

In partnership with

Your Trusted Partner for Cryptocurrency Trading

Deutsche Börse Digital Exchange is a regulated multilateral trading facility for cryptocurrencies, tailored to the needs of institutional investors. Our mission is to help all European investors to perform better by extending their investable universe to include crypto within a trusted market infrastructure.

Together with our partners at Crypto Finance, we offer a one-stop-shop solution for trading, settlement, institutional grade custody and further services – all under the Deutsche Börse Group umbrella.

Key Features at a Glance

Respond to increasing client appetite

Scalable access to Deutsche Börse's multi-asset platform with wholesale execution quality

Maintain highly trusted value proposition

Leveraging Deutsche Börse with highest standards of compliance to ensure fair & orderly trading via mature technology & professional operation

Get ahead of competition

Leverage existing access points to Xetra/Eurex via trading technology T7, i.e. no significant CAPEX needed. Post-trade processes integration is uncomplicated via Crypto Finance

Profit from attractive wholesale execution quality

Execute client orders at wholesale market prices & hedge own positions

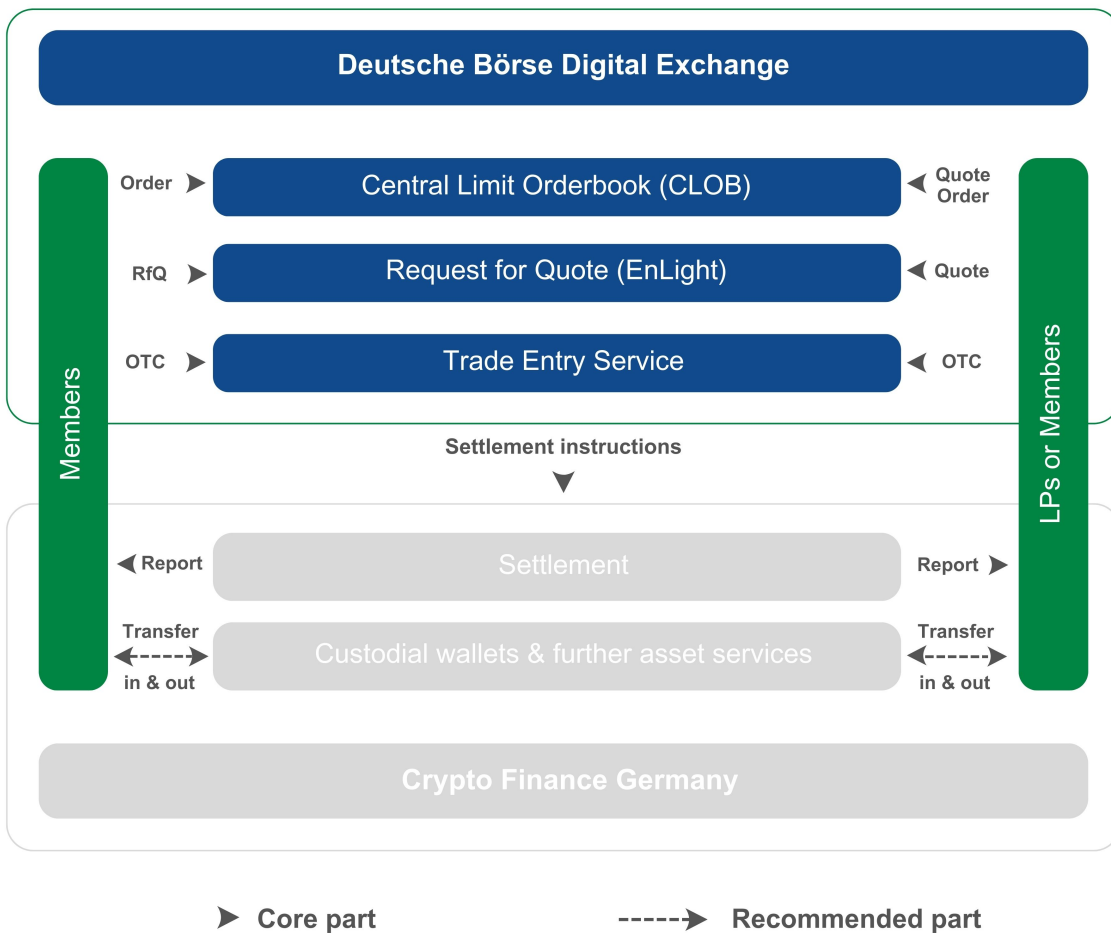

In addition:

- Capital-efficient **no-pre-funding** feature, unique in the crypto market
- **Off-chain DvP**: eliminates notional counterparty risk, gas fee efficient
- **Different access models possible**, incl. 24/7 trading
