are paid by the tax group parent, are presented as a capital contribution by the tax group parent under other reserves in equity.

The ING-DiBa Austria branch is exempt from German tax and, as a separate taxable entity, is subject to Austrian tax.

The "tax assets" (note 10) and "tax liabilities" (note 19) items comprise current tax assets and liabilities for the current and previous fiscal years.

Deferred taxes are reconciliation items for temporary differences that are expected to reverse between the tax base of assets under national tax law and their carrying amounts in the IFRS financial statements. They are calculated using the tax rates expected to be applicable at the time the differences are settled.

Future, and therefore deferred, tax effects arising from changes in carrying amounts are reported under "deferred tax assets" (note 11) and "deferred tax liabilities" (note 20).

Depending on the treatment of the underlying item, deferred taxes are taken directly to the respective equity account or recognized in profit or loss. If they are recognized in profit or loss, they are reported under "income tax" (note 42) in the income statement.

Deferred tax assets on tax loss carryforwards and unused tax deductions are recognized only up to the amount in which realization of the respective tax benefit is probable. Developments in future fiscal years may have an impact on the assessment of realizability. Imponderables in determining whether tax losses and tax deductions will remain usable are taken into account when calculating deferred tax assets.

Deferred tax assets and deferred tax liabilities are netted if the Bank has a legally enforceable right to offset current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority for the same taxable entity or if they relate to different taxable entities which have the intention, for every future period in which they expect to settle or realize considerable amounts of deferred tax liabilities and deferred tax assets, to either settle the current tax

liability and refund claims on a net basis or to simultaneously settle the obligations and realize the refund claims.

Other assets

The "other assets" item (note 12) contains accrued interest, accruals, and the insignificant investment in an associate.

Accrued interest relates primarily to the presentation of interest on financial investments and derivatives as well as on loans and advances to customers in the period to which it relates. It is determined on the basis of the effective interest method.

The other trade receivables and accruals included in this item are normally reported at their nominal values, which correspond to their fair values because they fall due in the short term.

The interest in the associate is accounted for using the equity method (note 31).

Provisions

Pension provisions (note 21) are recognized according to the projected unit credit method for defined benefit pension plans.

Some of the pension plans are backed by plan assets.

Fair value changes resulting from actuarial gains or losses and from differences between the actual return on plan assets and the previously expected return on plan assets are recognized immediately in other comprehensive income.

The interest rate used for calculating the pension provisions and the expected return on plan assets is based on the interest rate for prime-rated corporate bonds with matching currencies and maturities.

Actuarial reports are used to measure pension provisions as well as provisions for long-service bonuses and partial retirement (note 21).

The partial retirement commitments are essentially individual arrangements. ING-DiBa accounts for these on a "first in-first out" basis. The aggregate top-up benefits constitute a related benefit component and the provision is reduced as these top-up benefits are paid out. This benefit component is allocated on a straight-line basis to the individual periods of the accrual period. The liability is determined at the end of each reporting period in the accrual period by adding to the provision the top-up benefits which are to be paid out first. Accrued but not yet vested liabilities are deemed to be vested by a certain reporting date for accounting purposes.

The transitional benefits granted by the Bank prior to the start of the disability or old-age pension is a component of the non-current personnel provisions. In contrast to defined benefit pension plans, all additions to the provision are recognized through profit and loss; there are no arrangements for an adjustment through other comprehensive income.

In addition to personnel provisions, there is a small amount of other non-current provisions (note 21).

Provisions for litigation risks are recognized if they are judged to result in a present obligation, if the possibility of an outflow of economic benefits from them is judged to be proba-

ble, and if a reliable estimate of the amount is judged to be possible. Litigation risks are generally assumed to be the result of past events. Provisions have been made for legal risks from an unexpectedly customer-friendly court ruling.

Other provisions for obligations from the lending business not recognized in the statement of financial position account for the standard level of uncertainties within the industry. The underlying assumptions and estimates include past experience as well as expectations and forecasts with respect to future development.

The amount provided for is based on the best estimate of the settlement amount. Provisions are only discounted, using interest rates for items with matching maturities applicable as of the end of the reporting period, if the interest effect is material. Interest cost from the unwinding of the discount is in such cases reported under net interest income (note 34). The interest effect is immaterial in the periods under review, which means that no discounting of the other non-current provisions was recognized.

Other liabilities

"Other liabilities" (note 22) include primarily accrued interest on deposits from banks, amounts due to customers, derivatives and other financial liabilities, allocated over the relevant periods.

Other components of this item are primarily short-term deferred income and accrued administrative expenses. Since the interest effect is immaterial, these items are generally recognized at their nominal values.

e) Contingent liabilities

Contingent liabilities within the meaning of IAS 37 are reported off the statement of financial position, in the notes to the IFRS financial statements (note 28). They arise on the one hand as possible obligations whose existence has not yet been confirmed, for which the likelihood of realization is estimated to be below 50 percent or for which the amount cannot be estimated with sufficient reliability. The estimated settlement amounts are disclosed in the notes. They normally correspond to the nominal amounts. Contingent liabilities relate primarily to irrevocable loan commitments, guarantees and letters of credit.

Contingent liabilities may in principle also include such litigation risks whose occurrence, and thus related outflow of economic resources, is not improbable, but not sufficiently probable to recognize a provision.

f) Items in the consolidated income statement

Net interest income

Interest income and expense (note 34) is recognized in profit or loss for the period on an accrual basis. For loans and advances on which impairment allowances have been recognized, the discount applied to arrive at the present value as of the end of the subsequent reporting period is unwound through interest income.

Other interest income and expense also includes net interest income from derivatives in effective hedging relationships.

Net interest income also includes amortization of the fair value adjustments related to the hedged risk, which are included in the carrying amount of the hedged items, over the remaining term of the hedged items in fair value hedge relationships. Fair value changes

related to pull-to-par effects of hedging derivatives are also reported under net interest income.

Negative interest in relation to the investment and borrowing of funds is recognized under net interest income and discussed in note 34. Given the immateriality of the amounts, these are not presented in a separate line item of the income statement.

Net commission income

Fee and commission income is generally recognized at the time the service is provided. Net commission income is explained in note 35.

Fees and commissions are paid for the use of brokerage and other services in connection with the Group's products. They are usually expensed upon receipt of the service.

Brokerage payments similar to interest are allocated over the (minimum) term of the contracts and presented in net interest income (note 34).

Fees for payment transaction services between banks are recognized as commission income and expense.

Net gains/losses on measurement of derivatives and hedged items

The net gains/losses on measurement of derivatives and hedged items (note 36) include the changes in fair value from the measurement of derivatives (whether or not they are designated as hedges) as well as of hedged items, to the extent this is not attributable to pull-to-par effects from hedging derivatives. In addition, this item includes interest income and expense related to derivatives not used in hedging relationships.

In fair value hedges, the interest-driven changes in the fair values of the hedging instruments and the interest-driven changes in the fair values of the hedged items that relate to the hedged risk are recognized in profit or loss, respectively.

In the case of derivatives used in cash flow hedges, the ineffective portion of the amount of change is recognized in profit or loss.

Income is recognized in the period in which it is earned.

g) Additional information

Leasing obligations

A lease is an agreement under which the lessor conveys to the lessee, in return for a payment or series of payments, the right to use an asset for an agreed period of time. The determination as to whether an arrangement is or includes a lease must be based on the substance of the arrangement, and requires an assessment as to whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and whether the arrangement conveys a right to use the asset. The assessment of whether an arrangement contains a lease has to be made at the inception of the arrangement, being the earlier of the date of the arrangement and the date of commitment by the parties to the principal terms of the arrangement, on the basis of all of the facts and circumstances. In the event of a change in the contractual terms of an arrangement which goes beyond a renewal or extension of the arrangement, the lease must be reassessed. The same applies whenever there is a change in the determination of whether fulfillment is dependent on a specified asset or if there is a substantial change to the asset. A reassessment must also be made if

a renewal option is exercised or an extension is agreed to by the parties to the arrangement, unless the term of the renewal or extension had initially been included in the lease term. A renewal or extension of the arrangement that does not include modification of any of the terms in the original arrangement before the end of the term of the original arrangement must be evaluated in accordance with IFRIC 4.6-9 only with respect to the renewal or extension period.

A finance lease is a lease that transfers substantially all the risks and rewards incidental to ownership of an asset. Legal title may or may not eventually be transferred. An operating lease is a lease other than a finance lease.

ING-DiBa AG generally only operates as a lessee. All leases are classified as operating leases. The useful lives of the leased assets, market price assumptions, and discount rates are subject to management judgment. Lease installments are recognized under other administrative expenses. If any, lease installments due for payment are reported as financial liabilities under "other liabilities" (note 22). Note 30 provides a summary of expected future lease obligations.

h) Material estimates and uses of judgment

These financial statements contain carrying amounts determined on the basis of estimates and assumptions. In accordance with IFRSs, these estimates and assumptions are based on past experience, plans, and forecasts of future events. Management judgment is sometimes required to determine the underlying inputs, assumptions, or models.

Estimates are required in particular for:

- › Determining the fair values of financial assets and financial liabilities in cases where there are no active market prices and this necessitates the application of valuation techniques using significant inputs that are not observable in the market (see note 33 – "Fair value reporting – Valuation techniques").
- › Determining pension obligations under defined benefit plans, where in particular actuarial assumptions, such as the discount rate, expected future salary and pension increases, the mortality rate, and changes in plan assets, are subject to estimates (see note 21 – "Non-current provisions").
- › Impairment allowances for the risk provision in the lending business, for which estimates are made about, among other factors, the overall portfolio risk and current market developments. Over time, these estimates are subject to change and may require adjustments to be made to the allowance (see note 39 – "Risk provision" in the notes to the financial statements and the section entitled "Monitoring and management of counterparty default risks" in the Group management report).
- › Measuring intangible assets in relation to the useful lives, amortization, and cost of intangible assets (see note 9 – "Intangible assets" and the section entitled "Significant accounting policies – d) Other items – Intangible assets").
- › Determining the useful lives and method of depreciation for Group-occupied property as well as property and equipment, where changes have an impact on the income statement, as well as impairment of Group-occupied property, property and equipment, and intangible assets (see the section entitled "Significant accounting policies – d) Other items – Group-occupied property and property and equipment" and "Impairment of property and equipment and intangible assets").

- › Measuring "investment property," especially in relation to the discount rate and valuation technique used (see note 7 – "Investment property" and the section entitled "Significant accounting policies – d) Other items – Investment property").
- › Measuring Group-occupied land and buildings, particularly in relation to the discount rate and valuation technique used (see note 8 "Property and equipment and Group-occupied properties").
- › Determining potentially applicable probabilities and settlement amounts when recognizing other provisions as well as estimating contingent liabilities not recognized in the statement of financial position (see note 21 – "Non-current provisions" and note 28 – "Contingent liabilities").
- › Measuring financial guarantees issued (see the section entitled "Significant accounting policies – c) Financial instruments – Financial guarantees").

Judgment has to be exercised primarily for:

- › Estimating the deferred tax effect on the basis of temporary differences between the tax base and the carrying amount in the IFRS statement of financial position, to which the operation's particular average tax rate is applied (see note 11 – "Deferred tax assets," note 20 – "Deferred tax liabilities," note 42 – "Disclosures relating to income tax expenses," and the section entitled "Significant accounting policies – d) Other items – Tax items").

i) Disclosures relating to changes in reporting standards and correction of errors in accordance with IAS 8

Amendments to the IFRSs adopted by the EU entered into force in 2017. All standards and amendments to standards whose first-time application is mandatory as from the effective date January 1, 2017 have been applied in these financial statements. This had no material impact on the statement of financial position, profit or loss, other comprehensive income, or on the associated disclosures in the notes to the consolidated financial statements. No interpretations, amendments, or standards have been applied voluntarily prior to the mandatory effective date for the EU.

Future amendments to standards (not yet adopted into EU law)

Amendments to standards that may be relevant to future reporting periods were published as of December 31, 2017. Some of the amendments have not yet been adopted into applicable EU law and ING-DiBa will not opt for voluntary early application. Unless otherwise indicated, ING-DiBa is in the process of assessing the effects. The amendments are not expected to have any material effects on ING-DiBa's consolidated financial statements.

Future amendments to standards (adopted into EU law)

The following section presents the changes in relation to IFRS 9, IFRS 15, and IFRS 16, which have already been adopted into EU law. ING-DiBa is not planning early application of other standards already adopted into applicable EU law if their first-time application is only mandatory in subsequent years. These amendments are not expected to have any material effects on ING-DiBa's consolidated financial statements.

IFRS 9 – Financial Instruments

On July 24, 2014, the International Accounting Standards Board (IASB) issued the final version of IFRS 9 "Financial Instruments," which replaces IAS 39 "Financial Instruments: Recognition and Measurement." IFRS 9 contains revised guidance on the classification and

measurement of financial instruments, including a new model of expected credit losses for calculating impairment losses on financial assets, as well as new general hedge accounting rules. The new standard largely retains the guidance of IAS 39 on recognizing and derecognizing financial instruments. IFRS 9 was adopted into EU law in November 2016 and will enter into mandatory effect for reporting periods beginning on or after January 1, 2018. All changes to accounting policies resulting from the application of IFRS 9 will be applied retrospectively, except in the following cases:

- › The ING Group will exercise the exemption that allows entities to not restate comparative information for prior periods to reflect changes to classification and measurement (including impairment). All differences between the carrying amounts of financial assets and financial liabilities due to the application of IFRS 9 will generally be recognized in retained earnings and other reserves as of January 1, 2018.
- › The business model according to which a financial asset is held will be determined on the basis of the facts and circumstances prevailing at the time of initial application.

According to a central decision taken at ING Group level, hedge accounting will be continued in accordance with the existing guidance of IAS 39 by applying the EU "carve out." The revised hedge accounting disclosure requirements of IFRS 7 "Financial Instruments: Disclosures" will be implemented with effect from January 1, 2018.

The requirements for the application of IFRS 9 centrally specified by the ING Group, as presented in this section, will be adopted by ING-DiBa for local purposes. Where the local application differs from the central approach, this will be explained separately. All quantitative information disclosed in this section is based on expected amounts, which are still subject to change until the first financial statements following the application of IFRS 9 have been prepared as of December 31, 2018.

IFRS 9 implementation – project structure and status

The IFRS 9 implementation project was launched at the level of ING Groep N.V. (Group level) and of ING-DiBa on the basis of the three phases of IFRS 9: classification and measurement, impairment, and hedge accounting. Experts from accounting, risk management, treasury, operations, and the business segments are involved in the components of the project. The Technical Board, which has been established at the Group level of the project and of which ING-DiBa is a member, supports the IFRS 9 Steering Committee by reviewing central guidance and instructions on implementing IFRS 9 created by the central working groups. The Technical Board comprises senior employees in the Accounting and Risk Management departments. The Technical Board is also relevant for the local project conducted within ING-DiBa. The Steering Committee is the highest decision-making body at Group level. It consists of members of senior management from Group Finance, Risk Management, Bank Treasury, and Wholesale Banking Lending Services. The Management Board Banking and the Audit Committee receive regular updates about the progress of IFRS 9 implementation and will be actively involved in key decisions.

In 2017, the project focused in particular on the following aspects:

- › Performing quarterly parallel runs to test the readiness of the affected systems, processes, and controls for transition to IFRS 9 as of January 1, 2018,
- › Finalizing and validating the expected credit loss (ECL) models of IFRS 9,
- › Developing and implementing processes for allocating financial instruments to the 3-stage model and using forward-looking economic guidance in the ECL model,

- › Finalizing the technical interpretation of IFRS 9,
- › Finalizing the business model test and the test to determine whether the contractual cash flows are solely payments of principal and interest (SPPI),
- › Implementing and testing system changes,
- › Updating the policies, governance, and control framework affected by IFRS 9 and starting to embed these changes into everyday business and financial reporting cycles,
- › Preparing disclosures in the notes required under IFRS 9 for the transition date (initial application).

The activities relating to the initial application of IFRS 9 are currently being finalized, both locally and at Group level. This includes primarily transferring project results up the reporting line and finalizing the remaining model validations.

IFRS 9 – classification and measurement

IFRS 9 is built on a single approach for classifying and measuring financial assets on the basis of the business model in which the financial assets are managed as well as their cash flow characteristics.

Under IFRS 9, the classification and measurement are determined on the basis of two criteria:

1. Business model criterion: in a first step, the underlying business model is assessed to determine how a financial asset is managed in order to classify the business model as hold to collect (HtC), hold to collect and sell (HtC&S), or other. The business model can be tested at the portfolio level, if the portfolios meet the homogeneity requirements of IFRS 9.
2. Cash flow criterion: in a second step, the contractual cash flows of the financial instruments in each business model are analyzed in order to determine whether they are solely payments of principal and interest (SPPI). Principal is defined as the fair value of the financial asset on initial recognition. Interest is defined as consideration for the time value of money, for the credit risk associated with the principal amount outstanding, and for other basic lending risk and costs as well as an adequate margin. The cash flow criterion must be tested at the level of the individual financial asset.

These criteria determine whether a financial asset is classified and measured:

- › at amortized cost (AC),
- › at fair value through other comprehensive income (FVOCI), or
- › at fair value through profit or loss (FVTPL).

A financial asset is measured at amortized cost if it is held within an HtC business model and the contractual cash flows are solely payments of principal and interest. A financial asset is measured at fair value through other comprehensive income if it is held within an HtC&S business model, the contractual cash flows are solely payments of principal and interest, and it is not designated as measured at fair value through profit or loss. Financial assets that are not covered by either of these categories are measured at fair value

through profit or loss. The standard eliminates the existing IAS 39 categories of held to maturity (HtM), loans and receivables (LaR), and available for sale (AfS).

The business models are in line with ING-DiBa's local business organization and are based on the globally implemented business model blueprint. The definition of the business models takes into account how performance is measured and controlled and reported to management. It also reflects considerations on underlying business risk and on historic and expected future sales. The SPPI test was performed on a sample basis by allocating the financial assets within the business models to portfolios with similar risks, based on an analysis of their contractual characteristics. The contractual terms of the financial assets were tested to determine whether they contain any clauses that change the amount or timing of the cash flows in a way that may cause them to fail the SPPI test, such that they are no longer solely payments of principal and interest within the meaning of IFRS 9.

For the classification and measurement of financial assets, accounting policy choices were taken throughout the Group. Examples are permissible sales in HtC business models, the accounting treatment of equity instruments, and prepayments. The decision-making process for such policy choices followed the IFRS 9 project governance, with technical matters analyzed, decisions documented, and conclusions proposed by the IFRS 9 Technical Board for approval by the IFRS 9 Steering Committee.

Impact

As a result of the combined application of the business model and cash flow criteria, the classification and measurement of the following portfolios will change:

- › Based on the underlying business models, the investment portfolio that was previously classified as AfS will be split into a portfolio measured at amortized cost (HtC) and a portfolio measured at fair value through other comprehensive income (HtC&S). Around EUR 22,573 million of the bonds classified as AfS under IAS 39 as of December 31, 2017 are measured at amortized cost in the HtC business model under IFRS 9. Net of the effects of the continuing application of hedge accounting in accordance with IAS 39, the reclassification is expected to result in a reduction in changes in accumulated other comprehensive income (OCI) of around EUR - 394 million at the date of initial application.
- › Due to intra-Group back transfers, a portfolio with loans (which contains transactions with ING Capital LLC) has been allocated to an HtC&S business model locally at the level of ING-DiBa; it is measured at fair value through other comprehensive income. We expect that the transition to fair value measurement will have an effect of around EUR 19 million on the carrying amount of the loans and of around EUR 13 million on equity.
- › In addition, in accordance with IFRS 9, securities from the ABS loan portfolio (LaR, part of the liquidity portfolio) measured at amortized cost under IAS 39 with a carrying amount of approximately EUR 290 million will be allocated to the HtC&S measurement category. This will result in measurement effects, reducing their carrying amount (by approximately EUR 5 million) and equity (by approximately EUR 4 million).
- › Approximately EUR 140 million of the ABS securities previously classified as loans or measured at amortized cost, will be measured at fair value through profit or loss under IFRS 9, because they do not meet the cash flow criterion. We expect the transition to fair value measurement to reduce both the carrying amount of the ABS securities and equity by around EUR - 1 million.

In addition, the classification will result in changes to ING-DiBa's statement of financial position, but they will have no impact on equity.

- › ING-DiBa recognizes equity instruments in an amount of around EUR 5 million. For the strategic investment in equity instruments (EUR 0 million), a decision was taken at Group level to apply the option to designate these instruments at fair value through other comprehensive income. Upon disposal, any fair value changes will not be recycled from the revaluation reserve to profit or loss. Only the dividends received on these instruments will be recognized through profit or loss.

IFRS 9 – impairment

The implementation of IFRS 9 has a significant impact on the impairment methodology in the ING Group. The impairment model of IFRS 9 is more forward-looking than that of IAS 39 and replaces the "incurred losses" model under IAS 39 with an "expected credit losses (ECL)" model. This requires considerable judgment in determining to what extent the expected credit losses are influenced by changes in economic factors. This assessment is made on the basis of weighted probabilities. The expected credit losses in the ECL model under IFRS 9 must be determined on the basis of unbiased, probability-weighted estimates and take account of supportable information about past events, current conditions, and forecasts of future economic developments. The ECL also incorporates various macroeconomic scenarios and the time value of money. The scope of the new impairment requirements covers financial assets (with the exception of equity instruments held as financial assets) measured at amortized cost or at fair value through other comprehensive income (FVTOCI), such as receivables, debt securities, bonds, and lease receivables, as well as financial assets not recognized in the statement of financial position, such as certain loan commitments, financial guarantees, and undrawn committed revolving credit facilities. The most significant change compared with IAS 39 is that financial assets in the HtC&S business models are included in the calculation of ECL. The Bank has aligned the definition of credit losses under IFRS 9 with the definitions used for prudential purposes.

ING Group's approach is based on supervisory advanced internal ratings based (AIRB) models, which have been enhanced for the purposes of IFRS 9. For portfolios that have to date used the standard approach to determine risk provisions, ING has developed new ECL-based models. The amounts determined at Group level are applied locally.

3-stage approach

The 3-stage approach for determining expected credit losses specified by IFRS 9 is being implemented throughout ING Groep N.V.

- › Stage 1: 12-month expected credit loss (12-month ECL) – no significant increase in credit risk.
If at the reporting date the credit risk of financial instruments has not increased significantly since initial recognition, the impairment to be recognized for this financial instrument is determined in the amount of the 12-month expected credit loss (12-month ECL). For financial assets with a remaining maturity of less than 12 months, a probability of default (PD) is used that matches the remaining maturity.
- › Stage 2: Lifetime expected credit loss (lifetime ECL) – significant increase in credit risk.
If the credit risk has increased significantly since the financial instrument was initially recognized, the total credit loss expected over the remaining maturity of the instrument is recognized in the amount of the present value of the expected credit losses (lifetime ECL).
- › Stage 3: Lifetime expected credit loss (lifetime ECL) – defaulted.
If there is objective evidence of impairment, the financial instrument must be allocated to stage 3 and the expected credit loss must be determined for the remaining maturity (lifetime ECL).

Significant increase in credit risk

A financial asset is transferred from stage 1 to stage 2 of the 3-stage approach when there is a significant increase in credit risk since initial recognition. ING Groep N.V. has established a framework that incorporates quantitative and qualitative factors in identifying a significant increase in credit risk. Each financial instrument is tested as of the reporting date for a significant increase in credit risk. The Group, and consequently also ING-DiBa, assesses whether there has been a significant deterioration that may result in moving the instrument from stage 1 to stage 2 on the basis of the following criteria:

- › Significant increase in lifetime default probability,
- › Watchlist status. Loans on the watchlist are tested individually to establish whether they should be allocated to stage 2 of the impairment model,
- › High absolute default probability,
- › Forbearance status,
- › Internal rating,
- › Intensive care management, and
- › The "more-than-30-days-past-due" backstop for transfers from stage 1 to stage 2.

A significant increase in the lifetime probability of default is the main trigger of a transfer from stage 1 to stage 2. It is determined by comparing the probability of default at origination with the probability of default at the reporting date, taking the remaining maturity into account. Transfers between stages can be made in both directions, if the triggers for the previous transfer are no longer applicable (taking into account the regulatory probation periods). The 3-stage model will be implemented in the central credit risk systems.

Macroeconomic factors

At the Group level, a quarterly process is used to develop forward-looking macroeconomic scenarios and probability weightings for ECL calculation purposes. The Bank applies predominantly data from a leading external service provider, enriched with the internal ING view. To reflect an unbiased and probability-weighted ECL amount, a baseline, an up-scenario, and a down-scenario are determined. As a baseline scenario, the Bank applies a market-neutral view combining consensus forecasts for economic variables such as unemployment rates, GDP growth, property prices, commodity prices, and short-term interest rates. Applying market consensus in the baseline scenario ensures unbiased estimates of the expected credit losses.

The alternative scenarios are based on forecast errors observed in the past, adjusted for the risks affecting the economy today, and the forecast horizon. The probability weightings assigned are based on the likelihoods of observing the three scenarios and are derived from confidence intervals on a probability distribution. The scenarios are adjusted on a quarterly basis.

At ING-DiBa, the approach presented above is used in particular for stage 1 and stage 2. For stage 3, various approaches are used depending on the locality; they also take account of a number of scenarios that may differ from the above in some cases.

As the inclusion of forward-looking macroeconomic scenarios requires judgment, a "macroeconomic scenarios team" and a "macroeconomic scenarios expert panel" were established. The "macroeconomic scenarios team" is responsible for the macroeconomic scenar-

ios used in determining IFRS ECL. The outcomes are verified by the "macroeconomic scenarios expert panel". This ensures that the macroeconomic scenarios are sufficiently challenged and that key economic risks, including immediate economic risks, are taken into consideration when developing the macroeconomic scenarios used in the calculation of ECL. The "macroeconomic scenarios expert panel" is a team composed of senior management representatives from Risk Management and Finance, and an external member.

Measuring impairment

ECL is determined on the basis of existing models for determining expected credit losses (PD, EAD, LGD), which are already used to calculate regulatory capital, economic capital, and the risk provision under the current IAS 39 framework. The following adjustments are made:

- › Embedded prudential conservatism (such as PD floors) is removed.
- › Forward-looking point-in-time estimates are provided, based on macroeconomic predictions.
- › A 12-month credit risk is taken into account, or alternatively lifetime features such as default behavior over a period of time, behavior immediately after default, repayment schedules, and early settlements.

For most financial instruments, the expected life is equivalent to the remaining maturity. For overdrafts and certain undrawn revolving credit facilities, assumptions are made about the end of the contract, as these do not have a fixed term or repayment schedule.

ING calculates ECL on the basis of $PD \times EAD \times LGD$, incorporating the time value of money. PD stands for probability of default, EAD for exposure at default, and LGD for loss given default. For financial instruments assigned to stage 1 of the impairment model, the underlying inputs are considered over a 12-month horizon, while for stage 2 instruments, they are considered over the lifetime of the asset. The lifetime ECL is the discounted total of the losses in relation to single default events within all 12-month windows to maturity. For assets assigned to stage 3 of the impairment model, PD equals 100%. LGD and EAD represent a lifetime view of the losses based on the characteristics of defaulted exposures.

IFRS 9 – impact of first-time adoption

As a result of the new IFRS 9 impairment requirements, ING-DiBa expects that the risk provision will increase by approximately EUR 69 million.

Under IFRS 9, the risk provision is estimated at EUR 540 million, compared with an IAS 39 risk provision of EUR 471 million. This equates to a transition impact of EUR 69 million (before tax). The differences in the risk provision between IAS 39 and IFRS 9 are primarily attributable to:

- › Recognition of lifetime ECL for stage 2 assets,
- › Adjustment to the loss identification period (LIP),
- › Inclusion of macroeconomic conditions and scenarios,

Capital and other regulatory requirements

Regulatory capital is not determined at the level of the ING-DiBa AG subgroup and not on the basis of IFRS accounting policies. For general information on the regulatory capital of the credit institution ING-DiBa AG at single-entity level and on the basis of accounting in

accordance with the German Commercial Code (HGB), please see the Regulatory Disclosure Report (www.bundesanzeiger.de). For information on the regulatory capital of the ING-DiBa subgroup, please refer to note (44) Regulatory capital and risk-weighted assets.

Impact on shareholders' equity (after tax)

We expect the first-time application of IFRS 9 to result in a change in shareholders' equity, as shown in the table below. The table shows the expected after-tax amounts, which may still be subject to change.

	Estimated impact of adopting IFRS 9 at 1 January 2018 on shareholders' equity
Increase of loan loss provisions ¹	-47
Investment portfolio ²	-398
Mortgages held in HTC&S portfolio ³	13
Other ⁴	-1
Total impact	-433

⁽¹⁾ The increase in the loan loss provision recognized in the statement of financial position by around EUR 69 million leads to a reduction in equity by around EUR 47 million (after tax).

⁽²⁾ Following the division of the investment portfolio into an HtC and an HtC&S business model and the associated effects, we expect the carrying amount to decline by EUR 584 million and equity to decline by EUR 398 million (after tax).

⁽³⁾ The allocation of the IBINI portfolio (loans) to the HtC&S category leads to an increase in the carrying amount recognized in the statement of financial position by around EUR 19 million and an increase in equity by around EUR 13 million (after tax).

⁽⁴⁾ The switch in the measurement of some ABS loans that do not meet the cash flow criterion to fair value measurement is expected to result in a decrease in the carrying amounts of these items and in equity (after tax) by around EUR 1 million.

IFRS 15 – Revenue from Contracts with Customers

IFRS 15 "Revenue from Contracts with Customers" was adopted into EU law in September 2016 and according to the IASB is applicable to reporting periods beginning on or after January 1, 2018. IFRS 15 sets out a comprehensive framework for determining whether, in what amount, and at what time revenue is recognized. It replaces existing guidance on revenue recognition, in particular IAS 18 "Revenue." In accordance with the Group-wide approach of ING Groep N.V., for the transition to IFRS 15 the Bank uses the retrospective application method under IFRS 15.C3(b), with the cumulative adjustment resulting from initially applying the standard recognized at the date of initial application. The impact of the transition to IFRS 15 is described below.

IFRS 15 introduces a five-step approach for recognizing revenue, with revenue being recognized in relation to the agreed performance obligation being satisfied. Agreed performance obligations are individual promises to the customer that provide benefits to the customer. Revenue is recognized either at a point in time or over time, depending on how the performance obligation is satisfied. Fees that are part of the effective interest rate of a loan do not fall within the scope of IFRS 15. Net commission income falls within the scope of IFRS 15.

As part of a Group-wide investigation, the Bank analyzed the relevant commission income and expenses. As a result, no differences were identified that would lead to different accounting treatment of the sources of income under IFRS 15 as compared with IAS 18. Consequently, the Bank does not expect any significant impact as compared with the existing practice under IAS 18.

In accordance with the Group-wide approach adopted by ING Group, the Bank will make use of transition relief in applying IFRS 15. The costs of obtaining contracts are recognized immediately in profit or loss, if the asset that would arise from recognizing these costs as an asset would have been amortized within one year.

IFRS 16 – Leases

IFRS 16 "Leases" was adopted into EU law in October 2017 and according to the IASB is applicable to reporting periods beginning on or after January 1, 2019. It will replace the existing guidance on leases, including IAS 17 "Leases", IFRIC 4 "Determining whether an Arrangement Contains a Lease", SIC-15 "Operating Leases – Incentives", and SIC-27 "Evaluating the Substance of Transactions Involving the Legal Form of a Lease". IFRS 16 introduces a single accounting model to be applied for recognizing leases in the lessee's statement of financial position. The lessee recognizes a right-of-use asset, which represents its right to use the underlying asset, as well as a lease liability, which represents its obligation to make lease payments. There are exemptions for short-term leases and leases of low-value assets. Lessors will account for leases in a similar way to the current standard, therefore still classifying leases as finance or operating leases. IFRS 16 will also lead to a change in the recognition of the expense in comparison to IAS 17. The recognition of expenses under operating leases – generally on a straight-line basis in accordance with IAS 17 – will be replaced by amortization of the right-of-use asset and interest expenses for the lease liability. The new approach is intended to make visible the lessee's assets and liabilities and to improve comparability between companies; together with the expanded disclosure requirements, it is also aimed at creating transparency with regard to the financial leverage of leases and the capital employed.

Under IFRS 16, lessees will be able to choose between a full and a modified retrospective approach; transition relief is available under the modified approach. The decision as to which transition method is to be used has not yet been made. In addition, the standard contains options and relief provisions to help minimize the cost of initial application. The accounting treatment of leases by the lessor will remain largely unchanged from IAS 17.

The ING Group will apply the standard as from its effective date, i.e., for fiscal years beginning on or after January 1, 2019. ING-DiBa has started to assess the possible impact of applying IFRS 16 to the consolidated financial statements, but is unable to quantify the impact at this point in time.

Corrections in accordance with IAS 8

The previous fiscal year's consolidated financial statements contained an error of presentation in the way the maximum default risk of "Other loans and advances" was disclosed under the "Loans and advances to banks" item. This error has been corrected in the consolidated financial statements for the year under review. The relevant disclosures required under IAS 8.49 can be found in section 4 "Additional disclosures under IFRS 7" of the Group management report.

j) Events after the end of the reporting period

As of February 1, 2018, Katharina Herrmann, member of the Management Board of ING-DiBa AG (until January 31, 2018), assumed the position of Head of Platforms and Beyond Banking for ING Group N.V. in Amsterdam.

ING Deutschland GmbH, the parent company of ING-DiBa AG, intends to acquire ECommerce Holding II S.à.r.l. and the companies belonging to it, such as Lendico Deutschland GmbH. The German Federal Cartel Office (*Bundeskartellamt*) has already been notified of the purchase intention to allow for a review of the proposal, but this had not been done at the time of preparing the annual financial statements for fiscal year 2017.

This is mainly attributable to an adjustment of the underlying measurement inputs, which led to a reduction in the risk provision on loans and advances to customers of EUR 66 million through profit or loss. See note 39 for more details.

As in the previous year, there were no subordinated loans and advances to customers.

Information on the net gains or losses on available-for-sale securities is disclosed separately in the consolidated statement of comprehensive income and the consolidated statement of changes in equity.

ING-DiBa continues to report the securities transferred as part of repo transactions in its statement of financial position. Since dated return and repurchase agreements are in place for the transferred assets, ING-DiBa continues to bear the associated risks and rewards. The risks are described in the Group management report. Note 26 contains information relating to financial instruments transferred and pledged as collateral and the corresponding liabilities.

This item includes derivative financial instruments designated as hedges and instruments not designated as hedges with a positive fair value of EUR 524 million (December 31, 2016: EUR 345 million).

ING-DiBa generally only uses simply structured interest rate swaps. In accordance with IAS 39.9, they are allocated to the "at fair value through profit or loss" category. In addition, foreign currency derivatives have also been entered into, particularly to procure foreign currencies.

Furthermore, other derivatives also include derivatives outside hedge accounting, which serve to hedge interest rate and other market price risks and for duration management. Derivatives in ineffective hedge relationships are also reported under this item.

The carrying amount represents only foreign currency derivatives and other un-netted derivatives due to a large number of netting arrangements with a central counterparty. Please refer to note 27 for further information on the volume of derivatives and offsetting.

All derivative financial instruments are carried at their fair values and reported as derivatives with positive or negative fair values. Changes in fair value, with the exception of those in relation to the effective portion of fair value changes in cash flow hedges, are immediately recognized in profit or loss.

Further information on derivatives and hedge accounting can be found in note 18 "Derivatives with negative fair value," note 25 "Hedge accounting," note 34 "Net interest income," and note 36 "Net gains/losses on measurement of derivatives and hedged items."

The accrued interest on derivatives is reported under "other assets" (note 12) and under "other liabilities" (note 22).

(7) Investment property

The Group holds a small portfolio of properties that it does not use itself. If they generate rental income, this is recognized under other net gains/losses on financial investments and investment property (note 37).

Comments on the valuation techniques can be found in section d) of the chapter on "Significant accounting policies" and note 33 in this report.

IT facilities and other property and equipment are measured using the cost method under IAS 16.30. The assets are depreciated pro rata temporis on a straight-line basis. The depreciation periods applied correspond to the expected useful lives. Depreciation expenses are recognized under "other administrative expenses" (note 41) in the income statement.

The revaluation method is used to measure Group-occupied properties. Further information can be found in section d) of the chapter on "Significant accounting policies" and note 33.

The following depreciation periods have been applied:

Overview of depreciation periods

	Depreciation periods in years
IT facilities	2-7
Group-occupied properties	50
Other property and equipment	2-23

Their fair values are determined in the same way as those of investment properties, using the income approach. No need for remeasurement was identified in fiscal year 2017.

Amortization expenses are recognized under "other administrative expenses" (note 41) in the income statement.

The gains or losses are only recognized in profit or loss when the asset has been sold or derecognized. In addition, the reserve for cash flow hedges is part of the changes in accumulated other comprehensive income.

"Other reserves" contains the legal reserve, retained earnings, capital contributions from the parent, and the share-based payments granted by ING Groep N.V. with settlement using equity instruments. In addition, the remeasurement of defined benefit pension plans is a component of other reserves. Note 21 contains disclosures on pension provisions.

The profit after tax for 2017, determined in accordance with HGB, of EUR 357 million (2016: EUR 740 million) will be transferred to the sole shareholder, ING Deutschland GmbH, Frankfurt am Main, on the basis of a profit and loss transfer agreement.

Subordinated liabilities	1,400	0

ING-DiBa AG raised subordinated debt with a principal amount of EUR 1,400 million in 2017. The lender is ING Deutschland GmbH, Frankfurt am Main. The subordinated loan is divided into three tranches and bears interest at variable rates.

In the case of insolvency proceedings or liquidation of the Bank, the liabilities will only have to be repaid once all non-subordinated creditors have been satisfied. Conversion to equity or another form of debt has not been agreed. There is no premature repayment obligation.

Each tranche is subject to a half-yearly contractual repayment right commencing 5 years before maturity.

(15) Securitized liabilities

Since 2011, ING-DiBa AG has been issuing mortgage bonds (*Hypothekenpfandbriefe*), which are placed on the capital market. Each issue has been given a minimum denomination of EUR 100,000.

Note 26 provides information on financial instruments transferred and pledged as collateral. The contractual bases for derivatives are the German master agreement and the International Swaps and Derivatives Association (ISDA) agreement.

The amounts due to customers include cash collateral accepted in connection with guarantee loans assumed of EUR 4 million (December 31, 2016: EUR 5 million).

The accrued interest on amounts due to customers is reported under "other liabilities" (note 22).

Total		78	336

This item includes derivative financial instruments designated as hedges and instruments not designated as hedges with a negative fair value (after offsetting) of EUR 78 million (December 31, 2016: EUR 336 million).

ING-DiBa generally only uses simply structured interest rate swaps. In accordance with IAS 39.9, they are allocated to the "at fair value through profit or loss" category. In addition,

foreign currency derivatives have also been entered into, particularly to procure foreign currencies.

Other derivatives include derivatives outside hedge accounting which are used to hedge interest rate and other market price risks and for duration management. Derivatives in ineffective hedge relationships are also reported under this item.

The carrying amount virtually represents only foreign currency derivatives due to a large number of netting arrangements with a central counterparty. Please refer to note 26 for further details on derivatives and offsetting.

All derivative financial instruments are carried at their fair values and reported as derivatives with positive or negative fair values. Changes in fair value, with the exception of those in relation to the effective portion of fair value changes in cash flow hedges, are immediately recognized in profit or loss.

Further information on derivatives and hedge accounting can be found in note 6 "Derivatives with positive fair value," note 25 "Hedge accounting," note 34 "Net interest income," and note 36 "Net gains/losses on measurement of derivatives and hedged items."

The accrued interest on derivatives is reported under "other assets" (note 12) and under "other liabilities" (note 22).

(19) Income tax liabilities

As in the previous year, there were no income tax payment obligations to the tax authorities as of December 31, 2017.

Because of amounts taken directly to equity, the change in the difference between deferred tax assets and deferred tax liabilities does not correspond to net deferred taxes.

Deferred taxes on the measurement of AfS securities of EUR 87 million (December 31, 2016: EUR 3 million) were taken directly to equity, and relate to the total result recognized in changes in accumulated other comprehensive income of EUR - 277 million (December 31, 2016: EUR - 8 million).

This led to a net result of EUR - 190 million (December 31, 2016: EUR - 5 million).

The average tax rate on which the calculation of the unused tax loss carryforwards was based was 25 percent in fiscal year 2017 (December 31, 2016: 25 percent). As of December 31, 2017, this resulted in deferred tax assets amounting to EUR 3 million (December 31, 2016: EUR 6 million).

As of December 31, 2017, and the prior-year date, there were no temporary differences in connection with investments in subsidiaries and foreign branches, for which no deferred taxes had as yet been recognized.

There is uncertainty with regard to the amount and timing of utilization. The likelihood of a utilization and thus an outflow of economic resources is continually reviewed (see section d) in "Significant accounting policies").

Pension provisions

Pension plans

ING-DiBa grants its employees post-employment benefits on the basis of bank agreements and individual contractual commitments. In addition to the payment of retirement pensions, they also include disability benefits and bereaved benefits.

Occupational pensions are governed by defined benefit plans and defined contribution plans. Expenses for defined contribution plans, including employer contributions to the statutory pension insurance scheme, amounted to EUR 33 million (December 31, 2016: EUR 26 million).

For the German operations, the regulatory framework for the defined benefit pension plans comprises in particular the German Company Pension Plans Act (*Gesetz zur betrieblichen Altersversorgung* (BetrAVG)) and pension agreements entered into as individual pension promises on the basis of works agreements.

The benefits paid on the basis of defined benefit plans depend on individual arrangements, are calculated on the basis of final salary and the average salary for the last three service years or are based on a system of pension points by salary class.

Pension plans are protected against insolvency through the German Pension Guarantee Association (Pensionssicherungsverein), a contractual trust agreement (CTA), and a pension fund. The CTA is a guarantee and trust agreement, under which funds can only be used to finance the promised post-employment benefits and which is separate from the employer's other assets.

The plan assets in the CTA and pension fund consist exclusively of units in a special fund, which invests in cash, fixed income securities and various equity strategies. ING-DiBa has an obligation to make additional payments to this fund in defined circumstances of insufficient cover. In fiscal year 2017, additional funding of EUR 1 million (2016: EUR 1 million) was contributed to plan assets.

A contribution of EUR 2 million to the pension plan is expected for the next reporting period (2018).

The Bank carries the risk of maintaining, and generating returns on, the plan assets. ING-DiBa is represented on the investment committee of the special fund. The fund is managed in accordance with the German Pension Fund Capital Investment Regulation (*Pensionsfondskapitalanlageverordnung* (PFKapAV)), with target performance and composition being specified; the primary objective is preservation of capital.

Other risks from defined benefit pension plans arise from unforeseeable changes in actuarial assumptions.

There were no changes to existing plans in fiscal year 2017. There were no curtailments or plan settlements in the periods under review.

Note 32 contains disclosures on pension provisions for former members of executive bodies and their bereaved.

(24) Expected periods of realization

The table below shows for each asset and liability position those amounts that, based on their contractual maturities, are expected to be realized or settled within twelve months of the reporting date (current) and later than twelve months after the reporting date (non-current). Asset and liability items without contractual maturities are classified as current items. This includes the "cash reserve" and "income tax assets/liabilities" line items in the statement of financial position. The following line items in the statement of financial position are classified as non-current: investment property, property and equipment, intangible assets, and deferred tax assets and liabilities. ⁽¹⁾ Due to technical restrictions, some Wholesale Banking transactions were allocated to current periods of realization in the previous year. In the current year the allocation to realization periods is presented correctly.

IAS 1.60 et seq. in conjunction with IFRS 7.39 results in a worst-case analysis for the "amounts due to customers" item. Customer deposits payable on demand are classified as payable at short notice due to their contractual maturity. The contractual maturity of demand deposits does not adequately reflect the liquidity risk exposure. In order to determine the expected repayment date, modeling assumptions must therefore be made. These assumptions form an integral part of the liquidity risk management concept. Further information on liquidity risk can be found in the Group management report (risk report).

Information on offsetting may be found in note 27.

(25) Hedge accounting

Hedge accounting is discussed in section d) of the section entitled "Significant accounting policies."

The accrued interest on hedging derivatives is reported under "other assets" (note 12) or under "other liabilities" (note 22).

Information on the allocation of the hedging derivatives to micro and portfolio hedges is provided in note 6 "Derivatives with positive fair value" and note 18 "Derivatives with negative fair value."

Fair value hedges

The following table shows the fair values of derivatives held as part of fair value hedges.

	12/31/2017 Assets € m	12/31/2017 Equity and liabilities € m	12/31/2016 Assets € m	12/31/2016 Equity and liabilities € m
Derivatives used as fair value hedges	4	0	0	0

Net gains/losses on the measurement of derivatives and hedged items are described in note 36.

The full fair value of derivatives, including accrued interest, amounted to EUR 3 million as of December 31, 2017, on the assets side (December 31, 2016: EUR 0 million) and to EUR 1 million as of December 31, 2017, on the liabilities side (December 31, 2016: EUR 0 million).

In 2017 all derivatives designated as fair value hedges, including collateral provided, were offset due to the clearing of the derivatives via a CCP. Please refer to note 27 "Offsetting, master netting and similar agreements" for further information.

The changes in fair value of hedged items in portfolio hedge accounting which are attributable to the hedged risk are presented in a separate item in the statement of financial position. These are explained under "adjustment to portfolio fair value hedges" (note 4).

Cash flow hedges

The following table shows the fair values of derivatives held as part of cash flow hedges.

(26) Financial instruments transferred and pledged as collateral

Financial instruments transferred yet not derecognized

ING-DiBa continues to hold the securities transferred as part of repo and securities lending transactions in its statement of financial position. Since dated return and repurchase agreements are in place for the transferred assets, ING-DiBa continues to bear the associated risks and rewards. The risks are described in the Group management report.

The transactions with the European Central Bank System do not deviate from the procedure commonly used in the market.

Further information on repo transactions can be found in note 16 "Deposits from banks" and note 17 "Due to customers".

All financial instruments pledged as collateral by ING-DiBa can be sold or pledged by the recipient of the collateral regardless of whether or not ING-DiBa defaults.

"Loans and advances to banks" (note 2) includes cash collateral for derivatives in the amount of EUR 31 million (December 31, 2016: EUR 425 million). Cash collateral of EUR 1 million (December 31, 2016: EUR 0 million) was pledged for repo transactions. EUR 26 million in cash collateral was provided in the context of transactions settled via central counterparties (December 31, 2016: EUR 16 million).

"Loans and advances to customers" (note 3) included a volume of EUR 6,857 million (December 31, 2016: EUR 7,301 million) pledged as collateral as part of transactions with the KfW development bank (Kreditanstalt für Wiederaufbau). Residential mortgage-backed securities (RMBS) in the amount of EUR 1,299 million (December 31, 2016: EUR 4,638 million) are pledged as collateral with the European Central Bank System. Note 31 contains further information on these RMBSs.

Private mortgage loans serve as collateral cover for the mortgage bonds (*Hypothek-enpfandbriefe*) issued. The carrying amount of the private mortgage loans entered into the funding register was EUR 4,784 million as of December 31, 2017 (December 31, 2016: EUR 4,554 million).

The loans of the cover pool comprise part of the "loans and advances to customers" item (note 3). In addition, EUR 80 million in AfS and HtM financial instruments (December 31, 2016: EUR 81 million) was provided as collateral.

In relation to the collateral listed, there are no clauses or conditions that are of material importance when considered separately.

(27) Offsetting, master netting, and similar agreements

Since fiscal year 2013, derivatives have increasingly been settled via a central counterparty. This has resulted in an offsetting requirement in the statement of financial position.

Agreements relating to derivatives transactions which were not conducted through the central counterparty as well as repo and reverse repo transactions are master netting agreements (MNA) and similar agreements, which result in the positions concerned being

offset off-balance under certain conditions. The off-balance settlement of these transactions relates solely to technical settlement and not to accounting presentation in accordance with IFRSs. MNAs are deemed to be legally enforceable if this is confirmed by applicable legal opinions.

For more information, please refer to note 6 "Derivatives with positive fair value," and note 18 "Derivatives with negative fair value."

(28) Contingent liabilities

Contingent liabilities are items not recognized in the statement of financial position, as specified in IAS 37 (see section e) of "Significant accounting policies").

These include irrevocable loan commitments, guarantees, and letters of credit.

Contingent liabilities relate primarily to irrevocable loan commitments to customers in the mortgage area (forward loans) and in Wholesale Banking.

The expected disbursements for irrevocable loan commitments and letters of credit are presented below. These correspond to the contractually stipulated maximum amounts. For guarantees, the maximum amount that can be drawn down is shown.

As part of the spin-off (August 31, 2011) of the former Frankfurt branch of ING Bank N.V. from ING Bank N.V., Amsterdam, to Conifer B.V., and the subsequent merger with ING-DiBa, ING-DiBa assumed Conifer B.V.'s secondary liability obligations existing by operation of the law for the protection of ING Bank N.V.'s creditors. This secondary liability obligation is anchored in article 2:334t of the Dutch Civil Code and applies to certain obligations on the part of ING Bank N.V. existing as of the effective date of the spin-off.

With regard to the scope of liability, a distinction must be drawn between joint and several obligations. Joint obligations of ING Bank N.V. are subject to the joint liability of ING DiBa and ING Bank N.V. The secondary liability in respect of the several obligations is limited to the value of the net assets of the Frankfurt branch of ING Bank N.V. as of the date of the spin-off to Conifer B.V.

The term of this liability is unlimited and expires only upon the extinguishment of the relevant obligation. In this context, it is not practical to make the disclosures required in accordance with IAS 37.86.

Pursuant to Article 70 (3) of Regulation (EU) No 806/2014 in conjunction with Article 13 (3) of Delegated Regulation (EU) 2015/63 and Article 8 (3) sentence 1 of Implementing Regulation (EU) 2015/81, an amount to be determined by the FMSA of between 15% and maximum 30% of the contributions ("European bank levy") may be provided in the form of irrevocable payment commitments backed by collateral; the level for fiscal years 2016 and 2017 was set at 15%. For the contributions pursuant to sections 19 (2) to (4) and 26 (1) sentence 3 of the German Deposit Guarantee Act (Einlagensicherungsgesetz, "EinSiG") in conjunction with section 5 (1) and (2), and sections 6 through 10 of the German Compensation Scheme Funding Regulation (Entschädigungseinrichtungs-Finanzierungsverordnung, "EntschFinV"), up to 30% of the annual levy can be provided by means of assuming an irrevocable payment commitment backed by collateral. ING-DiBa exercises this option and has furnished cash collateral or pledged securities as collateral for the payment commitments.

(29) Pending litigation

The outcomes of pending litigation are not expected to have any material adverse effect on the net assets, financial position, and results of operations in excess of the amounts already recognized for litigation risks under non-current provisions (see "Significant accounting policies," sections d) and e)).

(30) Future lease obligations

Total lease expenses amounted to EUR 26 million in fiscal year 2017 (2016: EUR 25 million). Of that amount, EUR 22 million (2016: EUR 22 million) was attributable to minimum lease payments and EUR 4 million (2016: EUR 3 million) was attributable to contingent lease payments.

As of the end of the reporting period, leasing obligations of EUR 0 million are reported due (2016: EUR 0 million).

Operationally, lease agreements for business premises or office buildings are considered material. Most of the agreements in question specify fixed terms or minimum lease terms for which fixed lease amounts have to be paid. Some of the rentals for buildings used for business operations are linked to consumer price indices.

Some of the leases for office buildings are for fixed terms, often granting renewal options, also for a fixed term. Other leases are for indefinite terms. They do not normally include a sale option.

The building leases do not impose restrictions that could impact the capital structure, profit or loss, or other lease agreements of the Company.

(31) Disclosures relating to equity investments

All subsidiaries and the structured entity included in the consolidated financial statements were consolidated.

As before, there were no equity investments that involved joint control in the fiscal year just ended.

Restrictions on the ability to obtain access to assets or to use them may arise from statutory or regulatory requirements. There are no recognizable significant restrictions on the ability to satisfy liabilities of consolidated companies.

The basis of consolidation in the reporting and comparison period was as follows:

	12/31/2017 Equity interest held directly Percent	12/31/2017 Equity interest held indirectly Percent	12/31/2016 Equity interest held directly Percent	12/31/2016 Equity interest held indirectly Percent

Ingredit Verwaltungs GmbH, Frankfurt am Main	100	0	100	0
Rahmhof Grundbesitz GmbH i.L., Frankfurt am Main	100	0	100	0

Control on the basis of voting rights

ING-DiBa AG holds all of the shares in GGV Gesellschaft für Grundstücks- und Vermögensverwaltung mbH, ING-DiBa Service GmbH, Ingredit Verwaltungs-GmbH and Rahmhof Grundbesitz GmbH i.L. The operating activities of the subsidiaries are primarily related to property and asset management.

Control without voting rights

On December 1, 2008, ING-DiBa AG transferred a portfolio of mortgage loans with a nominal volume of EUR 4.7 billion to a structured entity, Pure German Lion RMBS 2008 GmbH to let this entity securitize them in the form of residential mortgage-backed securities (RMBSs).

The structured entity is fully consolidated based on IFRS 10. ING-DiBa does not hold any equity interest in the entity. Nevertheless, the entity is controlled by the Bank, in particular through its limited purpose and the special economic relationships against the backdrop of corresponding contractual provisions.

All securities under this securitization transaction are held by ING-DiBa and fully eliminated in consolidation.

The consolidation results in the presentation of non-controlling interests in ING-DiBa's equity in the amount of EUR 25 thousand. The non-controlling interest does not represent any influence on the Group's activities or cash flows.

ING-DiBa granted a liquidity facility to Pure German Lion RMBS 2008 GmbH; however this does not represent either a guarantee or an additional payment obligation.

Associates

To the extent there is significant influence only insofar as there is the power to participate in financial and operating policy decision-making processes, but without the ability to control these decision-making processes alone, the long-term equity investments in question are reported by the Group as associates using the equity method. In fiscal year 2017, this

applied to paydirekt Beteiligungsgesellschaft privater Banken mbH, Berlin, in which the Bank holds 19.94% of voting rights. The purpose of the company's business is to hold and manage interests in a joint venture of institutions of the German Banking Industry Committee. The joint venture was set up for the purpose of establishing, operating and enhancing an innovative electronic payment system. The interest in the sole associate is insignificant in relation to the Group's business volume. The investment is presented under other assets (note 12) at a carrying amount of EUR 1 million (December 31, 2016: EUR 2 million). The income and expenses generated in the past and previous years by the company were immaterial.

Other equity investments

Other equity investments that are insignificant to the Group's economic position are presented under financial investments. Equity investments that are not listed and whose fair value cannot be reliably determined are recognized at cost (note 5).

Disclosures on non-consolidated structured entities

In the reporting periods under review, ING-DiBa did not maintain any relations with structured entities that are not included in the consolidated financial statements.

Fair value hierarchy

With regard to their fair values, which have to be reported in the statement of financial position or in the notes, financial and non-financial assets and liabilities are allocated to one of three levels, depending on the valuation techniques used to determine them:

Level 1: (Unadjusted) prices for identical assets or liabilities quoted on active markets to which the Company has access on the measurement date.

Level 2: Market prices, other than those included in Level 1, that can be observed either directly or indirectly for the assets or liabilities. This includes quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in

inactive markets, or other significant observable inputs, such as interest rates, volatilities, or risk premiums.

Level 3: Significant inputs that are not observable for assets or liabilities. Here, the determination of fair values is based on prices modeled for the asset or liability that are not based on observable market data.

The table below shows the levels used to measure those financial and non-financial assets and liabilities which are recognized at fair value in the statement of financial position.

Transfers between levels

By default, available-for-sale financial investments, derivatives with positive and negative fair values, investment property, and Group-occupied property are recognized at fair value in the statement of financial position.

If market prices are available and Level 1 allocation is therefore applied, the instruments have to be transferred to Level 2 if the quality of the prices quoted on the respective principal or most advantageous market deteriorates. If the market activity falls below a specified threshold, measurement is made based on observable parameters as defined for Level 2. Accordingly, instruments are transferred from Level 2 to Level 1 if market activity increases. An assignment is made to Level 3 if a significant amount of inputs that are not observable are used in the models for the fair value measurement. Consequently, transfers are made into or out of Level 3 if significant inputs are no longer observable or are again observable.

In fiscal year 2017, changes in market conditions or observable parameters caused the following shifts in the fair value measurement of AfS financial investments:

- › There were 8 (2016: 7) reclassifications from Level 2 to Level 1 amounting to EUR 495 million (December 31, 2016: EUR 75 million). Accordingly, accrued interest recognized under other assets amounting to EUR 12 million (December 31, 2016: EUR 0 million) was reclassified from Level 2 to Level 1.
- › There were 17 (2016: 10) shifts from Level 1 to Level 2, with a total volume of EUR 129 million (December 31, 2016: EUR 114 million) and related accrued interest in the amount of EUR 1 million (December 31, 2016: EUR 0 million).

The following presents a description of the valuation techniques used to determine the fair values of assets and liabilities:

- 1) Available-for-sale bonds of local authorities and private issuers and equity instruments are recognized at fair value. For financial instruments listed on active markets, the unadjusted price at the defined principal market or the most advantageous market is used for measurement (Level 1). This includes foreign currency bonds. If market activity is insufficient, either existing prices for similar instruments are used instead or the future cash flows expected to be derived from the respective financial instruments are discounted to present value using current interest rates, applying the relevant yield or swap curve. Product-specific spreads or credit spreads are taken into account. Only inputs observable on the market are included in the measurement systems (Level 2).
- 2) Asset-backed securities (ABSs) and mortgage-backed securities (MBSs) allocated to the available-for-sale category are recognized at fair value in the statement of financial position. For these instruments, no prices are quoted on active markets. Either indicative quotes or estimates from market makers are used to determine the fair values (Level 2). In that event ING-DiBa does not generate any quantitative, non-observable inputs. If no plausible fair values can be derived from the estimated values provided by third parties, the securities concerned are modeled as bullet bonds and measured using the discounted cash flow method (Level 3). In this process, the remaining maturity corresponds to a

conservatively estimated date of full redemption. The coupon corresponds to the actual interest rate of 0.22 percent, with a spread of 55 basis points modeled on the basis of non-observable inputs.

- 3) Standardized swaps (OTC derivatives) are measured using standard industry models, which incorporate inputs observed by providers of financial information, such as interest rates in particular (Level 2). Almost all transactions (interest rate, cross currency and FX swaps) are fully collateralized with cash or by settling them via a central counterparty, so that it is not necessary to take credit risk adjustments into account. Individual OTC derivatives are measured on the basis of the multi-curve valuation.
- 4) Investment property and Group-occupied property (notes 7 and 8) are regularly (once a year, and by an external expert at least every three years) measured at fair value in the statement of financial position. Because of the inputs it uses, the underlying income approach is categorized as a Level 3 method. Unobservable inputs are in particular the estimated rental income of the properties and the annual return on land value, which has to be deducted from annual net income. For the measurement of Group-occupied property, rental income in a range between EUR 4.50 to EUR 10.50 with a weighted average of EUR 10.21 is assumed per square meter per month, while rental income in a range between EUR 6.00 to EUR 16.79 with a weighted average of EUR 9.83 to EUR 12.33 per square meter per month is assumed for investment property. For annual returns on land value, interest rates in a range between 5.0% p.a. and 8.0% p.a. with a weighted interest rate of 5.25% p.a. are estimated for Group-occupied property, and interest rates in a range between 0.8% p.a. and 6.5% p.a. with a weighted interest rate of between 3.7% p.a. and 4.75% p.a. respectively for investment property. If ING-DiBa had based the valuation on inputs at the extreme ends of the ranges shown, the fair values as of December 31, 2017, would have been up to EUR 161 thousand (December 31, 2016: up to EUR 341 thousand) higher or up to EUR 772 thousand (December 31, 2016: up to EUR 658 thousand) lower.

⁽¹⁾ Relates to accrued interest disclosed separately under other assets or other liabilities.

- 5) The fair value of loans against borrower's notes is generally determined by applying a discounted cash flow method, taking into consideration the issuer-specific sector curves. If the sector curve spread is not suitable, a spread is derived from observable market inputs (Level 2) or modeled on the basis of internal assumptions (Level 3).
- 6) Asset-backed securities (ABSs) and mortgage-backed securities (MBSs) allocated to the loans-and-receivables category are measured at fair value for disclosure purposes under loans and advances to customers. The valuation technique is the same as the one described in the preceding section on ABSs and MBSs allocated to the available-for-sale category. ABSs and MBSs are allocated to Level 3. In addition to ABSs and MBSs, this item also includes covered bond securities allocated to the loans and receivables category. These securities are not quoted on an active market and were acquired ex-

clusively by companies of ING Bank N.V. Covered bond securities classified as Loans and Receivables are allocated to Level 2. The valuation technique is the same as the one described in the section on fixed-income securities allocated to the available-for-sale category.

- 7) To determine the fair values of retail and corporate loans, the expected cash flows are discounted using product or customer-specific spreads. The underlying parameter is the six-month euro swap curve. In addition, Company-internal estimates relating to risks and administrative expenses are also incorporated into the measurement systems (Level 3). The fair values of receivables from pass-through development loans are allocated to Level 3 because significant non-observable inputs are used in the measurement.
- 8) The fair value of loans and advances to banks is determined by applying a discounted cash flow method, taking into consideration the issuer-specific sector curves. If the sector curve spread is not suitable, a spread is derived from observable market inputs (Level 2).
- 9) The carrying amount of current financial instruments represents an appropriate estimate of fair value. If prices for identical assets or liabilities are quoted on active markets, these are used for valuation purposes (Level 1). Otherwise, the instruments are usually transferred at their repayment amounts if the prices for identical or similar assets and liabilities are quoted on inactive markets; these are therefore classified under Level 2.
- 10) For financial instruments listed on active markets, the fair values for HtM financial investments were used directly as the unadjusted price at the defined principal market or the most advantageous market (Level 1).
- 11) Listed securitized liabilities with sufficient market liquidity are measured at fair value on the basis of the observed price (Level 1). For securitized liabilities that do not meet these requirements, measurement models are used whose observable inputs are derived from the market (Level 2).
- 12) Non-current amounts due to customers are measured at fair value by discounting the expected cash flows in accordance with the respective maturity profile and adjusting them by a product-specific spread (Level 3).
- 13) The fair value of non-current deposits from banks is determined by discounting expected cash flows in accordance with their respective maturity profile. The model parameters used in doing so are usually observable on the market (Level 2). The fair values of liabilities from pass-through development loans are allocated to Level 3 because significant non-observable inputs are used in the measurement.
- 14) The carrying amount of the subordinated liabilities represents an appropriate estimate of fair value.

The total interest income in respect of financial assets which are subsequently measured at amortized cost or at fair value through other comprehensive income amounted to EUR 3,507 million (2016: EUR 3,604 million). To the extent total interest expenses related to financial liabilities subsequently measured at amortized cost, this amounted to EUR 800 million (2016: EUR 879 million).

In fiscal year 2017, interest income from loans on which allowances have been recognized amounted to EUR 1 million (2016: below half a million euros).

"Other interest income" includes net interest income from derivatives used in effective hedges. Since the hedging derivatives serve to hedge against interest risks, the interest expense on the hedging derivatives is reported together with interest income on the hedged item within the "interest income" item.

Net interest income also includes amortization of the fair value adjustments related to the hedged risk, which are included in the carrying amount of the hedged items, over the remaining term of the hedged items in fair value hedge relationships. The fair value change arising from the pull-to-par effect of derivatives in effective fair value hedges is also recognized under this item.

Interest income and expense for derivatives which are not designated as fair value hedges or which are ineffective fair value hedges are presented together with the fair value changes under net gains/losses on measurement of derivatives and hedged items.

The changes in fair value of derivatives and hedged items in hedging relationships were attributable in particular to an increase in the yield curve during the measurement period following historically low interest rates.

Other derivatives that do not qualify for hedge accounting under IFRSs reduced earnings by EUR 27 million in 2017 (2016: contribution to earnings of EUR 4 million), including EUR 0 million from foreign currency derivatives (2016: EUR 9 million).

Share-based payments

The programs from the perspective of the Group as a whole

ING Groep N.V. grants senior employees share-based compensation to reward their contribution to increasing shareholder value and to promote long-term corporate success. Among other things, their exercise is linked to continued employment in the Company.

The share-based payments are issued in the form of stock options and free shares. The option programs are primarily designed such that they are settled by granting shares (equity-settled share-based payments); to a lesser extent, they are settled in cash (cash-settled share-based payments).

Since this concerns a direct commitment of ING Groep N.V. to executives of the Group as a whole, all components are posted against equity (equity-settled) in accordance with IFRS 2 at the ING-DiBa Group level.

In the 2017 fiscal year, share-based payments totaled EUR 4 million (2016: EUR 5 million), which is included in the "personnel expenses" account.

ING Groep N.V. decides annually whether and in what form share-based payments will be granted. The stock option programs were discontinued in fiscal year 2011. The previous forms of compensation will gradually expire on schedule. The share-based payments programs were unchanged between 2016 and 2017.

Stock option programs

Under the expiring stock option programs, the beneficiaries receive the option to acquire shares of the ING Groep N.V. within stipulated periods at one price (strike price) and to transfer them to their personal securities account. The strike price is set when the options are granted and corresponds to the official listing price at that time. There is no provision for an exchange of options (reload function).

There is a uniform three-year holding period. After expiration of the holding period, the options may be exercised within the following seven years, either completely or in tranches.

The fair value of the stock options is determined uniformly throughout the entire ING Group using the European Black Scholes method. In the 2017 fiscal year, the following parameters were included: risk-free interest rate in a range of 2.02 to 4.62 percent (2016: from 2.02 to 4.62 percent), expected holding period of the options of 5 to 9 years (2016: from 5 to 9 years), the strike prices, the current market price of the share between EUR 2.90 and EUR 25.42 (2016: between EUR 2.90 and EUR 25.42), the expected volatility of the shares of ING Groep N.V. of between 25 and 84 percent (2016: between 25 and 84 percent), and the expected dividends at 0.94 to 8.99 percent (2016: 0.94 to 8.99 percent) of the quoted share price. The assumptions regarding volatility came from the ING trading systems and are therefore not based on historical, but rather current market data.

Earnings and performance-based (free) shares

The plan for compensation in shares of ING Groep N.V. in place since 2011 consists of two components: In the first component, a contingent right to the allocation of a number of free shares is granted, which is linked to the employee's continued affiliation with the Company (holding period). One third of the shares are allocated on a specified calendar day in each of the next three years. The number of allocated shares as of the relevant expiry date is based on the degree to which predefined corporate targets have been achieved. The value of the shares on the actual strike date is determined in accordance with the opening share price on NYSE Euronext. The second component is granted in the form a deferred share model. Bonus claims in excess of a stipulated base amount are not paid out fully in cash, but instead a tiered percentage is paid in the form of shares to the extent the holding period has been satisfied. The bonus amount provided for share compensation on this basis is divided by an average price of the BDR (Bearer Depository Re-

ceipts) on NYSE Euronext on the day ING Groep N.V. publishes the results for the fourth quarter of the fiscal year and rounded up if necessary. Analogously to the first component, one third of the resulting number of shares is allocated in the three subsequent years after expiry of each holding period. The shares are issued at the current opening share price on NYSE Euronext.

Up to the actual allocation, the expense is recorded by distributing an extrapolated fair value over the holding period. Since 2015 ING Groep N.V.'s stock option program has no longer stipulated any capital market-related performance conditions. To calculate the extrapolated fair value of stock grants until fiscal year 2014 on the basis of capital market-related performance conditions, ING Groep N.V. uses a Monte Carlo simulation, which includes the risk-free base interest rate, current stock market prices, expected volatilities, and current dividends of peer companies.

In relation to the group of ING Groep N.V. as a whole, the previously unallocated expenses from free shares were EUR 37 million as of December 31, 2017 (December 31, 2016: EUR 41 million). An allocation period of 1.4 years is forecast for fiscal year 2017 (2016: 1.4 years).

Group-wide (ING Groep N.V.), the volume of free shares as of December 31, 2017, was 7,222,279 shares (December 31, 2016: 8,382,963 shares). The weighted average fair value was EUR 11.46 (2016: EUR 10.44).

The ING-DiBa Group held out a prospective total of 297,419 free shares to its executives during fiscal year 2017 (2016: 466,731).

Please see note 32 regarding the share-based payments obtained by the Management Board.

A profit and loss transfer agreement in accordance with section 291 (1) of the German Stock Corporation Act (*Aktiengesetz*, "AktG") is in place between ING-DiBa and ING Deutschland GmbH. This agreement forms the basis for a tax group for corporate income tax and trade tax. An allocation agreement has been in place for this tax group since 2017.

In addition, there is a tax group for corporate income tax, trade tax, and VAT purposes with ING-DiBa as the tax group parent and GGV Gesellschaft für Grundstücks- und Vermögensverwaltung mbH, Frankfurt am Main, as the tax group subsidiary.

In accordance with the principle of substance over form, both the current and deferred income taxes are disclosed in the IFRS consolidated financial statements by the entity responsible, ING-DiBa. In this area, for which IFRSs do not provide any guidance, ING-DiBa thus follows the interpretation of ASC 740 (US GAAP).

Under the push-down method, corresponding tax assets and liabilities are presented for deferred income taxes.

The current income taxes not covered by the allocation agreement, which are paid by the tax group parent, are presented in the consolidated statement of changes in equity as a capital contribution by the tax group parent under other reserves.

The income tax amounts resulting from the components of other comprehensive income are presented in the consolidated statement of comprehensive income.

Segment report

(43) Segment report

The following segment information is based on the "management approach," the presentation of segment information based on internal reporting. The Chief Operating Decision Maker (CODM), here, the full Management Board of ING-DiBa, regularly decides on the allocation of resources to segments and the assessment of the segments' financial performance based on the segment information. The CODM sets performance goals and approves and monitors the issued budgets.

Segments

Segment reporting follows the Group's organizational structure underlying the internal management information systems. The Bank's management information system differentiates between the segments "Retail Customer Loans," "Retail Customer Assets," and

"Wholesale Banking." The Retail Customer Loans segment includes both long-term mortgage loans and medium-term consumer loans. The Retail Customer Assets segment comprises deposits payable on demand in the "Extra-Konto" account as well as mid-term deposits in fixed term deposit accounts, deposits in current accounts, and share assets in securities accounts. The "Wholesale Banking" segment comprises the financing of corporate customers.

The interest income realized and interest expense incurred by the segments are reported as net interest income in the disclosures on the business segments because the segments are managed primarily on the basis of net interest income. Further key performance indicators include the pre-tax management-accounting (MA) result and the business volume of the individual segments. Income and expenses are not offset between the individual segments as the effort involved would be disproportionately high.

Measurement of segment profit or loss

The information as presented in this note corresponds to the segment information as provided to the full Management Board in the internal management information system.

The reconciliation of the profits or losses as per management reporting to the consolidated earnings in accordance with IFRSs relates to the following aspects in particular:

Management reporting follows the method used by ING Groep N.V. In order to render the business units mutually comparable, adjustments are made to capital charges. Net interest income as calculated under IFRSs is reduced by the interbank interest rate in reference to shareholders' equity. This is offset by a credit based on the risk-weighted assets.

"Other income" comprises the following line items from the income statement: "net gains/losses on measurement of derivatives and hedged items", "other net gains/losses on financial investments and investment property", and "other income and expenses". This presentation mirrors that at ING Groep N.V.

The "administrative expenses" presented in the management reporting include general administrative expenses, personnel expenses, and amortization, depreciation and write-downs.

The income tax reported in accordance with the push-down method (see note 42) is not allocated to individual segments.

Business volume is a key performance indicator used by the Bank. It serves as an alternative benchmark for measuring all assets and liabilities (segment assets within the meaning of IFRS 8.28 in conjunction with IFRS 8.23) for each reportable segment. Reports on this performance indicator are included in the regular internal management reporting.

The Bank computes the business volume of the Retail Customer Loans segment as the reported volume of mortgage loans and consumer loans; business volume for the Retail Customer Assets segment comprises the reported volume of savings, current and securities

accounts held by customers. In the "Wholesale Banking" segment, business volume includes the reported volume of loans and deposits as well as contingent liabilities and open commitments. When reconciling the Wholesale Banking business volume to the figures reported under IFRS, the value of customer securities accounts and contingent liabilities and open commitments is eliminated.

Notes to the consolidated cash flow statement

(44) Notes to the consolidated cash flow statement

Significant principles of the cash flow statement

The cash flow statement shows the change in the balances of cash and cash equivalents of the ING-DiBa Group using the indirect method for cash flows from operating activities; the other cash flows are determined directly. The changes in the balances are allocated based on their economic cause to cash flows from operating, investing, and financing activities.

The cash flows from operating activities arise from the normal banking business. The earnings before taxes here are thus adjusted for non-cash changes in the balance. Inflows and outflows in relation to changes in the balances of "financial investments," "property and equipment," and "intangible assets" are reported as net cash flows from investing activities. Net cash flows from financing activities represent ING-DiBa's external financing. They consist primarily of profit transfers as well as cash inflows and outflows in relation to securitized and subordinated liabilities.

A profit and loss transfer agreement in accordance with section 291 (1) of the German Stock Corporation Act (*Aktiengesetz*, "AktG") is in place between ING-DiBa and ING Deutschland GmbH. This agreement forms the basis for a tax group for corporate income tax and trade tax. An allocation agreement has been in place for this tax group since 2017. The current income taxes paid on the basis of the allocation agreement are reported in a separate item in the cash flow statement.

Cash and cash equivalents comprise cash and funds that can readily be converted to cash and are subject to an insignificant risk of changes in value. This includes cash balances and balances with central banks, receivables payable on demand, and deposits from banks.

Capital management

(45) Regulatory capital and risk-weighted assets

ING-DiBa's capital management serves to ensure compliance with the statutory minimum capital requirements and to hold a sufficient capital buffer to ensure the Bank's ability to act at all times.

ING-DiBa's Risk & Capital Committee (RCC) and Management Board are responsible for setting the target capital ratios and for decisions on capital management. The members of the Management Board are kept informed of the status and development of the capital base in regular RCC meetings (as well as at ad-hoc meetings if necessary). The necessary decisions and management measures are prepared by the capital working group consisting of members from various departments.

Regular monitoring of compliance with the capital requirement ensures target attainment and delivers warning signals where appropriate to initiate appropriate management measures. As in the preceding fiscal year, the statutory minimum capital requirements were satisfied at all times during the 2017 fiscal year.

ING-DiBa's return on capital pursuant to section 26a (1) KWG, calculated as the quotient of the net profit and total liabilities and equity, as per German financial reporting requirements, was 0.50 percent as of the reporting date (December 31, 2016: 0.80 percent).

The eligible capital is calculated based on the provisions of Regulation (EU) No. 575/2013 including the technical implementation and regulatory standards issued by the Commission and additional specifications as well as the supplemental requirements of the German Banking Act and the German Solvency Regulation.

The following tables show the quantitative composition of own funds for ING-DiBa as a single institution for regulatory purposes, as well as at the consolidated level for the financial holding group pursuant to section 10 KWG.

Independent Auditor's Report

To ING-DiBa AG, Frankfurt am Main

Report on the Audit of the Consolidated Financial Statements and of the Group Management Report

Opinions

We have audited the consolidated financial statements of ING-DiBa AG, Frankfurt am Main, and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2017, the consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and the consolidated statement of cash flows for the financial year from 1 January 2017 to 31 December 2017, and IFRS notes to the consolidated financial statements, including a summary of significant accounting policies. In addition, we have audited the group management report of ING-DiBa AG for the financial year from 1 January to 31 December 2017. In accordance with German legal requirements, we have not audited the content of the corporate governance statement, which is included in the "Report on economic position" section of the group management report.

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying consolidated financial statements comply, in all material respects, with the IFRSs as adopted by the EU, and the additional requirements of German commercial law pursuant to Section 315e (1) HGB [Handelsgesetzbuch: German Commercial Code] and, in compliance with these requirements, give a true and fair view of the assets, liabilities, and financial position of the Group as at 31 December 2017, and of its financial performance for the financial year from 1 January to 31 December 2017, and

- the accompanying group management report as a whole provides an appropriate view of the Group's position. In all material respects, this group management report is consistent with the consolidated financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. Our opinion on the group management report does not cover the content of the corporate governance statement mentioned above.

Pursuant to Section 322 (3) sentence 1 HGB, we declare that our audit has not led to any reservations relating to the legal compliance of the consolidated financial statements and of the group management report.

Basis for the Opinions

We conducted our audit of the consolidated financial statements and of the group management report in accordance with Section 317 HGB and the EU Audit Regulation No. 537/2014 (referred to subsequently as "EU Audit Regulation") and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements and principles are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements and of the Group Management Report" section of our auditor's report. We are independent of the group entities in accordance with the requirements of European law and German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. In addition, in accordance with Article 10 (2) point (f) of the EU Audit Regulation, we declare that we have not provided non-audit services prohibited under Article 5 (1) of the EU Audit Regulation. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinions on the consolidated financial statements and on the group management report.

Key Audit Matters in the Audit of the Consolidated Financial Statements

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements for the financial year from 1 January to 31 December 2017. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters.

■ Measurement of loan loss provisions in the lending business with retail customers

For an explanation of how the loan loss provisions for the retail lending business are measured, please refer to the section "General information" in the IFRS notes to the consolidated financial statements and the sections "Results of operations" under "2. Report on Economic Position" and "Loan Loss Provisions" and "Development of the Loan Loss Provisions under IFRS" under "3. Risk report" in the group management report.

THE FINANCIAL STATEMENT RISK

As at 31 December 2017 the Group recognised EUR 108 million of general loan loss provisions for inherent credit risks as well as EUR 273 million of portfolio-based specific loan loss provisions and EUR 36 million of specific loan loss provisions for acute credit risks.

To determine general loan loss provisions for inherent credit risks, receivables and irrevocable loan commitments in the mortgage loans and consumer loans businesses without any identifiable acute credit losses are categorised by quantitative and qualitative risk characteristics into risk classes for which average probabilities of default are calculated. In addition, loss given default is calculated based on historical experience.

To determine portfolio based specific loan loss provisions for acute credit losses in the consumer loans and mortgage loans businesses, receivables for which the debt servicing capacity can no longer be sustainably ensured are identified based on payment arrears. In addition, loss given default is calculated based on historical experience.

For terminated mortgage loans prior collateral liquidation, the Bank determines specific loan loss provisions that are calculated case-by-case based on the estimated future cash flows, taking into account expected proceeds from the sale of collateral.

The financial statement risk particularly concerns the potential absence of appropriate estimates or discretionary judgements in the determination of loan loss provisions for retail customer loans and thereby the inherent and acute credit risks not being taken into account in accordance with the IFRSs as adopted by the EU. There is significant discretionary leeway in the loan loss provisions regarding the estimates of probabilities of default and the loss given default and/or the future cash flows including proceeds from the sale of collateral.

OUR AUDIT APPROACH

Based on our risk assessment and evaluation of the risks of material misstatement, we used both control-based and substantive audit procedures for our audit opinion. We therefore performed the following audit procedures, among others:

First, we gained a thorough understanding of the performance of the loan portfolio, the associated credit risks and the internal controls with regard to identifying, controlling, monitoring and evaluating credit risks associated with retail customer lending. To assess the appropriateness of the internal control system with regard to identifying, controlling, monitoring and evaluating credit risks, we conducted inquiries and inspected the relevant documentation. In addition, we audited the implementation and the effectiveness of relevant controls, including application controls, that are intended to ensure derivation of assumptions and parameters to determine the loan loss provisions in accordance with the IFRSs as adopted by the EU. With the involvement of our IT specialists, we audited the effectiveness of the general IT controls for the relevant IT systems.

With regard to the probabilities of default incorporated into the calculation of the general loan loss provisions and the loss given default used in the determination of the portfolio based specific loan loss provisions and the general loan loss provisions, we assessed the appropriateness of the validation carried out by the Group and reviewed the implementation of the recalibrations derived from the validation. In order to express an opinion on the appropriateness of the historical database for the loan portfolio as at 31 December 2017, we assessed the analyses conducted by the Group that examine current qualitative factors and environmental effects which could lead to credit losses deviating from the historical database.

Furthermore, we conducted audit procedures in relation to the quality of the data used for determining the specific loan loss provisions and portfolio-based loan loss provisions.

In addition, we verified the mathematical accuracy of the calculation methods used for deriving parameters to determine the portfolio-based specific loan loss provisions and general loan loss provisions.

Using sample sales proceeds in the mortgage loan business, we also audited the historical database used to determine loss given default.

Regarding the specific loan loss provisions in the mortgage loans business, we used a random sample to verify that the loan loss provisions according to the IFRSs as adopted by the EU was calculated based on appropriate estimates, particularly in relation to the value of collateral. We used expert valuation opinions in this process, among other things. In this regard, we evaluated the competence, professional skills and impartiality of the experts, gained an understanding of their work and assessed its suitability as audit evidence.

OUR OBSERVATIONS

Estimates made by management that underlie the calculation of the loan loss provisions for retail customer loans have been determined properly as a whole and in accordance with the applicable accounting policies of the IFRSs as adopted by the EU. The probabilities of default and loss given default used have been properly derived from historical data.

Identity Access Management in the Financial Reporting Process

Please refer to the section "Organisation of the ICS Ac" under "5. Internal control system for consolidated financial reporting" of the group management report for further information on Identity Access Management at ING-DiBa.

THE FINANCIAL STATEMENT RISK

Due to the size and complexity of the Group, the financial reporting process is highly dependent on information technology and the completeness and accuracy of data. Inappropriate granting of access rights for IT systems therefore constitutes a risk for the accuracy of financial reporting. This applies in particular to systems in which the access rights are not granted according to the minimum principle (granting authorisation based on the requirements of the role and not granting any further authorisation) or the segregation of duties principle (e.g. between IT and the specialist department or between development and application operations).

The Group's IT infrastructure is partially outsourced to companies in the superior group of ING Groep N.V., Amsterdam, as well as to external companies.

As unauthorised system access, inappropriately extensive authorisation and insufficient separation of functions entails the risk of intentional or accidental manipulation, which could materially affect the accuracy of financial reporting, the establishing of and adherence to appropriate precautions is of particular importance for our audit.

OUR AUDIT APPROACH

We gained an understanding of the IT-related control environment of the Group and the service organisations. To this end, we performed a risk assessment and identified IT applications, databases and operating systems that were significant for our audit.

For relevant IT application controls within the financial reporting process, we identified general IT supporting controls, in particular regarding access protection, and verified their structure and functionality. Our audit procedures concerned:

- Verifying that the initial access to IT systems for joiners or movers is subject to appropriate screening and is approved by an authorised person in line with the authorization design concept.
- Verifying that employee access rights are removed within an appropriate period following change of organisational unit or departure from the company.
- Verifying that a review is performed of the appropriateness of the system access granted for personalised and non-personalised privileged access rights and if they are subject to a particularly restrictive authorisation-granting procedure that is regularly monitored.

Moreover, we conducted further audit procedures concerning password protection, additional security settings regarding changes for applications and databases, the separation of functions between specialist department and IT users and the separation of functions between employees responsible for program development and those responsible for system operations. We also checked if program developers have release rights in the change process and if they can carry out changes directly in the productive versions of applications, operating systems and databases, as these roles must be separated functionally.

Based on the results of our audit of the internal control system, we performed the following further audit procedures:

- In cases of inappropriate granting of authorisation, we familiarised ourselves with the individual authorisations granted specifically and then reviewed the usage protocol of the user concerned to check for unauthorised activities.
- Furthermore, in cases of ineffective IT controls, we identified and reviewed further controls with a compensating effect.
- We performed segregation of duties analyses on critical portfolio management systems in order to determine adherence to the functional separation between incompatible activities.

OUR OBSERVATIONS

Based on the results of the audit of significant controls and substantive audit procedures, we conclude that the Identity Access Management generally satisfies requirements for completeness and accuracy of data. Where we found deficiencies in the controls, we performed further audit procedures and in particular identified compensating controls that addressed the risk for these consolidated financial statements as at 31 December 2017.

Other Information

Management is responsible for the other information. The other information comprises:

- the corporate governance statement, and
- the remaining parts of the annual report made available to us after the date of the auditor's report, with the exception of the audited consolidated financial statements and group management report and our auditor's report.

Our opinions on the consolidated financial statements and on the group management report do not cover the other information, and consequently we do not express an opinion or any other form of assurance conclusion thereon.

In connection with our audit, our responsibility is to read the other information and, in so doing, to consider whether the other information

- is materially inconsistent with the consolidated financial statements, with the group management report or our knowledge obtained in the audit, or
- otherwise appears to be materially misstated.

Responsibilities of Management and the Supervisory Board for the Consolidated Financial Statements and the Group Management Report

Management is responsible for the preparation of the consolidated financial statements that comply, in all material respects, with IFRSs as adopted by the EU and the additional requirements of German commercial law pursuant to Section 315e (1) HGB and that the consolidated financial statements, in compliance with these requirements, give a true and fair view of the assets, liabilities, financial position, and financial performance of the Group. In addition, management is responsible for such internal control as they have determined necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting unless there is an intention to liquidate the Group or to cease operations, or there is no realistic alternative but to do so.

Furthermore, management is responsible for the preparation of the group management report that, as a whole, provides an appropriate view of the Group's position and is, in all material respects, consistent with the consolidated financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, management is responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a group management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the group management report.

The supervisory board is responsible for overseeing the Group's financial reporting process for the preparation of the consolidated financial statements and of the group management report.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements and of the Group Management Report

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the group management report as a whole provides an appropriate view of the Group's position and, in all material respects, is consistent with the consolidated financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future devel-

opment, as well as to issue an auditor's report that includes our opinions on the consolidated financial statements and on the group management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Section 317 HGB and the EU Audit Regulation and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and this group management report.

We exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and of the group management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit of the consolidated financial statements and of arrangements and measures (systems) relevant to the audit of the group management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of these systems.
- Evaluate the appropriateness of accounting policies used by management and the reasonableness of estimates made by management and related disclosures.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the consolidated financial statements and in the group management report or, if such disclosures are inadequate, to modify our respective opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements present the underlying transactions and events in a manner that the consolidated financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Group in compliance with IFRSs as adopted by the EU and the additional requirements of German commercial law pursuant to Section 315e (1) HGB.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express opinions on the consolidated financial statements and on the group management report. We are responsible for the

direction, supervision and performance of the group audit. We remain solely responsible for our opinions.

- Evaluate the consistency of the group management report with the consolidated financial statements, its conformity with [German] law, and the view of the Group's position it provides.
- Perform audit procedures on the prospective information presented by management in the group management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by management as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the relevant independence requirements, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, the related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter.

Other Legal and Regulatory Requirements

We were engaged by the chairperson of the supervisory board of ING-DiBa AG on 14 July 2017. We have been the group auditor of ING-DiBa AG without interruption since the financial year 2016.

2017 Fiscal Year

1. General Disclosures Regarding the Annual Financial Statements

The annual financial statements of ING-DiBa AG, domiciled in Frankfurt am Main and registered under HRB 7727 in the commercial register at the Local Court (*Amtsgericht*) of Frankfurt have been prepared pursuant to the provisions of the German Commercial Code (*Handelsgesetzbuch*, "HGB"), the Regulation on the Accounting of Banks and Financial Services Institutions (*Verordnung über die Rechnungslegung der Kreditinstitute und Finanzdienstleistungsinstitute*, "RechKredV"), the German Mortgage Bond Act (*Pfandbriefgesetz*, "PfandBG"), and the German Stock Corporation Act (*Aktiengesetz*, "AktG").

The balance sheet and income statement are classified pursuant to the RechKredV forms.

2. Accounting Policies

2.1. General

Assets and liabilities are recognized and measured pursuant to sections 252 et seq. in conjunction with sections 340 et seq. HGB.

Loans and advances are measured pursuant to section 253 (1) sentence 1 HGB in conjunction with section 340e (2) HGB. Any difference between the principal amount and the amount paid out is recognized as a deferred item and reversed as scheduled.

The risk provisions in the lending business comprise impairment allowances and provisions for acute and inherent credit risk. In addition, there are provisions for general banking risks pursuant to section 340f HGB.

All acute individual risks in the lending business are taken into account by recognizing specific impairment allowances and provisions. Specific impairment allowances calculated on a portfolio basis are recognized for direct credit risks on the basis of the credit risk models used by the Bank. General impairment allowances are recognized for inherent credit risks; these are also determined on the basis of the Bank's credit risk models. Provisions are recognized for inherent credit risks from off-balance sheet obligations.

The Bank securitized receivables in connection with an RMBS transaction in 2008. The mortgage loan receivables remain on ING-DiBa's balance sheet due to beneficial ownership not being transferred. The Bank has recognized an "other liability", which is treated as a secured liability, in the amount of the transferred mortgage loans.

In accordance with section 253 (1) sentence 2 HGB, liabilities are recognized at their settlement amount. Any difference between the nominal amount of liabilities and the amount paid out is recognized as a deferred item and reversed as scheduled.

2.1.1. Derivative financial instruments

Currency forwards, interest rate swaps, and cross-currency swaps are measured at the level of individual transactions. The rate for currency forwards comprises the spot exchange rate and the calculated swap rate. The swap rate is calculated as the difference between the spot exchange rate and the forward rate on the reporting date. It is unwound on a straight-line basis as an adjustment to net interest income over the remaining term of the currency forward. Provisions for expected losses are recognized for currency forwards if the current fair value is lower than the carrying amount.

The derivative financial instruments in the banking book used for hedging the general interest rate risk were not measured separately because they are included in the measurement of the banking book at net realizable value. By contrast, exchange differences from interest rate swaps in foreign currency are recognized.

Please see section 7.4.2 for a presentation of the hedges.

2.1.2. Measurement at net realizable value

Interest-bearing loans and advances, securities, and derivatives in the banking book are not usually remeasured due to changes in interest rates. Only securities assigned to the liquidity reserve and available-for-sale loans and advances are recognized at the strict lower of cost or market principle under the impairment principle. Nonetheless, for the purposes of accounting for the general interest rate risk management in the banking book, all receivables and refinancing funds in the banking book are measured in their entirety, taking into account changes in interest rates. The banking book has to be measured at net realizable value. A provision for expected losses is recognized if a loss is expected from the banking book due to a negative overall present value.

The Bank uses the net present value method to determine any future excess obligation. The calculation as of December 31, 2017 revealed that the net present value of the banking book exceeds the carrying amount significantly. Therefore, as of December 31, 2017, there is no need to recognize a provision for expected losses from banking book transactions.

2.1.3. Deferred taxes

If there are differences between the carrying amounts of assets, liabilities, deferred income, and prepaid expenses recognized in the financial statements and their tax bases, and these differences are expected to reverse in subsequent fiscal years, any resulting net tax burden is recognized as a deferred tax liability in the balance sheet pursuant to section 274 (1) HGB. Any resulting net tax credit may be recognized as a deferred tax asset in the balance sheet.

ING-DiBa did not recognize any deferred taxes in the fiscal year under review.

2.1.4. Tax allocation

Since 2017, there has been an income tax allocation agreement for the tax group with ING Holding Deutschland GmbH, Frankfurt am Main, which is the tax group parent. The tax allocations payable to the tax group parent are used to cover the liquidity required to make various tax payments. The tax allocations are determined in a way that ensures that the tax burden is allocated fairly within the income tax group to those responsible for the tax and in a way that makes business sense.

2.1.5. Restrictions on distributions and transfers

In order to protect creditors, restrictions on distribution and transfer must be observed pursuant to section 268 (8) HGB and section 301 AktG. Section 253 (6) HGB includes a restriction on distribution, which pursuant to section 301 AktG does not lead to a restriction on transfer.

Pursuant to section 268 (8) HGB in conjunction with section 301 AktG, EUR 28.3 million (PY: EUR 17.5 million) was subject to restrictions on distribution and transfer as of the balance sheet date. Of this amount, EUR 19.8 million related to internally generated intangible fixed assets recognized pursuant to section 248 (2) HGB and EUR 8.5 million to the fair values of plan assets in excess of historical cost pursuant to section 246 (2) HGB.

Pursuant to section 253 (2) HGB, provisions for pension benefit obligations have been recognized based on the average market interest rate for the past ten fiscal years since the December 31, 2016 reporting date. Pursuant to section 253 (6) HGB, the difference must be calculated between this approach and the previous approach, which was based on the average market interest rate for the past seven fiscal years. The resulting positive difference is restricted from distribution. This led to an amount restricted from distribution of EUR 19.1 million as of December 31, 2017 (PY: EUR 15.9 million).

The restricted amount reduces the maximum distributable or transferable amount. The distributable capital reserves pursuant to section 272 (2) no. 4 HGB and the retained earnings amounted to EUR 4,170 million (PY: EUR 4,553 million). Consequently, a maximum of EUR 4,123 million (PY: EUR 4,520 million) was distributable and a maximum of EUR 4,142 million (PY: EUR 4,536 million) was transferable under commercial law as of December 31, 2017.

This means that the restrictions on distribution or transfer described above do not have any effect on the profit after tax allocation (EUR 356.6 million; PY: EUR 740.5 million) to be transferred.

	12/31/2017 € m	12/31/2016 € m
Restriction on distribution or transfer pursuant to section 268 (8) HGB in conjunction with section 301 AktG	28.3	17.5
Internally generated intangible assets	19.8	8.8
Fair values of plan assets in excess of historical cost pursuant to section 246 (2) HGB	8.5	8.7
Restriction on distribution pursuant to section 253 (6) HGB	19.1	15.9
Difference (gain) on changes in market interest rates	19.1	15.9
Total restrictions on distribution pursuant to the HGB	47.4	33.4

2.1.6. Currency translation

Currency translation for assets, liabilities, and off-balance sheet transactions is performed in accordance with section 340h HGB in conjunction with section 256a HGB. Accounts receivable and liabilities denominated in foreign currency, as well as spot dealings not yet settled are translated at the mean spot rate on the balance sheet date.

The rate for currency forwards comprises the spot exchange rate and the calculated swap rate. Changes in the spot exchange rate between the transaction date and the next balance sheet date are reported in other operating expenses or other operating income in the same way as exchange differences from spot dealings. The swap rate included in this amount is presented separately. This is unwound on a straight-line basis as an adjustment to interest cost over the remaining term of the currency forward.

The Bank manages currency risk as part of the special cover for the overall exposure per currency, which includes all on- and off-balance sheet foreign currency transactions.

2.2. Bonds and other fixed-income securities

The securities portfolio is recognized at cost plus accrued interest using the weighted average cost method. To the extent securities are allocated to the liquidity reserve and the securities are not hedged, they are recognized pursuant to the strict lower of cost or market principle (section 253 (4) HGB).

In addition, interest rate swaps (asset swaps) were concluded to hedge securities in the liquidity reserve. Within individual hedges, remeasurement gains and losses on the hedged item and the hedging instrument are offset based on the hedged risk. Any net loss on such remeasurements results in recognition of a provision for expected losses from executory contracts. Any net remeasurement gain is not recognized in profit or loss. The remeasurement gains/losses that arise based on the unhedged risks are recognized for the hedged item and for the hedging instrument in compliance with itemized measurement under the impairment principle pursuant to general accounting standards. Differences between nominal amount and cost upon designation and which are not part of the hedged interest rate risk are written down on a straight-line basis over the remaining terms.

Long-term securities are measured at amortized cost and held with a long-term investment intent (section 253 (3) HGB). To the extent of being interest-related, the difference between cost and repayment amount is allocated proportionally over the residual maturity and presented as interest income from fixed-income securities and debt register claims.

Impairment losses are reversed on long-term securities that have previously been reclassified from the liquidity reserve into the investment portfolio if the original reason for the impairment no longer exists and the quoted or market price as of the balance sheet date has increased again compared to the carrying amount. The original cost is the upper limit for such reversals.

2.3. Equity investments and investments in affiliated companies

These items are measured at cost or lower net realizable value if impairment is expected to be permanent.

2.4. Intangible fixed assets

Intangible fixed assets are recognized at cost less amortization. No write-downs were necessary in the fiscal year.

2.4.1. Internally generated intangible fixed assets

Expenses incurred when developing internally generated software are capitalized provided that these expenses result in an asset being recognized. There are no borrowing costs incurred on these expenses.

2.4.2. Acquired goodwill

The goodwill acquired through the acquisition of Entrium Direct Bankers AG, Nuremberg, in 2003 is being amortized over 15 years. The Bank decided on this procedure because it assumes that the goodwill will be available to the company as a long-term asset.

2.5. Tangible fixed assets

Tangible fixed assets are recognized at cost less depreciation based on the useful life. Low-value assets purchased during the fiscal year, the costs of which are between EUR 150 and EUR 1,000 (net), are allocated to a pooled item and depreciated over five years.

2.6. Prepaid expenses

Expenditure prior to the balance sheet date is reported as a prepaid expense, provided this represents an expense for a specific period after that date. Prepaid expense items are recognized for premiums and discounts from bearer Pfandbriefe issued by ING-DiBa. These are reversed as scheduled in accordance with the utilization of capital.

In addition, brokerage commissions for mortgage loans are recognized as prepaid expenses and amortized over the respective interest rate period of the individual mortgage loans, however not more than ten years. Prepaid expenses are recognized for fair value settlement in Wholesale Banking (difference between nominal amount and cost due to changes in interest rates). This is amortized over the respective term of the loan agreements.

2.7. Deferred income

Receipts prior to the balance sheet date that represent income for a specific period after that date are reported as deferred income. Deferred income items are recognized for discounts that will be reversed as scheduled in accordance with the utilization of capital.

Deferred income items are recognized for upfront payments from concluded hedging transactions. These are reversed ratably over the term of the hedging transaction.

Deferred income is also recognized for interest-induced loan processing fees and fair value settlement in Wholesale Banking (difference between nominal amount and cost due to changes in interest rates). This is amortized over the respective term of the loan agreements.

2.8. Provisions

2.8.1. Tax and other provisions

Pursuant to section 253 (1) HGB, tax and other provisions must be measured such that they take into account all discernible risks and obligations based on sound business judgment considering future cost and price increases (settlement amount).

Provisions with a term of more than one year are discounted pursuant to section 253 (2) HGB over their residual term using the average market interest rate for the past seven fiscal years calculated by Deutsche Bundesbank.

2.8.2. Provisions for pensions and similar obligations

Provisions for pensions and similar obligations are calculated pursuant to recognized actuarial principles using the projected unit credit method. The Klaus Heubeck 2005 G mortality tables were used as biometric actuarial bases. The provisions are collectively discounted pursuant to section 253 (2) HGB using the average rate of interest of the past ten years (3.68 percent; PY: 4.01 percent) applicable to an assumed remaining term of 15 years. This discount rate is calculated and published each month by the Deutsche Bundesbank pursuant to the Regulation on the Discounting of Provisions (*Rückstellungsabzinsungsverordnung*, "RückAbzinsV"). Salary and pension adjustments of 2.75 percent and 1.75 percent, respectively, are included (PY: 2.75 percent and 1.75 percent, respectively). In addition to the obligations from current pensions and the prospective entitlements existing at the balance sheet date, obligations for transitional benefits for early retirement (*Altersübergangsgeld*) are also recognized.

The difference to the amount calculated under the previous rule for pension provisions (seven years) is EUR 19.1 million (PY: EUR 15.9 million). A distribution restriction applies to this amount if it does not at least match the distributable reserves plus retained profits brought forward less any accumulated losses brought forward.

Pursuant to section 246 (2) HGB, assets that are exempt from attachment by all other creditors and that serve exclusively to settle liabilities from pension benefit obligations have to be offset against such liabilities. If the fair value of the assets exceeds the amount of liabilities, the excess amount must be recognized under a separate asset item.

Wholesale Banking's pension schemes consist of a contractual trust arrangement (CTA) and pension fund commitments.

These pension fund commitments are indirect pension obligations within the meaning of article 28 of the Introductory Act to the German Commercial Code (*Einführungsgesetz zum Handelsgesetzbuch*, "EGHGB"), for which there is basically a recognition option. ING-DiBa has decided to use the existing carrying amounts.

Any excess of pension obligations over the related plan assets is presented in the pension provisions. Any surplus of the plan assets over pension obligations are included in the asset item "Excess of plan assets over pension benefit liability."

This results in a pension obligation totaling EUR 110.4 million as of the balance sheet date (PY: EUR 109.3 million). This obligation is covered by plan assets with a fair value of EUR 83.1 million (PY: EUR 89.4 million). The fair value is determined on the basis of market prices for fund units. The cost of the plan assets is EUR 74.5 million (PY: EUR 80.7 million).

Pursuant to section 246 (2) HGB, interest expenses from compounding and interest income from discounting pension obligations, as well as income and expenses from offsetting plan assets must be netted. In the year under review, the discounting of pension obligations resulted in expenses of EUR 4.2 million (PY: EUR 4.5 million), while expenses from offsetting plan assets amounted to EUR 0.7 million (PY: EUR 16.9 thousand). Overall, this resulted in an expense of EUR 4.9 million for the fiscal year (PY: EUR 4.4 million). There were no other effects from netting in the year under review.

3. Balance Sheet Disclosures

3.1. General

3.1.1. Maturity structure

Loans and advances, bonds, and liabilities are classified by maturity based on the residual terms. Pro-rata interest and similar amounts for the fiscal year are not included in the classification by residual terms.

The total amount of assets and liabilities denominated in foreign currencies as of December 31, 2017 was EUR 14.1 billion (PY: EUR 12.6 billion) and EUR 8.7 billion (PY: EUR 8.2 billion), respectively. There were also derivative financial instruments in foreign currencies, which are presented in section 7.4.

The provisions also include the mandatory contribution to the Compensation Scheme of German Banks (Entschädigungseinrichtung deutscher Banken, "EdB") until December 31, 2017 for the contribution year October 1, 2017 to September 30, 2018. The provision is calculated on the basis of the parameters provided by the EdB. Since the contribution is calculated based on the metrics of all of banks with an obligation to make contributions, the Bank has made institution-specific assumptions with respect to the risk parameters and the amount of covered deposits.

3.3.8. Subordinated liabilities

The total amount of subordinated liabilities as of December 31, 2017 was EUR 1.4 billion (PY: EUR 0).

There are no subordinated liabilities in foreign currency.

Interest expenses of EUR 538 thousand (PY: EUR 0) were incurred on these liabilities. The lender that issued the subordinated loan, which is divided into three tranches, is ING Deutschland GmbH, Frankfurt am Main.

The subordinated liabilities exceeding 10% of the total reported are as follows:

	notional value € m	interest rate	maturity

In the case of insolvency proceedings or liquidation of the Bank, the liabilities will only have to be repaid once all non-subordinated creditors have been satisfied.

Conversion to equity or another form of debt has not been agreed. A premature repayment obligation has been excluded.

ING-DiBa AG has the right to call each tranche 5 years before maturity.

The contingent liabilities reported resulted primarily from the Wholesale Banking business of the ING Bank branch in Frankfurt am Main and the ING-DiBa Austria branch in Vienna, Austria.

The Bank assumes currently that overall there will be no claims related to contingent liabilities. This assumption is based on the credit risk management parameters implemented in accordance

with the Solvency Regulation (*Solvabilitätsverordnung*, "SolvV"). In three cases, however, credit risk monitoring showed sufficient findings for an expected claim so that provisions for this were established. In addition, provisions were also recognized for contingent credit risks from contingent liabilities.

3.4.2. Other commitments

Other obligations consist almost exclusively of irrevocable loan commitments of EUR 15.2 billion (PY: EUR 14.8¹ billion), which the Bank expects to be utilized over the course of the fiscal year, at least in the retail business. In addition, inherent credit risks were also accounted for in the form of provisions.

Collateral payments of EUR 4.1 million (PY: EUR 115.3 million) have been transferred for deposits from banks under a repurchase agreement.

Collateral transferred for contingent liabilities consists exclusively of securities that were transferred to Eurex Clearing AG, Frankfurt am Main.

¹ The previous year's figure of irrevocable loan commitments has been revised upwards by around € 96 million from € 14.7 billion to € 14.8 billion.

The accrued interest resulting from these transactions as of December 31, 2017 was allocated to the corresponding underlying transactions in the balance sheet item pursuant to section 11 (1) RechKredV. Accrued interest on derivative financial instruments is reported under loans and advances to banks and deposits from banks.

As of February 1, 2018, Katharina Herrmann, member of the Management Board of ING-DiBa AG (until January 31, 2018), assumes the position of Head of Platforms and Beyond Banking at ING Group N.V. in Amsterdam.

ING Deutschland GmbH, the parent company of ING-DiBa AG, intends to acquire ECommerce Holding II S.à.r.l. and the companies belonging to it, such as Lendico Deutschland GmbH. The German Federal Cartel Office (*Bundeskartellamt*) has already been notified of the purchase intention to allow for a review of the proposal, but this had not been done at the time of preparing the annual financial statements for fiscal year 2017.

7. Other Disclosures

7.1. Other financial commitments and off-balance sheet transactions

7.1.1. From an obligation to make additional payments

ING-DiBa has accepted a release from liability vis-à-vis VISA Inc. for a credit card processing company as its vicarious agent in connection with compliance with the obligations from the "VISA International operating regulations" ("interchange").

The Bank has an obligation to make additional payments to the pension fund in the event the plan assets of the respective post-employment benefits scheme do not sufficiently cover the pension obligations.

There is a further obligation to make additional contributions to the clearing fund of Eurex Clearing AG, Frankfurt am Main. To the extent that this fund does not sufficiently cover obligations subsequent to the realization of the collateral provided by another clearing member for the event of default, the non-affected members may face claims not to exceed double the contribution requirement. As of December 31, 2017, the liability cap is EUR 32.1 million (PY: EUR 49.8 million). The Bank does not assume any utilization of the fund at present.

7.1.2. From outsourcing obligations

ING-DiBa has outsourced some IT tasks. For 2018 this will result in a projected expense of EUR 43.9 million. This relates to expenses from contracts that are adjusted every year. An annual expense of up to EUR 49.5 million is currently projected for the following years.

7.1.3. From secondary liability

As part of the spin-off in 2011 of the former Frankfurt branch of ING Bank N.V. from ING Bank N.V., Amsterdam, to Conifer B.V. and the subsequent merger with ING-DiBa, ING-DiBa assumed Conifer B.V.'s secondary liability obligations existing by operation of the law for the protection of ING Bank N.V.'s creditors. This secondary liability obligation is anchored in article 2:334t of the Dutch Civil Code and applies to certain obligations on the part of ING Bank N.V. existing as of the effective date of the spin-off (August 31, 2011).

With regard to the scope of liability, a distinction has to be drawn between joint and several obligations. Joint obligations of ING Bank N.V. are subject to the joint liability of ING-DiBa and ING Bank N.V. The secondary liability in respect of the several obligations is limited to the value of the net assets of the Frankfurt branch of ING Bank N.V. as of the date of the spin-off to Conifer B.V.

The term of this liability is unlimited and expires only upon the extinguishment of the relevant obligation. The Bank does not currently anticipate any claims under this liability.

In 2016, "ING Bank N.V. Vienna Branch" was contributed to ING-DiBa Austria. As a result, ING-DiBa Austria assumed the economic risk for obligations arising from the documentary business, which remains with ING Bank N.V., Amsterdam, Netherlands.

7.1.4. Contributions to deposit and bank protection schemes

	12/31/2017 € m	12/31/2016 € m
Contributions to deposit protection schemes	102.4	79.6
Additional agreement on contractual payment obligations	49.1	22.8
Contributions to the bank levy	13.3	13.5
Additional agreement on irrevocable payment obligations	4.7	2.4

As a member of the Compensation Scheme of German Banks (Entschädigungseinrichtung deutscher Banken GmbH, "EdB"), ING-DiBa is obliged to pay annual contributions. The EdB's calculation model is based, among other things, on the covered deposits and the risk parameters of all of the banks affiliated with the EdB. ING-DiBa does not have any information about the metrics of other banks or the estimated risk parameters that the EdB uses for ING-DiBa. The provisions recognized as of December 31, 2017 are therefore subject to estimation uncertainty.

ING-DiBa exercised the option to provide part of both the annual contribution to the EdB and the European bank levy as a contractual and/or irrevocable payment obligation.

The contributions to bank protection include an amount of EUR 12.9 million for the European bank levy and of EUR 0.4 million for the stability levy imposed nationally pursuant to the Austrian Stability Levy Act (*Stabilitätsabgabegesetz*, "StabAbgG").

Securities in the amount of 30 percent of the contribution were lodged for the contributions to the EdB. Irrevocable payment obligations in the form of a cash contribution were agreed for 15 percent of the contribution to the bank levy. Neither led to an expense in the fiscal year.

Further payment obligations are expected to accumulate every year until 2024 and, together with any obligation to make additional contributions, will impact the Bank's financial position within the meaning of section 285 no. 3 HGB if they are utilized.

7.2. Shareholdings

paydirekt Beteiligungsgesellschaft privater Banken mbH, Berlin	20	6,112	3

Under the existing control and profit and loss transfer agreement, GGV's profit for the 2017 fiscal year will be transferred to ING-DiBa.

7.3. Auditors' fees

The auditors' fees charged for the fiscal year are not disclosed in ING-DiBa's annual financial statements because they are included in the consolidated subgroup financial statements. The consolidated subgroup financial statements are published online at www.ing-diba.de.

In the breakdown of the auditors' fees in the consolidated financial statements, the "other assurance services" item is used to report fees for:

- › Auditing the securities services business in accordance with section 36 of the German Securities Trading Act (*Wertpapierhandelsgesetz*, "WpHG"),
- › Issuing a comfort letter,
- › Performing a review in accordance with International Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" (ISRE 2410) of the IFRS data included in regulatory reporting made by ING-DiBa on the basis of the consolidated situation of the financial holding group of ING Holding Deutschland GmbH in accordance with Article 24 (2) CRR,
- › Conducting an audit in accordance with section V no. 11 (1) of the General Terms and Conditions of the Deutsche Bundesbank (*Allgemeine Geschäftsbedingungen der Deutschen Bundesbank*) on the use of loan receivables as collateral for central bank loans,
- › Conducting the agreed-upon procedures in connection with the levy imposed by the deposit protection fund of the Bundesverband deutscher Banken e.V. (Association of German Banks).

Currency forwards serve to hedge exchange rate fluctuations. These transactions are not part of hedges and are allocated in full to the special cover. The Bank concludes foreign currency forwards and swaps for this purpose.

Interest rate swaps and cross-currency swaps are concluded to cover fluctuations in interest and exchange rates and are not part of a hedge. Interest rate swaps in foreign currency were a new addition in the year under review. These are included in the banking book. According to ING-DiBa's calculations, as of December 31, 2017, the present value of the banking book significantly exceeds the corresponding carrying amount. The fair values of these derivatives are determined using the respective cash flows with the help of the front office valuation tools and the KONDOR+ and Murex risk management systems. The valuation model in the two systems is based on a discounted cash flow approach. The required parameters (interest rate curves, credit spreads) are provided by external data providers.

7.4.2. Hedges

In addition to general management of the interest rate risk, the Bank also concludes interest rate swaps in order to hedge the Bank's interest rate risks that result from securities in the liquidity reserve. Hedge accounting is applied to some of these micro hedges pursuant to section 254 HGB.

Under hedge accounting, changes in fair value of the hedged items due to changes in interest rates are almost fully compensated by the offsetting changes in value of the hedging transactions belonging to the hedged item over the entire term of the hedged exposures. The terms of each of the hedging derivatives (e.g., volume, term, interest dates, coupons) correspond almost completely to the terms of the hedged items. The effectiveness of the hedges is documented prospectively using regression analysis. The effectiveness is measured based on a time series of

30 support points from the beginning of the support period up to and including the beginning of the hedge period, extended by an artificial support point up to the end of the period the change in interest rates is assumed based on the offset scenario used (interest rate shock, 100 basis points, on the day following the beginning of the hedge period). All hedges were effective in the fiscal year just ended. ING-DiBa has decided on the net hedge presentation method for the recognition of the effective portion of hedges.

The carrying amount of hedged assets as of the balance sheet date was EUR 229.0 million (PY: EUR 229.9 million). The nominal volume of hedged securities as of the closing date was EUR 225.0 million (PY: EUR 225.0 million). The hedges include derivatives with a negative fair value of EUR 16.5 million (PY: EUR 22.5 million).

Independent Auditor's Report

To ING-DiBa AG, Frankfurt am Main

Report on the Audit of the Annual Financial Statements and of the Management Report

Opinions

We have audited the annual financial statements of ING-DiBa AG, Frankfurt am Main, which comprise the balance sheet as at 31 December 2017, the statement of profit and loss for the financial year from 1 January 2017 to 31 December 2017, and notes to the financial statements, including the recognition and measurement policies presented therein. In addition, we have audited the management report of ING-DiBa AG for the financial year from 1 January to 31 December 2017. In accordance with German legal requirements, we have not audited the content of the corporate governance statement, which is included in the "Report on economic position" section of the management report.

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law applicable to credit institutions and give a true and fair view of the assets, liabilities and financial position of the Company as at 31 December 2017, and of its financial performance for the financial year from 1 January to 31 December 2017 in compliance with German Legally Required Accounting Principles, and
- the accompanying management report as a whole provides an appropriate view of the Company's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. Our opinion on the management report does not cover the content of the corporate governance statement mentioned above.

Pursuant to Section 322 (3) sentence 1 HGB [Handelsgesetzbuch: German Commercial Code], we declare that our audit has not led to any reservations relating to the legal compliance of the annual financial statements and of the management report.

Basis for the Opinions

We conducted our audit of the annual financial statements and of the management report in accordance with Section 317 HGB and the EU Audit Regulation No. 537/2014 (referred to subsequently as "EU Audit Regulation") and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements and principles are further described in the "Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report" section of our auditor's report. We are independent of the Company in accordance with the requirements of European law and German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. In addition, in accordance with Article 10 (2) point (f) of the EU Audit Regulation, we declare that we have not provided non-audit services prohibited under Article 5 (1) of the EU Audit Regulation. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinions on the annual financial statements and on the management report.

Key Audit Matters in the Audit of the Annual Financial Statements

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the annual financial statements for the financial year from 1 January to 31 December 2017. These matters were addressed in the context of our audit of the annual financial statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters.

Measurement of loan loss provisions in the lending business with retail customers

For an explanation of how the loan loss provisions for the retail lending business are measured, please refer to section 2.1 "General" in the notes to the financial statements and the sections "Results of operations" under "2. Report on Economic Position" and "Loan Loss Provisions" under "3. Risk report" in the management report.

THE FINANCIAL STATEMENT RISK

As at 31 December 2017 ING-DiBa AG recognised EUR 194.0 million of general loan loss provisions for inherent credit risks as well as EUR 275.8 million of portfolio-based specific loan loss provisions and EUR 35.7 million of specific loan loss provisions for acute credit risks.

To determine general loan loss provisions for inherent credit risks, receivables and irrevocable loan commitments in the mortgage loans and consumer loans businesses without any identifiable acute credit losses are categorised by quantitative and qualitative risk characteristics into risk classes for which average probabilities of default are calculated. In addition, loss given default is calculated based on historical experience.

To determine portfolio based specific loan loss provisions for acute credit losses in the consumer loans and mortgage loans businesses, receivables for which the debt servicing capacity can no longer be sustainably ensured are identified based on payment arrears. In addition, loss given default is calculated based on historical experience.

For terminated mortgage loans prior collateral liquidation, the Bank determines specific loan loss provisions that are calculated case-by-case based on the estimated future cash flows, taking into account expected proceeds from the sale of collateral.

The financial statement risk particularly concerns the potential absence of appropriate estimates or discretionary judgements in the determination of loan loss provisions for retail customer loans and thereby the inherent and acute credit risks not being taken into account in accordance with the German Legally Required Accounting Principles. There is significant discretionary leeway in the loan loss provisions regarding the estimates of probabilities of default and the loss given default and/or the future cash flows including proceeds from the sale of collateral.

OUR AUDIT APPROACH

Based on our risk assessment and evaluation of the risks of material misstatement, we used both control-based and substantive audit procedures for our audit opinion. We therefore performed the following audit procedures, among others:

First, we gained a thorough understanding of the performance of the loan portfolio, the associated credit risks and the internal controls with regard to identifying, controlling, monitoring and evaluating credit risks associated with retail customer lending. To assess the appropriateness of the internal control system with regard to identifying, controlling, monitoring and evaluating credit risks, we conducted inquiries and inspected the relevant documentation. In addition, we audited the implementation and the effectiveness of relevant controls, including application controls, that are intended to ensure derivation of assumptions and parameters to determine the loan loss provisions in accordance with the German Legally Required Accounting Principles. With the involvement of our IT specialists, we audited the effectiveness of the general IT controls for the relevant IT systems.

With regard to the probabilities of default incorporated into the calculation of the general loan loss provisions and the loss given default used in the determination of the portfolio based specific loan loss provisions and the general loan loss provisions, we assessed the appropriateness of the validation carried out by the Bank and reviewed the implementation of the recalibrations derived from the validation. In order to express an opinion on the appropriateness of the historical database for the loan portfolio as at 31 December 2017, we assessed the analyses conducted by the Bank that examine current qualitative factors and environmental effects which could lead to credit losses deviating from the historical database.

Furthermore, we conducted audit procedures in relation to the quality of the data used for determining the specific loan loss provisions and portfolio-based loan loss provisions.

In addition, we verified the mathematical accuracy of the calculation methods used for deriving parameters to determine the portfolio-based specific loan loss provisions and general loan loss provisions.

Using sample sales proceeds in the mortgage loan business, we also audited the historical database used to determine loss given default.

Regarding the specific loan loss provisions in the mortgage loans business, we used a random sample to verify that the loan loss provisions according to the German Legally Required Accounting Principles was calculated based on appropriate estimates, particularly in relation to the value of collateral. We used expert valuation opinions in this process, among other things. In this regard, we evaluated the competence, professional skills and impartiality of the experts, gained an understanding of their work and assessed its suitability as audit evidence.

OUR OBSERVATIONS

Estimates made by management that underlie the calculation of the loan loss provisions for retail customer loans have been determined properly as a whole and in accordance with the applicable accounting policies of the German Legally Required Accounting Principles. The probabilities of default and loss given default used have been properly derived from historical data.

Identity Access Management in the Financial Reporting Process

Please refer to the section "Organisation of the ICS Ac" under "4. Internal control system for financial reporting" of the management report for further information on Identity Access Management at ING-DiBa.

THE FINANCIAL STATEMENT RISK

Due to the size and complexity of ING-DiBa AG, the financial reporting process is highly dependent on information technology and the completeness and accuracy of data. Inappropriate granting of access rights for IT systems therefore constitutes a risk for the accuracy of financial reporting. This applies in particular to systems in which the access rights are not granted according to the minimum principle (granting authorisation based on the requirements of the role and not granting any further authorisation) or the segregation of duties principle (e.g. between IT and the specialist department or between development and application operations).

The Bank's IT infrastructure is partially outsourced to companies in the group of ING Groep N.V., Amsterdam, as well as to external companies.

As unauthorised system access, inappropriately extensive authorisation and insufficient separation of functions entails the risk of intentional or accidental manipulation, which could materially affect the accuracy of financial reporting, the establishing of and adherence to appropriate precautions is of particular importance for our audit.

OUR AUDIT APPROACH

We gained an understanding of the IT-related control environment of ING-DiBa AG and the service organisations. To this end, we performed a risk assessment and identified IT applications, databases and operating systems that were significant for our audit.

For relevant IT application controls within the financial reporting process, we identified general IT supporting controls, in particular regarding access protection, and verified their structure and functionality. Our audit procedures concerned:

- Verifying that the initial access to IT systems for joiners or movers is subject to appropriate screening and is approved by an authorised person in line with the authorization design concept.
- Verifying that employee access rights are removed within an appropriate period following change of organisational unit or departure from the company.
- Verifying that a review is performed of the appropriateness of the system access granted for personalised and non-personalised privileged access rights and if they are subject to a particularly restrictive authorisation-granting procedure that is regularly monitored.

Moreover, we conducted further audit procedures concerning password protection, additional security settings regarding changes for applications and databases, the separation of functions

between specialist department and IT users and the separation of functions between employees responsible for program development and those responsible for system operations. We also checked if program developers have release rights in the change process and if they can carry out changes directly in the productive versions of applications, operating systems and databases, as these roles must be separated functionally.

Based on the results of our audit of the internal control system, we performed the following further audit procedures:

- In cases of inappropriate granting of authorisation, we familiarised ourselves with the individual authorisations granted specifically and then reviewed the usage protocol of the user concerned to check for unauthorised activities.
- Furthermore, in cases of ineffective IT controls, we identified and reviewed further controls with a compensating effect.
- We performed segregation of duties analyses on critical portfolio management systems in order to determine adherence to the functional separation between incompatible activities.

OUR OBSERVATIONS

Based on the results of the audit of significant controls and substantive audit procedures, we conclude that the Identity Access Management generally satisfies requirements for completeness and accuracy of data. Where we found deficiencies in the controls, we performed further audit procedures and in particular identified compensating controls that addressed the risk for these annual financial statements as at 31 December 2017.

Other Information

Management is responsible for the other information. The other information comprises:

- the corporate governance statement, and
- the remaining parts of the annual report made available to us after the date of the auditor's report, with the exception of the audited annual financial statements and management report and our auditor's report.

Our opinions on the annual financial statements and on the management report do not cover the other information, and consequently we do not express an opinion or any other form of assurance conclusion thereon.

In connection with our audit, our responsibility is to read the other information and, in so doing, to consider whether the other information

- is materially inconsistent with the annual financial statements, with the management report or our knowledge obtained in the audit, or
- otherwise appears to be materially misstated.

Responsibilities of Management and the Supervisory Board for the Annual Financial Statements and the Management Report

Management is responsible for the preparation of the annual financial statements that comply, in all material respects, with the requirements of German commercial law applicable to credit institutions, and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German

Legally Required Accounting Principles. In addition, management is responsible for such internal control as they, in accordance with German Legally Required Accounting Principles, have determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, management is responsible for assessing the Company's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, management is responsible for the preparation of the management report that as a whole provides an appropriate view of the Company's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, management is responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

The supervisory board is responsible for overseeing the Company's financial reporting process for the preparation of the annual financial statements and of the management report.

Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Section 317 HGB and the EU Audit Regulation and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgement and maintain professional scepticism throughout the audit.
We also:

- Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures (systems) relevant to the audit of the

management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of these systems.

- Evaluate the appropriateness of accounting policies used by management and the reasonableness of estimates made by management and related disclosures.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to modify our respective opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with the German Legally Required Accounting Principles.
- Evaluate the consistency of the management report with the annual financial statements, its conformity with [German] law, and the view of the Company's position it provides.
- Perform audit procedures on the prospective information presented by management in the management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by management as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the relevant independence requirements, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, the related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the annual financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter.
